Judy Lewis says

DARKLY COMPELLING, COMPLETELY CAPTIVATING AND FABULOUSLY ENTERTAINING !!! Beneath The Broken Moon is a brand new shifter/vampire romance series from Sarah Makela and it totally rocks. It has a little bit of everything I love in a great book! If you love fantasy, magic, adventure, social, political and family conflict, action, paranormal beings, romance and angst, then this is definitely the book for you! Please be aware, this is Part Two of a series, not a stand alone story, so there is a cliffhanger. The story is dark, exciting, original, imaginative, deeply compelling and very well written. The characters are fascinating, captivating, intriguing and engaging. Makela expertly combines these elements into a brilliantly imaginative work of paranormal romantic fiction and fantasy. And this is only the beginning! The story takes place in a somewhat dystopian future world shattered by a nuclear event on the moon causing the near destruction of the human race. The remaining humans are now aware of the nocturnes and seeing them as a threat, seek to kill or capture them. What better way for a government or the rich to thrive than by oppressing the less fortunate and simultaneously keep down the population. Werewolves are now almost extinct and food sources for vampires are scarce. Even though they were age old enemies, some vampires now craved werewolf blood claiming it to be a divine elixir, almost like a drug that holds a strange allure because of the power the werewolves harness thereby further fueling the centuries old feud between the two mortal enemies. Werewoman Carmela Santiago lives in this strange new world, a werewolf born to an abusive, manipulative father. Her only value being her womb and her ability to be mated to an alpha werewolf, a prearranged marriage with someone she doesn't even know, planned and organized by her cruel father. Her future is to become an Alpha Queen and spend her life unhappy and doing nothing but producing pups to replenish their species. But after being raised by a ruthless, abusive father and seeing firsthand the horror of her parents loveless marriage, she wants no part of a prearranged pairing knowing it will only bring unhappiness and heartache. She wants nothing more than to be loved and live a life with tenderness and respect. No matter how much she dreamed, she was of noble birth and her future had already been decided. Hmm....I wonder??? Carmen was not allowed to leave her home often but her father has finally agreed to allow her to go to the theater with her cousin, Chandra. Unfortunately, the theater is raided by the Cazador, human hunters who either kill nocturnes or capture them to use as experiments to test their weapons for maximum efficiency. Carmela is severely injured trying to escape the hunters and is almost captured when she is suddenly rescued by a handsome vampire. Oh my! Did she just think a vampire was handsome? Werewolves don't think of vampires as handsome or fantasize about them - they are mortal enemies. Nonetheless, vampire Derek Ashmore saves the beautiful young werewolf and even provides medical attention, only because he used to be a medical doctor, of course. Why else would he be guilty of such a foolish act? They were enemies, after all. Although Derek is a member of the Vampire High Council, he still believes that nocturnes would soon become extinct if they did unite and present a united front to the government and to the Cazador. It was smart thinking and necessary in order for their species to survive. If he could get the others to see it as such. But maybe it was also because he was attracted to the irresistible young werewoman?? Maybe because he wanted her?? What? She is so beautiful but He's an ancient and a member of the High Council; He couldn't afford to have such thoughts. She had even admitted to him that she was to be given to another werewolf in a prearranged agreement by her family before she escaped his home. He would just have to trust that she would tell no one about him helping her and forget the whole thing. But could he forget the beautiful, brave young werewoman that was promised to someone else? Even if so wanted, it seemed fate was surely against him. He and his friend Elliot Quinn, another council member, encountered Carmela and her future mate, Brendan Kelly, several nights later. Carmela and Brendan had been injured and were being chased by the Cazador. What's a vampire to do? Why rescue her, of course, again, and her future mate. What? Brendan Kelly is the son of Neal Kelly, the Alpha of Alphas. Upon seeing his future mate, Carmela Santiago, he knew immediately she was the one for him. He and his wolf are

