#### **That First Kiss** by J.C. Valentine

Piper Donovan needs a job - bad. She's running on fumes and if she doesn't get this job, she's done for - no choice but to head back to Alabama. She had left that small town with no intention of ever going back there to live, she was meant for the big city and with any luck, she'd stay here.

Tate Larson needs an assistant, or a keeper, either way he needs help. Some people may think he's unreasonable, rude and downright nasty, but in his opinion, everyone should have the same work ethic as he does -- and want to wait on him hand and foot.

Piper gets the job and goes out with her girls to celebrate, and catching the eye of *the hottie with the body* and takes him up on his invitation to for hot sex in the women's bathroom.

Imagine both their surprise when Piper shows up for her first day on the job and the *hottie* is none other than Tate Larson, her new boss. Tate can't believe his luck -- sure he'd been thinking about her since their hook-up but that doesn't mean he wants to work with her. Piper doesn't want to work with Tate any more than he does with her, but for different reasons. The *hottie* from the club has been replaced by an irritable a\$\$ that makes her want to hop on the first bus back to small town, Alabama.

Jump aboard the crazy train that tells the story of Piper and Tate. Lots of real life scenarios mixed with misunderstandings, denials and lust.

This was the first book that I've read by Ms. Valentine, but it won't be the last.

~I received a free copy of this book to read and review for Wicked Reads Review Team~

This box set is jam packed with hot alphas, hot sex and hot women! I really enjoyed Billionaires in Disguise: Rae. This book was about Reagan who was flunking a class in college and needed to find a good paying job since her scholarship was going to be pulled. Rae's friends tell her to go to the Devilhouse, she can make \$2,000 a week there. When Rae's friends take her there for a party and to introduce her to The Dom, she has no idea that the blonde hottie SHE banged up against the wall was THE Dom. This was an awesome series book and it kept your attention the whole time and made you want to keep reading. I loved Wulf and how humble he was and how he just wanted to be loved for him.

Characters: well written and easy to relate to on most levels

Sex: hot and steamy

Religious: no

Would I recommend to others: yes

More than one book in the series: box set

Genre: Romance

Would I read more by this author: yes

A Sizzling Collection of Sensual and Erotic Romances

His Wicked Games, by Ember Casey \*\*\*\*\*

I LOVED this erotic contemporary take on Beauty and the Beast! The tale concerns the reclusive Billionaire Calder Cunningham and Lily Frazer, who trespasses onto his estate, to convince him not to pull the plug on his family's funding of the community arts centre she runs with her father. I adored the increasingly passionate encounters between the couple as Lily risks all, including her heart to secure the future of the centre. Both characters were fun to get to know and the love-making scenes were particularly inventive AND super sizzling! Suffice to say that I have added a couple of fantasies to my list after reading this novel. I am looking forward to reading His Wicked Games, book #2.

Fierce, by Clarissa Wild \*\*\*\*\*

This is an emotionally intense and oh SO sexy New Adult read. I ADORED how the author pairs geeky Freshman Autumn with the super-hot bad boy Hunter and how they bring out the best in each other. Hunter is following a dark path and when Autumn falls hard for him will he drag her down with him or will she be his light and saving grace? The plot is full of suspense and twists and turns and Clarissa Wild has a real gift for character building. There are some sizzling scenes and plenty of angst as Autumn unravels the many secrets that Hunter is hiding behind his rough persona. The read contains lots of hot and sweet sex between the couple and also violence and drug references. Book #2 Flame, which continues their romance promises to be a must read.

That First Kiss, by J. C. Valentine \*\*\*\*\*

A sexy and memorable read featuring a sassy heroine and a loveable playboy, which brims with passion, humour and some great characterisations. It is impossible not to like the spunky heroine Piper who wants to escape her poverty stricken roots as she is hardworking, fun loving and independent. The scene where she first hooks up with Tate is a SIZZLING one! There were times when I could have cheerfully slapped Tate for being such a cad to Piper, but he DID grow on me. I particularly loved how Piper stood up to him and tried to ignore the attraction between them. Of course, although Tate has commitment issues he cannot deny the attraction he feels for Piper, yet will he lose her before it is too late?

