Liz says

Nothing new or different from the movie, but still good and interesting.

Patti says

My granddaughter and I watched the movie together, and then we read the book together. Written as a diary, it gives you insights into the thought processes of Mal, the neglected and confused daughter of the supremely evil Maleficent. We both enjoyed the movie and the book very much.

Veronica Martinez says

I love this book you should let your kids read this book before they read the 2 book it tell you a lot about the first book and the movie too

Jennifer says

Wow, I absolutely Loved this book and Love Mal (daughter of Maleficent) from Disney's Descendants movie and so cool to hear what she thinks about her journey there at Auradon Prep going there from her homeland, the Isle Of The Lost, since she is one of the villain kids :) definitely Love it & Love Disney's Descendants movie, Isle Of The Lost novel, books, & Descendants Wicked World animated series which is on Youtube :) definitely recommend this book and the Disney Descendants movie and series, especially if you love Disney or the Disney heroes and villain characters as its a really cool and original twist on it with some new characters, that being their children :)

Amy says

This was a cute, fun book that tells everything that's going on inside Mal's head during the events of the *Descendants* TV movie. You get to find out what she thinks about her friends (especially Evie!), Ben, her mom, Auredon Prep, her new classmates and everything that happens during her time at school.
