## From Reader Review Need You Now for online ebook

### Kim Perry says

I really enjoyed it! Danny is biding her time at her job until she can attend med school. Danny doesn't step outside the lines until Jenson tempts her. She's immediately drawn to this sexy stranger and she's tempted to follow her hormones instead of her head. Jenson is an intelligent, powerful man and after she learns who he really is, Danny doesn't know how much she can really trust him even though they have explosive chemistry. I'm left wanting more of Danny and Jenson!

REVIEW: NEED YOU NOW is the prequel novella of Lisa Renee Jones's new, adult, contemporary Shattered Promises series focusing on billionaire businessman Jensen Miller and Danielle (Danny) Woods. As Danny continues to work towards earning enough money for medical school she will be pulled into the vortex that is Jensen Miller.

Need You Now sets up the reader for a roller coaster storyline where two people meet for an almost one-night stand but discover they have much more in common. We follow as our couple is pulled together time and again; where the heart wants what it cannot have; and where betrayal and misunderstanding are at the center of heartbreak and pain.

NEED YOU NOW is a sexy, sensual and revealing introduction to Lisa Renee Jones's Shattered Promises series-a series that will have you begging for more.

I received an ARC from the author for an honest review (Member of Lisa's Underground Angels).

This is a prelude book to a new series called Shattered Promises. I have to say this was a very short but entertaining read.

The book follows Danielle/ Danny Woods and the opening Danny is out with her friend Katie who is having a birthday. Danny meets Jensen and has an almost one night stand at the hotel where she works. The next morning Danny finds out that Jensen is more than he let on. The two must work together in a business setting with the one night between them, and then they succumb to the chemistry to one another. This is a great read and I cannot wait to read the series when it comes out.

### **Angela Carr (Under the Covers Book Blog) says**

Need You Now is a novella from the 1,001 Dark Nights Series. It is an exciting introduction to Ms. Jones new upcoming series called Shattered Promise. I can honestly say that this novella was a pleasant surprise.

Danny and Jensen had an amazing attraction with each other after meeting at a bar. Not quite a one night stand, but something between them that cannot be left unexplored. Unfortunately, they find out the next day that not only they both are in the hotel business, they will also have to work closely together. Despite being professionals, they still cannot deny or ignore the feelings they have. Will they break down? Well, the question is when and where it will happen, and the details will leave you in "need" as well. =P

I truly enjoyed this short story and to my surprise; it didn't have an insta-love short stories usually have. I think Ms. Jones did a great job with Danny and Jensen having enough time to fall in love with each other. Danny and Jensen's story was sexy, sweet and most definitely hot!!! It was still too short for my liking, and

there was a tad of unanswered questions. This is one of Ms. Jones' trade mark.

She often leaves her readers wanting more. That's fine with me; I've come to trust that this author will always deliver a good story. With that said, I'm excited and intrigued to see where Ms. Jones will take this series next.

I received an ARC of this book and was a little hesitant. I love everything I've read by this author, but I was afraid she couldn't possibly come up with new intriguing characters or a new storyline. I am very pleased to say I was wrong. very wrong.

Lisa does a great job of creating strong yet vulnerable characters that find what they need in each other in spite of not knowing they need it.

well done, Lisa!!

### **Darcy says**

There was something about this one that I didn't care for right away. Not sure if it was the scene at the bar or the way that Danny seems like a doormat, or if it's how Jensen seems like an ass from the start. Whatever it is, in the end this one just wasn't for me.

### **Drue DePompei-Hoffman says**

What a fantastic novella. I have never been a fan of Novella's, but Lisa Renee Jones is quickly changing my view on them.

Jensen and Danny are electric, their attraction is instant and deep, but when they find out exactly who the other is, things become complicated. Then, Danny's boss (Jensen's Aunt) makes things even more complicated to these two. As they try to keep things professional, sexual tension builds until it finally explodes.

I so hope we get to find out more about this couple, I feel instantly in love with them.

### **Lori Johnson says**

How many complications can one night bring? Mixed with heat and a mysterious stranger, just enough to make this another amazing story from Lisa Renee Jones.

## Brie says

Can you imagine bumping into someone and the pull is so strong that you somehow feel connected? This connection will change you and your life completely, making you throw caution to the wind and just finally live. Life for Danny changed just like that. A touch, a simple kiss awakened things inside of this good girl that she never gave anyone the chance to possess....

” Deep, passionate , drugging strokes of his tongue that are more a claiming than a seduction. I am his in this moment and I don’t even try to fight it. Me. Good girl, the boss’s secretary who doesn’t color out of the lines, is so out of the lines right now, I’m about to fall off the page. And I like it. Oh yes, I like it a lot. “

Jensen, his name alone excludes sexiness, power, money and control. Tall, dark, hard with emerald colored eyes, could you resist? I couldn’t and that’s why I fell hopelessly in love with him just like Danny. I had no choice, it was instant, starting with a little spark that grew into a roaring flame.

” He is power. He is money and control and I have no idea why, but suddenly I am back in that hotel room and he is yanking my skirt up my hips... “

Danny was alone and perfectly fine with that until she meets Jensen. He made her feel alive by forcing her walls to come tumbling down. He made her see her desires and not only accept them but embrace them full force.

” For once in my life, I want to color outside the lines, and not in sweet hues of pink, but in fiery red. “

It was beautiful to watch these two strong characters fall in love with each other, it was like watching someone set a caged bird free. He freed her from loneliness, he freed her from herself.

” He’s addictive and our silence is golden. It’s freedom and it’s forgiving, asking no questions, demanding no explanations. It’s freedom I never allow myself, not even with my past lovers, but I feel it now. “

I didn’t know what to expect going into this novella because it was different than LRJ’s normal romantic suspense books, but she did not disappoint. Her writing remains as flawless as ever and I honestly never get tired of reading her work. I can’t wait to get the conclusion of Danny and Jensen’s combustible love affair!

” ...I am ready to admit he evokes more than passion in me. I respect his skill, but I still fear he’s more the Wolf On Wall Street than Prince Charming. I glance up at him, and his gaze meets mine, and I swear there’s a hungry look in his eyes that is one part man and one part beast. The effect has me tingling all over and fighting a flashback from last night, remembering his hands, those skilled, wonderful hands, all over my body. I decide right then that a fairy tale is boring. At least once in her a life, every girl needs a really sexy deliciously male, wolf. “