Slow Burn, by V.J Chambers \*\*\*\*

In this romance I loved the fact that the hero Griffin and the heroine Leigh, two individuals who are very much broken in their own way, come together and help each other to mend. Leigh is leading an aimless life at college, indulging in drugs and meaningless sex, until Griffin appears. Realising she is in dire danger and at the same time becoming more and more attracted to the taciturn bodyguard hottie that is Griffin, Leigh decides to turn her life around. Despite their attraction, Griffin hides a dark secret that could jeopardise their future relationship and enemies are hot on their heels trying to destroy them. The tale contains some hot scenes, jealousy, drugs, violence and suspense. There are also references to psychological and physical abuse. Slow Agony is the next read in this series.

Layers, by Lacey Silks \*\*\*\*\*

This is SUPER SEXY erotic Romantic Suspense and one of my favourite within the boxed set in terms of its sizzling scenes and its intricate plot which kept me guessing. The heroine Allie wants revenge on a man responsible for destroying her life. The hero Tristan needs her expertise to help him rescue someone close to him and the mission puts her in great danger. I LOVED the chemistry between them – it is off the Richter scale and they cannot keep their hands off each other! Yet will Allie escape physically and emotionally from the mission once it's complete and will she succeed in garnering Tristan's help in exacting revenge? The read is very suspenseful and secrets are slowly revealed as the story progresses. It does end on one helluva cliff hanger and I will definitely read the next book, Layers Peeled, as I badly need to know what happens next!

Learning Curves I and II: French Cooking 101 and Advanced French Kissing, by Olivia Rigal \*\*\*\*

This novel is cleverly and expertly written – just when I thought that I had got the measure of some of the main characters I began to question my opinions and wonder if they are at all what they seem! I liked how it was written from the different POV of the main characters, giving me a real insight into their motivations and their actions. The novel is inter-dispersed with delightful French recipes, much humour and some hot lovemaking scenes. The principal characters have some baggage from previous relationships which they have to come to terms with. The book mainly focuses on the romances of siblings Mary and Peter. Peter, a widowed academic, who has accompanied his sister to Paris. Both siblings find romance – Mary with the taciturn George, an author and Peter with the owner of the cooking school, Ariane. The path to true love is not straightforward for Ariane and Peter however, as there are sacrifices ahead and also secrets from the past that the couple will have to contend with. Also is Peter the right man for Ariane after all she has been though? The next book in the series, Learning Curves 3, Detention, continues the tale.

Can't Shake You, by Molly McBain \*\*\*\*\*

This romance is also a favourite of mine from this boxed set. It tells of Josh and Carissa, who spent a passionate night together four years ago, after which fate drew them part. Yet a few years down the line Josh returns to the small town and he finds himself honour bound to assist Carissa with a property renovation. A permanent relationship seems out of the question as since their initial encounter, Carissa has had a relationship with Josh's best friend. I loved the emotional and physical attraction between the couple and how their mutual lust turns to passion and they become friends with benefits and more! Will Josh's sense of honour, coupled with the fact he does not feel good enough for Carissa mean their relationship is doomed? Carissa also has her own emotional issues to deal with. Can these two wounded people help each other to heal? An unexpected enemy puts adds an element of danger and suspense to the scorching plot.