immediately drawn to the beautiful young woman and will stop at nothing to have her. He suspects she is being mistreated by her father and wants to help but knows he must gain her trust. What he sees later only serves to reinforce his believe that Carmela knows much more than she's telling - about more than just her father, especially after seeing her with the strange vampire who helped them escape the Cazador. He doesn't want to lose her and is determined to keep her safe from her father, and the vampire that seems all too familiar with his Carmela. Oh my glory! Will Brendon be able to help Carmela? Can he save her from her father and the Cazador? Do Brendan and Derek both, dare I say it, love the lovely Carmela? Can Carmela be attracted to Brendan and to Derek? Could she be falling in love with her intended mate and her mortal enemy? Oh my....I guess we'll have to read the book. No spoilers from me but I will say this..... Handsome, sexy vampire-check! Handsome alpha wolf shifter-check! Beautiful virgin werewoman-check! Danger, murder, action, suspense, mystery and dangerous enemies on every front-check! Instant attraction, romance and angst-you bet! I can hardly wait to read Book Three! Fabulous Entertainment and an awesome read!

Oh man this just keep getting better but for poor Carmela when it rain it pour she trying to enjoy her time out with Alpha wolf Brendan but at the same time she still thinking about Derek it's already bad enough She feels intimidated by Brendan. She doesn't know if she can fully trust him but also pissed that she's in this obligated mating in the first place all she want is to be with someone she love and to make matters worse they get attacked by the Cazador. While on the run she stumbled upon Derek who end up helping him she's so caught up in the moment with Derek not realizing that she making thing awkward between her Brendan. I know it end on a cliffhanger but things are starting to get really good and I can't wait to see what going to happen next.

Second chapter in this series. As this story spirals around abuse and some type of betrayal, this story was involved and makes the reader want to move to the next chapter. A bit of a cliff hanger. Good read

Trouble comes from all angles

Carmela goes on a date with her future arranged mate Brendan, and all goes well until the Cazador show up chasing another Vampire. But the two Vampires help and then bring them to Brendan's home. Well Carmela's father shows up thing go from bad to worst. And she still has to go back home with him until she is mated, that is if that is still even going to happen. Well written and very exciting and very entertaining to read. Looking forward to the next book.

Her heart struggles to choose between the alpha werewolf she's destined for and the vampire she's enchanted by. The wrong decision could lead to deadly consequences. The author did a great job at building on book one and leaves us with a cliffhanger and wanting to know more. I was given the ARC and just asked to give an honest review.

I enjoy reading Sarah Makela books and this is another series she has written that didn't disappoint. Beneath The Broken Moon Part Two is a shifter/vampire romance series that I enjoy reading. There is something in it for the shifter and the Vampires lover this is a great book! If you love fantasy, magic, adventure, social, political and family conflict, action, paranormal beings, romance and angst, then this is definitely the book for you! The storyline is an exciting, dark paranormal that is so imaginative, compelling and well written. The characters are fabulous, engaging, fascinating, captivating and intriguing. Sarah Makela is brilliant when it comes to story telling of fantasy and fiction. I was captivated from the beginning to the end.

The story starts where Part One leaves off. Werewolves are now almost extinct and delicacy food sources for vampires. Carmela Santiago lives with an abusive, manipulative father who to her Carmela only value is her ability to be mated to an alpha werewolf. So her father arranged a marriage with a stranger. Carmela's future is to become an Alpha Queen and spend her life producing pups so as to replenish werewolf species. Derek Ashmore the vampire who saved the beautiful young werewolf who he can't stop thinking about. Derek is a member of the Vampire High Council, he still believes that nocturnes would soon become extinct if they did unite and present a united front to the government and to the Cazador. It was smart thinking and necessary for their species and if he could get the others to see it his way. But he has doubts himself because he isn't sure it's not because he is attracted to the irresistible young werewolf Carmela? He finds her so beautiful but young and he's an ancient and a member of the High Council and he can't afford to have such thoughts. Plus the fact she even told him that she was to be mated to another werewolf in a prearranged agreement by her father. Derek isn't sure he can trust her but he has to trust her not tell anyone about him helping her. When Derek and his friend Elliot Quinn, another council member, encounter Carmela and Brendan Kelly her future mate. They had been injured and were being chased by the Cazador. Brendan Kelly's father is Neal Kelly, the Alpha of Alphas. When Brandon first meets Carmela Santiago he knows immediately she is his mate. He and his wolf are immediately attracted to the beautiful young woman and will stop at nothing to have her. Brandon suspects Carmela's father is mistreating her and he wants to protect her but knows he must gain her trust first. Then he noticed Carmela knows much more about the vampire than she's telling especially after seeing her with the strange vampire who helped them escape the Cazador. Brandon is determined to protect her even from her father and he dislikes that the vampire that seems familiar with Carmela. Is it possible that

