La razón por la que odio leer en single issues, es por que tengo que esperar otro mes para leer el siguiente pero no puedo evitar no hacerlo.

Hubo una parte en que lo único que pude pensar fue en este gif:

03.04.15

The whole gang is back; Fiona's art has somehow gotten even better; and I loved hearing Hazel's voice so clearly as a narrator as written by Vaughan. Also, as usual in Saga, and Sex Crims, the letters rock.

5 Stars

I needed to step back a couple of issues as I was away for a while and couldn't remember how our hero Marko ended up in his predicament. I chose this one as I found it to be a turning point the first time I read it. Well, considering how many slow chapters there were to start off the 20's this one was all action. I loved it.

..... Original Review.....

Wow oh wow oh wow. What a way to re-energize this amazing series. I read through this one three times. Back again is a ton of my favorite narration by Hazel. Marko shows he still has some horns. Alana plots her plans for escape.

This issue had probably the very best artwork to date and I have loved them all. There are tons of images that demand you to study and to take them in. I cannot pinpoint anything really specific but it is clear that Staples gets more and more amazing.

The narrations and the artwork make this a standout issue.

Freaking sweet!

Even better the second time through. The artwork stands out even more.

Irene Sim says

3,5 stars for the beginning of the new chapter in saga.

Strange alliances, new faces, a marriage in rough times and Hazel amid all the commotion. The new story thread seems really promising and what stuns me the most in this sci-fi series is how the relationship between Marko and Alana appears to be timeless, the same problems that they face in their fictional world are no different from the ones couples been facing through-out history.

... And it would be YEARS before the two of us would see each other again.

FUCK THIS. The foreshadowing is killing me!

Also, I expected Demimonde to be more awesome. And the Revolution look like idiots. :/

"...and it will be YEARS before the two of us would see each other again."

And that was too much for me. Well our creators are doing their job spectacularly. I want next issue so badly right now.

MY HEART IS ACHING FOR HIM..

WELL .. YOU GET THE IDEA :D

I really enjoyed this and it was my first single issue buy for any comic book so that was super exciting too! Saga has become so good that I just had to pick this up and I couldn't wait so I'll certainly be reading them as soon as they come out from now on rather than waiting for the volumes (because I NEED them!)

This wasn't my favourite instalment as not a huge amount actually took place but as always the art, characters and story are still all amazing fun and I will 100% be continuing with the series asap!

I would highly recommend Saga to all!

Lila says

"Seriously can't we just buy a bottle of dragon spunk somewhere?"

Oh, Saga, how I missed thee.

So proud to be Sagacious One. :D

Liberty K says

Damn you Brian! You hit us right in the feels again...

Allison says

This was good, but no Izabel! I love the art in these more than anything and Vaughan is a fabulous writer. I can't wait for the March issue.

*Like I said, it had been months since Dad and I had last seen each other....**and it will be YEARS before the two of us would see each other again.***

Binibining `E (of The Ugly Writers) says

Exciting! I think this will get better already.

Nicholas Talty says

New Comic Book Day is awesome. Wednesday's are awesome. Saga is awesome. Fiona Staples and Brain K. Vaughan are awesome.

It's finally here!

The writers have returned from what they refer to as their every six issue 'vacationanza'.

My gosh is this ~~good~~ *Fucking Awesome.*

April Cote says

Amazing issue, of course! Love new issue release days!