His Indecent Lessons, by Sky Corrigan \*\*\*\*

This is a bold piece of work as it deals with what is regarded as a taboo subject – a relationship between a

student (albeit one who has reached her majority of 18) and a college professor who is older than her. Whereas Cheyenne fantasized about meeting a more mature student who would show her the ropes in terms of sex, she strikes gold with her sexy college professor Damien. The way Cheyenne inadvertently draws his attention to her is a scene that I will NOT forget in a hurry and had me cringing and laughing out loud at the same time! Little does she realise the consequences of her actions as she embarks on college lessons of a totally unexpected kind, where she begins to explore her sexuality more fully! Yet is there a future for them when she is so young and Damien has his position as a professor to protect, not to mention the age gap? Is it just sex or is there something more? This works well as a standalone but Sky Corrigan continues their romance in His Indecent Training, which promises to take their relationship to the next level.

Rae Omnibus. Billionaire In Disguise: Rae, by Blair Babylon \*\*\*\*\*

OMG – this book is by far my favourite! It is downright sexy, the scorching love-making scenes being something very special indeed. I just loved the characters of both the hero and the heroine and as the plot progresses the emotionally intense scenes at times moved me to tears. When Rae Stone agrees to work at the Devilhouse, a BDSM club run by Wulf a mysterious and controlling Dom, so that she can fund her college course and her dream of a clinic for autistic children, little does she know how her life will never be the same again. The imagination of the author knows no bounds, the love-making scenes are sublime and their rollercoaster romance went in directions that I could not have anticipated, but the storyline flowed beautifully. I was totally emotionally invested in the characters and I will certainly be seeking this author out again. This book is a standalone, but the next book in the series, Falling Hard: (Billionaires in Disguise: Lizzy) sounds a must read too.

Sorority Pledge (Books 1-6), by Daizie Draper \*\*\*\*

This is a coming of age story, comprising the first six books in a ten book serialization that follows a rocky romance where the hero Logan and the heroine Addison delve into the BDSM lifestyle in a big way! It contains many heated scenes of power play between the couple as they explore the dynamics of the BDSM lifestyle for themselves and what their own limits are. It balances this with the impact this has on their studies and their growing bond with one another. It is sexually explicit and a good introduction to readers who are not familiar with reading books on this lifestyle but want to read more.

A copy of this boxed set was given to me for the purpose of a fair and honest review.

Always Enough by Molly McLain

This is a short sexy story starring Tony and Nicole from Can't Get Enough (River Bend #2). They are already a firmly established couple but life has gotten in the way, and they hardly get any time together. In this story they finally get a chance to reconnect as lovers. I really enjoyed seeing them again, the challenges they face as a married couple will be familiar to those readers with children and careers who've gotten stuck in a rut. They still have chemistry together and we get a lovely sexy scene between them. It was great to visit them again, and a good reminder of how lovely this series is!

## **Mary Mooney says**

What an excellent boxed set. I have read several of these stories and loved them all. The HOT alpha males are to die for. There are 10 stories in this set and I can wait to read the rest. So get this boxed set, you will not be disappointed.

When she's not writing steamy romances, you can find her whipping up baked goods (usually of the chocolate variety), traveling (her bucket list is infinite), or generally causing trouble (because somebody has to do it).

It has an excellent storyline, lots of sexual build up and frustration that leaves the reader fully satisfied at the outcome.

They are sweet and almost shy at first. Neither knowing what the other is really feeling and thinking. I loved all the angst between them! Hunter is fighting for the only family he has and Autumn is there to help him as soon as she can figure him out. Love these two!!

She's a happily married wife blessed with two kids who adore going to the library. She's an early bird by nature, but loves the nightly adventures with her hubby

which provide good content for her books.

Born in Manhattan, Olivia Rigal spent her youth going back and forth between the United States and France. She lived and studied law in both countries. In Manhattan, she was a dog groomer and then an administrative assistant in a famous English auction house. Olivia settled in France to raise her family. She travelled throughout South East Asia and has a special fondness for Laos and Thailand. When her law practice does not keep her busy in Paris, she runs away to write novels in her Florida home next to MacArthur Beach State Park. In December 2012 she started publishing short novels in English as an independent. Early 2014, she began translating them into French. The story she tells stand alone. However her characters often meet so you can run into them again in several stories.