Brendan and Derek are mates of Carmela? Carmela feels she could be in love with Brandon and Derek. OMG! I love that there is a handsome sexy vampire and a handsome alpha wolf! This is the kind of series I love danger, mystery, action, suspense, and evil everywhere! This is a series that just gets better and better. Ooooooh I'm so excited to read book three WOW!

Anne says

Picking up where Part 1 left off, werewolf Carmela is to enter into a marriage, arranged by her abusive father. Brendon is happy to marry her, as his wolf acknowledges she is his mate. Carmela wants to be more than a breeding machine and although Brendon seems nice, how can she trust him? Perhaps he is just being nice to her now, but will turn out to be just like her father. Besides, she is still strangely drawn to the vampire who had saved her previously, Derek, and can't get him out of her mind. Out on a date, Brendan and Carmela run afoul of humans looking to exterminate supernaturals and are saved by Derek and his friend, Elliott. Something unthinkable, as werewolves and vampires are enemies. Members of the vampire High Council, Derek and Elliott could be in trouble now, as Derek pushes his agenda that the supernaturals are stronger together than as enemies, but for saving the wolves they could be killed. Beneath The Broken Moon 2 is a well-written, fluid read. Intriguing in its world-building and with enough "dark" to grab your emotions, I can't wait to see where it's going next, as this potential love triangle heats up.

My Thoughts - 5 out of 5 Unicorns - I loved it!!!

The cover is awesome :) Everything just works together and grabs my attention :)

Okay this is part two of the serial novella series Broken. From what I can tell with the violence, I would recommend adults only. I'm not sure how many parts this serial will have as it is not complete at this time, and I haven't found any where it says how many parts there will be. If you do not like cliffhangers, you might want to wait until the serial is completed.

Okay in this part, we get a much better feel for Brendan, and I really like him. Carmela is still awesome, and not sure about either guy. Her dad is someone I despise and think should be hurt. And of course I still really like Derek. I think this part was even better than the first.

Sarah's writing is easy to love, you get pulled right into the story and can picture everything happening. She is also keeps the story hopping with everything that is happening...lots of action :)

I highly recommend this series to vampire and shifter lovers alike :) I can't wait for payday because I need book 3 which just came out :)

Cherri-Anne says

She would be my mate.

WHOA!! I cannot wait for the rest of this story! It is so PAWESOMELY FANGTASTIC!! I was shocked at the events taking place in this part! Sarah has definitely outdone herself...again! I am enjoying all of the elements to this story. The romance, humor, vampires, wolves, serious tones, light tones, histories, mysteries & so much more flow so fluidly to enrich this fangelicious story giving it a rich & deep storyline. With Carmela having thoughts about a Vampire (For the first time in a long time, I wanted to do something utterly senseless. Something about her made me want to cradle her close and not let go.) while her father has chosen a Wolf (Maybe I was being territorial or whatever, but she was promised to me. Mine. We would work through whatever was going on.) to be her mate, now that is one great manwich I would love to be in the middle of! *naughty grin* I love how we got to learn more about the situation and just WHY it is like this, even though I am positive we have just started to scratch the surface!! Even how we are seeing more into the lives and backgrounds of the characters is told in such a way that you get glimpses, peeks even, but enough to keep the story interesting, it keeps it moving, but at the same time you keep frantically reading, desperate to know more! I am absolutely mesmerized & enthralled with this story and I want to read it all NOW! This is a prime example, reason actually, as to just why I do not like serials!! I am way too impatient to wait on the parts being released, especially when it is such a furrific story like this one!! I find this to be quite a different paranormal story. The characters may be familiar in that they are vampires & werewolves, but let me tell you, that is where the familiarity & similarities end! The histories, situations, current conditions, etc. are all unique and wholly all Sarah! I have read a few of her books now, but I think that this is her best yet! In my opinion this shows how Sarah has grown as an author and just how much talent she truly has!!

