Filthy Lies Raine Miller

On the day I turned fifteen years old I knew I loved James Blakney. There was a look in his eye that told me he'd finally noticed I existed in a realm beyond best-friend's-much-younger-off-limits-don't-even-think-about-it-little-sister. Call it womanly intuition, despite the fact I was barely qualified for being an actual woman at just fifteen—and only in the biological sense—but still, I knew I loved him.

What I never expected from him was a proposal of marriage nearly eight years later. I know it's not supposed to be a real marriage, but James is certainly making it feel that way.

He's also hiding something from me.

But I've hidden the truth from him as well.

Lies.

So many filthy lies.

Selma says

I've been intrigued by Winter Blackstone and James Blakney since reading Filthy Rich. I loved the hint that there was something going on between Caleb's little sister and his best friend. I couldn't wait for Raine Miller to write their story. I'm very happy to report that she has surpassed my high expectations. Filthy Lies was another highly addictive and heart-breakingly beautiful story in the Blackstone Dynasty series. It was full of intrigue and scandals that are common among the rich and privileged but also about their hearts' desires that can't be bought - love and happiness.

Raine's poignant and captivating writing never ceases to amaze me. She is an exceptionally talented storyteller who knows how to deliver a plot that will keep you on your toes and create complex, multi-layered characters. She manages to seduce my heart and mind with every book she writes. That's why she is one of my unicorn authors and on my auto-buy list since years.

Winter Blackstone loves James Blakney since she was only 15 years old. He came to her rescue in an unpleasant situation and has been her hero ever since. She admires him secretly from afar knowing that he will never be hers. James is gorgeous, successful and sexy - he can have every woman he wants. Yet he suddenly and unexpectedly proposes to her. It's supposed to be solely a marriage of convenience - mutually beneficial. But how can they nonchalantly pull it off if both their hearts are deeply involved?

Winter and James are hiding their true feelings from each other since years - but for the same reasons. They're also keeping dirty secrets which could eventually hurt each other. Is their love strong enough to overcome the filthy lies?

I'm madly in love and lust with James Blakney. He is such an intriguing character whose flaws made him even more endearing to me. What I liked most about him was that he is a man of integrity and honor. He is a guy you can lean on and who would never let you down. I loved his relationship with Winter. James was attentive and understanding. He found great pride in her achievements and cheered her on. Winter was the calm to James' storm. She made him laugh and relax and brought so much joy to his life. She is a compassionate, caring woman with a soft heart but also determined and strong-willed. Their chemistry was off the charts hot and you could feel the passion and desire between them.

I've enjoyed this book thoroughly from start to finish and recommend it from the bottom of my heart. It's the perfect read to escape reality for a few hours and immerse yourself in the world of Boston's elite. If you like your books angsty, sexy and emotion-filled then you need to grab this one! You won't be disappointed! I'm giving this gem 5 filthy stars. Queen Raine, I bow to you.

Coco.V says

Sexy, steamy, passionate and oh so satisfying!

I really enjoyed this second installment in the Blackstone Dynasty series. There is a familiar quality to all of Raine Miller's stories for me, a sense of comfort akin to a safety blanket that overwhelms me whenever I open one of her books, and they never fail to leave me smiling in the end. There was no real angst or unnecessary drama, just a beautiful love story with lovable and down to earth characters and some extremely hot sex scenes thrown into the mix. The perfect mix of heart and heat I love so much in romance. If you're a

true romance fan this series is just for you.

☆ Bianca ☆ BJ's Book Blog ☆ says

We're back in the Blackstone World.

Winter Blackstone is the little sister of Caleb from book #1.

She has been in love with her brother's best buddy James since she was 15 and he was 23.

But even if he would miraculously fall in love with her, he could never start something with the little sister of his friend. Right? Especially not when Winter's other brother knows exactly what James is doing at some club at night.

But now James has to find a wife - says his idiot of a father. Daddy dearest wants to run for office. And not just any old office. Nope, he wants the highest one in the country and he can't have his son behave like he has been doing for years now.

Winter has secretly been his dream girl for years. But he couldn't drag her into this stupid family business ... or could he? Should he? Does he want to?

There's nothing he wants more than Winter

And other than being hopelessly in love with him, Winter could also use a marriage to get her trust fund - to found a shelter thing once she's officially a social worker.

What will happen with Winter & James?

Will there be a HEA?

READ THE BOOK TO FIND OUT!

????????????????????

Awwww!

That was such an adorable & heartbreaking love story.