### ***Can't Shake You by Molly McLain***

Molly McLain lives in northern Wisconsin with her husband, her three children, and a rambunctious German Shorthaired Pointer, named Tucker. She's been penning fictitious love stories since middle school and, at her 8th grade graduation, her class predicted she'd be a published author by their 20-year reunion. Well, she's achieved that goal with plenty of time to spare. Now the question is...how many books will she be able to show off when that big day comes?

Hot shit Batman another scorcher! I could not put this down! If your looking for a quick hot read with a decent story line this is your book! Carissa the main character is a strong willed, independent, determined

woman. She doesn't do so hot in her love life, but there is one hot hunk of a man that melts her into a puddle.

Josh Hudson

He's an ex-marine turned contractor. He feels like he's the black sheep of his family. Not following in his daddy's footsteps. He had it bad for Carissa before he was deployed, but he never told her. She ended up with his best friend when he got back, so Josh just keep his distance. Now his brother is marrying her best friend and he's suddenly seeing a lot more of Carissa! Neither one of the can deny the sexual pull between them, but can they explore their feelings for one another without hurting their friends? This is one steamy, romantic, eye teaser and I loved every second. This box set will definitely keep you hot and bothered. Either have a man you can call or a B.O.B. Handy!!!

### *His Indecent Lessons by Sky Corgan*

Sky Corgan lives in a little podunk town near San Antonio, Texas. When she's not typing away at the next steamy romance novel, she's busy planning for future vacations.

Ummm!! Hot, hot, hot!!! Cheyenne Gear is starting college with one goal in mind, men. Not those immature high school boys, she wants a real, sexy MAN.

Her first day of college is not drumming up any hopefuls until she sees him. Damien Reed is not just inaccessible, he's her teacher.

After an act of indiscretion Chey is on Damien's radar. He offers the innocent Chey some lessons she can't refuse. Now she's torn between the boy, now man, that was always there and the mind altering sexy man

who's off limits. Who will be the one to hold her heart? And where can I get some lessons like this?!?!

### *Sorority Pledge by Daizie Draper*

Daizie Draper is a happily married sex fiend, who loves to write naughty stories that mix the sweetness of chocolate with the bite of leather. She likes sensuality, kink, fruit, impressionistic art, spanking and beauty. She hates big bugs, freedom crushers, injustice, artificial orange and onions. Along with 27 other people in the world, she has never read Fifty Shades of Grey.

### *Rae Omnibus by Blair Babylon*

Originally a horror author, sex scenes and love stories kept magically creeping into her work, so she decided to make the switch to romance. Now she enjoys writing stories that make your heart flutter and your inner yearnings awaken.

Well, Well, Well! This Box set was just one HOT ASS RIDE after another!

This story sort of threw me for a loop at first but then quickly picked up and I was drunk with passion. I couldn't put it down. I barely slept. Let me just say the Wulf will be your next book boyfriend hangover. HOLY SHIT!!

In Totality this Box set lives up to it's name.

## **Romance Readers Retreat says**

This is one huge box set. I'll be honest, it's the first time I've ever taken on such a huge collection. There are over 3000 pages to read here! For the price you simply can't beat it.

When they say this collection contains 10 full length novels, you can believe them. There really are 10 full length novels, not novellas, not short stories pretending to be novels, these are real full length novels. Most of them are the first part of a series, so if you love a particular novel, be prepared to go out and pick up the rest of the novels in that series. Actually, I think that's probably sort of the whole point of creating a box collection like this.

I have to say I enjoyed nearly all of these novels. Some probably more than others, but there really wasn't a stinker in the whole bunch. The highlights for me were:

His Wicked Games by Ember Casey. I'm going to have to go out and get the rest of this series. I have to know what happens to Lily and Calder next.

That First Kiss by J.C. Valentine. Although this is book two from the author's Night Call series, it is really a great standalone story. It tells the steamy story of notoriously difficult to get along with author, Tate Larson and his new assistant, Piper Donovan.

