Florida Firefight Carl Ramm , Randy Wayne White

A disgraced Chicago cop launches a one-man war against organized crime

A man holds twelve children hostage at gunpoint. Across the street, James Hawker dangles from a skyscraper, watching the terrorist through a sniper's scope. Hawker has a shot, and he wants to take it, but the police brass say no. By the time he gets permission, it will be far too late. The terrorist opens fire, killing two of the children before Hawker can take him out. When the smoke clears, the madman is dead, and Hawker's career is toast. No longer a cop, he's about to become America's deadliest defender.

The father of one of the murdered children hires Hawker as a private vigilante, and gives him an unlimited bankroll to wage a nationwide fight against organized crime. The first battle will be fought in Florida, where drug smugglers have taken root like a cancer—and Hawker will have to cut them out.

Florida Firefight is the 1st book in the Hawker series, but you may enjoy reading the series in any order.

Valerie Downs says

Wow!!

I have very much enjoyed this author's Doc Ford series. I can't figure out how I missed the Hawker series, but Hallelujah! If this book is any indication of the rest of this series I am totally hooked. Action, twists, turns, self evaluation and great character development, this book wants for nothing except for more pages. This is the story of a great law enforcement officer caught up in the politics and procedures that have gone horribly wrong and has cost innocent lives, and the chance he has for redemption. I actually felt I was in the Florida Keys, and I will cheerfully pay the plane ticket (book price) for the next place that Hawker is setting out for. I highly recommend this author and this series, excuse me now I have a plane to catch....

Ralph Carlson says

Once started, this book is almost impossible to put down.

Tessa in Mid-Michigan says

Lame plot with stereotyped characters and unrealistic timelines and fantasy equipment. Guys should love it. I will try a different series of his to see if it's any better...

LARRY says

TV Story

Good story. The pace of the story gave me the feeling I was reading the script for a TV movie.

Dorothy Schwartz says

Love the Florida keys...then you will enjoy this book.

His is a typical RW White story. It moves along nicely. Characters are well defined. There was not as much action as usual.

Robert C. smith says

Another Can't-Stop-Reading Action-Packed Book!

It simply doesn't get any better than than a Randy Wayne White novel for a continuous flow of graphic action, love scenes and other "intense interest gluing" flow of enjoyment! Don't begin reading if you plan to stop before finishing!

Matt Simpson says

Terrible. Writing, characters, plot, views on women, etc. Just terrible. Does not age well.

Jim A says

Typical '80's style pulp action thriller. Violence, sex and revenge. As stories goes, it was pretty well written.

Note to RWW fans. This was written years before White came up with the Doc Ford series. But the descriptions of south Florida, the Gulf coast, are just as entertaining and educational as the Ford novels.

This was book one of the first three book series recently on sale via Amazon.

Nance says

Just missed meeting this local author when in Florida during spring break so had to read one of his books while on vacation--quick beach read

Oliver Clarke says

Readable thriller in the Men's Adventure vein, with a hero whose a bit like a cross between Mack Bolan and Travis McGee. Quality wise it probably sits about midway between those to series, fun enough but nothing special.

DemetraP says

I'm a huge fan of vigilante books. I liked this story of a cop who made the right decision and got punished for it.

I liked how Hawker got the entire town to pull together and take pride and protect their town. I look forward to the rest of the series.

Andrew Shapter says

80's action. 80s cliches and stereotypes. Hand painted cover art. Coarse, yellowed pages. The books you

picked up as a teenager in a local library sale for fifty cents that made your high school English work fun and which helped set you on a path to writing...

Kevin Beck says

Slightly better reading than the back of a cereal box. Firearms terminology is wrong and Hawk is either fighting or being pursued by some hot woman at all times.

Bill says

Get ready for one whirlwind, monster roller coaster ride from the first page of this incredible thriller, as James Hawker, fired from his Chicago sharpshooter cop for disobeying orders but trying to save kids from a psycho killer, is hired to seek revenge for the murder of a millionaire's son.

Soon after, Hawker finds himself on a small Florida key whose people have been intimidated by drug running Guatemalans who want the quiet Florida town to use for their drug smuggling. Almost right away, Hawker is surrounded by four threatening thugs and Hawker knows his life may be on the line.

But Hawker has a plan, and it's dynamite!

This is one incredible read – but be careful! You'll want to hide the phone, hit the john, grab you snacks and favorite drink and relish the crazy ride!

Tom F says

Entertaining and fast paced

This was a fun quick page-turner. There's pretty good character development and Hawker is a believable protagonist. I have read, and liked, many Randy Wayne White books but this is the first Hawker series book. It won't be the last.
