## How to Day Trade: A Detailed Guide to Day Trading Strategies, Risk Management, and Trader Psychology Ross Cameron

Success as a day trader will only come to 10 percent of those who try. Its important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. Ill explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading. This by itself sets you apart from the majority of beginner traders.

## **From Reader Review How to Day Trade: A Detailed Guide to Day Trading Strategies, Risk Management, and Trader Psychology for online ebook**

**larry r allen jr says**

**Ver good in knowegde**

If do'nt know about you sould be read this (if good for me ) I think good for who wonder about trading .

---

**Jonathan T. Toole says**

**Great book for day trading**

Ross goes over a few different day trading strategies and even shows how he sets up his stock screeners. If you haven't watched any of his warrior trading YouTube videos, Ross is a very successful day trader and trading instructor. I highly recommend this book.

---

**Jamil Marzouka says**

Simple and useful for beginners who wanna learn day trading. Also less complicated than other trading books.

---

**Torry says**

**Excellent Book**

As a new trader, this book has helped immensely. Trading is not for the faint of heart, and requires endless hours of education, which Ross lays out quite effectively.

---

**Charlie Staples says**

**More books!**

Great read. Lots to learn from this book. Ross is definitely a great trader. This book is worth much more than the price as it gives specific ways to conquer the market. Ross, write more books!

---

### **Jess Kang says**

A good book on guiding day Traders what to do and what not to do.

There are two main parts in the book namely strategy and risk management. Strategy wise it is up to individual judgement, the main takeaway of this book to me is on the risk management part.

---

### **Joel Darroux says**

#### **A good read**

Very informative read. I do recommend it to anyone who has an interest in day trading and has no idea where to start.

---

### **Luie says**

Stocks explained on a basic level with some technical approaches. If you're new to the stock market, this is a great introductory book to read.

---

### **Ahmed Tawfeek says**

All in all, this is a great book, though I think it needs a lot more work done when it comes to chart examples and illustrations.

---

### **Blundell says**

nice slow intro to trading. Shame it doesn't explain some of the terms it uses, and the pictures are way too small when reading ebook on your phone- but I liked it, best book i've read on trading so far (starting at 101)

---

### **Marie Gonzalez says**

#### **Excellent Book for a begginer!**

Excellent book for a beginner wanting to learn how to day trade.

I strongly reccomend it!

I really learned a lot from this book.

---

### **Chris Norman says**

Very good book. Great information.

---

### **Michael says**

Some experienced traders might be put off by the simplicity and basic information, but if you're reading this book then you are obviously seeking help. I've been trading in the trading chat room Ross moderates for a year now and I've had some ups and downs due to my own mistakes. I'm doing well now, having sorted out what works for me as a trader. You don't have to get fancy to make money trading and Ross has a well thought out proven strategy outlined in this book.