Slow Burn by V.J. Chambers. This is a strange mix of science fiction and romance. It features super soldiers who cannot die, unless you cut their spinal chord. Although it's the first part of a series, it read like a standalone novel which I really enjoyed.

Billionaires in Disguise: Rae by Blair Babylon. This was a great series of nine short episodes that together formed a complete novel telling the delightful story of how Rae met and fell in love with the "Dom" of the The Devilhouse. Definitely one of my favorites in the whole collection.

I enjoyed all of the others as well, but those listed above were the standouts for me.

You really cannot go wrong with this collection. You get a ton of reading for next to nothing. You may like one of the books more than another, but I promise you won't find a really bad book in this collection. Enjoy!

### Hooked On Books says

I was given this book to read in turn for an honest review!!!

Firstly this is a great collection of books, you will not be disappointed. So many Alpha Males to fantasise over and live the story every step of the way with them. I had only come across Ember Casey's writing before but I now have more Great Authors to read and follow. This seriously is the hottest collection of books you can come across and what better way to get such a collection then to buy Red Hot Obsessions. However your TBR List will get a whole lot longer after you have read this collection of books that I can guarantee because mine sure has.

His Wicked Games by Ember Casey

Story of a Billionaire with a huge secret, it takes the falling for a rich Bachelor to a whole new level and I loved it. It's a great read and you will be quick to add the other books in the series to your TBR List. Ask for Calder OMG I loved him, you are attracted to his hidden character immediately, however Ember Casey keeps you guessing till the very end as to what secret he is hiding.

Fierce by Clarissa Wild

Great read and I can't wait to read more. Clarissa Wild put on many twists and turns to the story keeping you guessing and still making the ending unpredictable, I absolutely loved it. Not your normal love story but boy did it pull at those hearts strings in places. You can't not love Hunter Bane he is strong in every sense of the word and what a life he is living. My TBR List just got a whole lot longer.

That First Kiss by J.C. Valentine

Another great read, but this is one story you will find yourself shouting at, it's so obvious yet so unobvious to them. However you can not put the book down you just need to know what they are going to do next. Tate Larson has a broken heart and he has met his match in Piper Donovan, but can he realise what he has in front of him before it's too late. Can't wait to read more of J.C. Valentine's books.

Slow Burn by V.J. Chambers

Taking romance and action to a whole new level, Leigh and Griffin both hold a huge secret. Her life's in danger no thanks to her Father and Griffin was begged by him to keep her safe. However neither knew they would end up falling for each other and helping the other with their broken souls. The story has a great twist to it and a few things left unanswered, I can not wait to read more in the series to see what V.J. Chambers has in store for Leigh and Griffin.

Layers Deep by Lacey Silks

Firstly OMG what a cliff hanger Lacey Silks leaves you with, what will happen next and how, why etc. Great read, could not put it down. The passion and attraction between Tristan and Allie is HOT really HOT. From the moment they meet neither can deny they have a strong attraction. She needs to work for his company to seek her revenge and Tristan needs Allie to help him find a kidnapped friend; emotions are high on so many levels. Can they complete the mission and keep their emotions professional? I can't wait to read the rest of the trilogy.

### Learning Curves 1&2 by Olivia Rigal

Two short but great reads, book two leaves you with a moment off, seriously your ending the story there???

And yes she does. Set in the world's most romantic city of Paris, Ariane sets up an intense cooking workshop weekend for a few American clients. Not only does Ariane find an attraction in one of the clients but two other clients also find an attraction in each other. The first book follows the story of two couples but book two goes onto Ariane and Peters story with updates on a few of the characters from the first book. Loved the story outline and again can't wait to read the third book.

#### Red Hot Obsessions Review

I give 5 out of 5 stars over all.

Wow! That is all I can say about Red Hot Obsessions! You get 10 full novels for the price of one. It is totally worth it. I give all of these books 4 or 5 stars each. Although each book is in the steamy, hot, and sexy genre, they are each uniquely different. When read one I kept thinking that they couldn't get better than the last, but I was so wrong.