Eva Millien says

Carmella's date with Brendan ends in disaster in this thrilling installment of the Beneath the Broken Moon serial.

The more Carmella gets to know Brendan and Derek, the more conflicted she becomes and the reader can't help but get caught up in all the excitement as Brendan, Carmela and Derek's lives all continue to collide. The chemistry between Carmella and each man smolder with intense heat from every page but this causes quite the emotional quandary for Carmela as these strong compelling characters continue to demand reader's attention while the fast paced, smooth flowing plot thrills readers with lots of suspense, excitement and romance. Well written scenes bring the story to life while the intriguing events guarantee that the readers come back for more and the tension filled excitement keeps readers on the edge of their seat as the danger from the Cardoza and this post-apocalyptic world continue to escalate...especially for the threesome.

So far, this intriguing futuristic world has me enthralled and I can't wait to find out what happens next, especially after that spine tingling cliffhanger.

Racy says

Carmela still going thru the abuse of there father. In this book it escalates even more. The things the tries to do to her is unthinkable. Would really like to see her father get what he deserves. I believe Brendan is a great guy. I think her father not meaning to chose an upstanding guy did so. I can only imagine her father would want someone more like him that would abuse his family. I would love to see the mating between Carmela and Brendon workout.

Brendon suspects there is things going on with Carmela. He sees something between Carmela and Derek

which makes him overcome by jealousy. But Brendon has every reason to be jealous, after all Carmela is promised to him. He also suspects Carmela is being abused by her father and this does not set well with him at all. Can he save her from her abusive father?

Derek still can not get Carmela out of his mind. After being attacked he is trying to figure out who is behind it. He does not feel like Carmela has had anything to do with it but what does he know, she is a werewolf which is a mortal enemy. Would she run and tell her people about him?

This is really a good book. Loving this series. But have to say between Derek and Brendon I am partial to Brendon. In this book Carmela will find herself in danger again and once again saved by the enemy. She will discover how abusive her father can really get. She will also need to make some serious choices. If you love shifter books you will love this one.

Omg, omg, omg!!! So much happens in this book, its crazy!!! The stuff that happens to Carmela makes me so sad that I want to hug her!!! I love her chemistry with Brendan, but I also love her chemistry with Derek. Both men are good for her in a way that I love, though Derek is a threat due to the feud. But, this series is absolutely amazing and I can't wait to read the next book!!

I voluntarily agreed to read this book and this is my honest review!!

Ana says

This is part 2 of this great series

Here we find that Carmela is forced to go out with her intended mate after having barely escaped with her life from the Cazadores. These humans are hell bent on ridding society of what they call nocturnes. (supernaturals) Carmela's father doesn't care he is a very domineering and cruel man and all he can think of is securing a high position by having his daughter mated to an Alpha. But Carmela finds herself attracted to both Alpha and Vampire is this possible?

Brendan is the future Alpha of Alphas who finds that he is attracted very much to the lovely latin beauty he is supposed to mate, but he also senses that there is something troubling Carmela.

I can't wait to read part 3 and see what awaits Carmela, Alpha and Vampire?

I was gifted this book for an honest review

Laure says

After Carmela and her future mate are injured by the Cazador and saved by Derek and Elliot, two vampires. Carmela's father takes her home, beats her and tries to rape her. When she wakes up the next day, she decides she has to run, with no idea where to go, Carmela finds herself knocking on Derek's door. In a post-apoplectic world where vampires and shapeshifters are hunted by humans, two young werewolves are saved by vampires, enemies of their people. I loved this book!

I received a free copy of this book in exchange for a fair review.