These are either first books in series or books that can be read as a stand alone. If you are looking for great series to start, then pick this one up, read the first book, and buy the next ones if you are into it. I plan to finish each of these series.

I also just found 10 more authors to stalk for new books! Don't own this one yet? What are you waiting for?!? Get it now!

### **Carly says**

Something for everyone!

This boxed set is an amazing compilation of talented authors who are known for writing sensual romances. The variety of subgenres guarantees that there is a little something for everyone, but if you are anything like me I know that once you start reading you won't be able to stop!

I haven't finished all the stories yet, but the ones I've read so far have already put this boxed set at the top of my list of this summer's best reads!

### FIERCE by Clarissa Wild

A well written, fast paced, sensual adventure about discovering who you are, who you're meant to be, and finding the strength to survive in the arms of the one person who makes you complete. Opposites attract in

this coming of age drama that drew me in from the very first page!

#### **BILLIONAIRES IN DISGUISE: RAE** by Blair Babylon

An erotic romance set in a decadent BDSM world that only Blair Babylon could create, The Devilhouse series immerses readers into Rae's journey of self discovery. The complex relationship that develops between Rae and Wolf takes them on an emotional journey of self discovery. Sometimes the only way to move forward is to let go of the past, but the best lessons are the ones that are often the hardest to learn.

A copy of Red Hot Obsessions was provided by Author Clarissa Wild in exchange for an honest review.

#### **Melonie Merritt says**

WOW!!!! That is the first thing that comes to mind when I think about all these books being together. Each book held my attention from the first word. Between all these books you get a little bit of everything. There is drama, romance, and of course smut. When I agreed to read this I only knew one author involved. Now I can say I have some new favorites and I will be looking for more books from these authors. Unlike a lot of boxed sets by different authors that I have read where you get short stories these are all full length novels that will keep you on the edge of your seat and may or may not leave you felling HOT! I highly recommend this to anyone over the age of 18!

"I received a free copy of this book to read and review for Wicked Reads."

So far, I have read only two of the stories - see below - but I can see this is going to introduce me to some great new series already.

##### Learning Curves - by Olivia Regal

This series (two episodes are provided) is set in Paris and starts at a Cookery School; already two major pluses for me. There is an amazing amount of detail about all of the characters, which submerges you into their world very quickly, and had me worrying and smiling in equal measure. I was a Peter shipper, until the elderly landlady Caroline uncovered some of his proclivities. Now I am not so sure... will have to get the next book to find out how it all turns out! This is a fun, steamy read, with something for everyone.

##### His Indecent Lessons - by Sky Corgan

This is the first in a series - which splits depending on what you would prefer to read - erotica or BDSM - which I think is a clever idea, and can give you twice as much of the characters, if you like them. The first introduces us to Skylar. She is newly enrolled in college and ready for an adventure. Possibly unwisely, she falls for one of her professors, who agrees to give her private lessons in sex. Combine this with a high school friend who is desperate to take things further and Skylar gets into all kind of tangles! There are a whole host of ethical issues which she wrestles with too, which are interesting to observe.

This is a fun, sexy romp, which starts Skylar on a voyage of discovery.

For a bargain price, there is definitely enough here to whet your appetite and have you discovering a whole range of new books to read - Enjoy!

I received a free copy of this book to read and review for Wicked Reads.

I read Can't Shake You (River Bend #1) by Molly McLain, the seventh story in Red Hot Obsessions.

Can't Shake You is an excellent example of a small town traditional romance. It was a joy to read. Good build up lots of story and different characters, a bit of mystery with realistic drama.

The romance and steamy scenes between Josh and Carissa is sizzling hot but there is more to story than just their relationship. This is romance for grown ups and I loved it so much I've already purchased Can't Hold Back (River Bend #1.5).