The book takes place at about the same time as the first book. Caleb and Brooke are already together.

Both Winter and James are in love with each other, but if they started a relationship, or even a marriage, it would also benefit his Dad and her trust fund dreams. So they could never be sure of the other's real feelings. Do they love each other? Want each other for who they are?

Very complicated. But of course love will win - it might just take a tiny little while until we can ride off into our happily ever after sunset!

I loved reading the story! It's adorable and fun and verry sexy!

And of course it's all so heartbreaking and sad and moving. The little kids at the shelter. Winter's dad just died. James with his idiot of a father. Who wants that guy as president? Well, it can't get any worse than it is in real life at the moment. But still. Horrible guy!

It was a great love story. Great people. I loved seeing Caleb and Brooke again - and we even get a little extra epilogue for them at the end!!!! And I can't wait to get Victoria's & Lucas's story one day!

FILTHY LIES was a really beautiful & adorable & moving & sexy love story. Run to your nearest amazon for your own James - this one is MINE!!!!

If I had to name some things I didn't like. Hm... there were way too many italic/cursive words. And most of them didn't make any sense - they didn't need to be like that. Very weird.

And with all his being a dom and stuff - James was a bit too mushy for my tastes. The way he always says My Winter. Cute once or twice ... but he was just too soft and .. no idea. He was great, but also just a little too un-manly.

And also - the blurb and the prologue. Both not my thing. The blurb is weird - what lies? Nobody really lies about anything? And the prologue? A little bit spoily! LOL! ?
BUT - I still loved the book! Even if it doesn't sound like it! ???

??

??

Lisa says

“I’d been given the keys to the kingdom of my happily ever after...with the love of my life.”

Raine Miller delighted and enthralled me with this latest release in the Blackstone Dynasty series! James and Winter are childhood friends to lovers with the prospect of a marriage of convenience. Let me just say that everything I thought this story was going to be about, was blown away with the twists to their HEA. It was beautifully written and perfectly paced, filled with angst, romance, and off-the-charts sexual chemistry! I loved James and Winter, separately and together. They were exactly what the other needed, but I admired each as idealistic, practical, and strong individuals.

This was the perfect example of contemporary romance at its best, and Filthy Lies was SO worth the wait for its release. I'm already looking forward to the next book...perhaps Lucas and Victoria?

This story is told in dual POV, and while it can most certainly be enjoyed as a stand-alone, I highly recommend you read Caleb and Brooke's story in Filthy Rich at some point! I highly recommend 1-clicking Filthy Lies and start reading NOW!

Bravo Raine Miller! Keep the books in this series coming. ♥?

ilknur a.k.a. iko ? says

Trish Mint says

Yes yes yes! Raine Miller never disappoints her fans. She is the creator of all men alpha. James Blakney made me swoon the entirety of this book!

There were so many conflicts, which kept me page turning, and non-stop reading. I can't get enough of the Blackstone Family, doesn't matter what generation they are. The whole dynamic of rich Blackstone's and yummy James Blakney was all I needed.

What made James and Winter's romance more heart felt and angsty...was all their chemistry...their back story growing up that they never acted on...the crazy conflict with respect to James's twisted father.

And most certainly the push and pull...and God James is sooo hot!!!

The secondary characters totally rocked in this book, and make for WAY more books to come. I look forward to all of that.

Raine Miller has always been a one click for me, and I'm soooo glad she's expanding on the Blackstone's! Give me more!

Cassandra Caress says

I just loved Filthy Lies from the very first word til the last! It was like coming home! I love that Raine Miller continues with the Blackstone family, although I can imagine what a pain in the ass it can be with all the connections and timeframes. Ever since Naked the Blackstone saga holds a very special place in my heart.

It all started with this prologue. I was worrying where it would go. It set the tone for the book and made it an absolute page turner. Raine Miller and her amazing writing had me with just these few pages.

I love James and his little secret. This might be just me, because I have a huge thing for that. Such a turn on. I loved his overall demeanor. Even with the family that he has, he became a great man with the right amount of chivalrous manners and dominance and gentleness.

I also loved Winter. Her determination is just so awesome! She does what she wants and not what everyone would expect her to do. She is another great badass heroine who doesn't take s*** from anyone.

They've been friends forever since their families have been close. But since James is Caleb's best friend, Winter as Caleb's little sister is off limits...or so it was. With James father having political ambitions, he is expecting certain things from his son. Even though James doesn't give a cent about this, it brings Winter to front and center of his mind not in a friendship way. One little accident changes all and friends finally reveal how they really feel for each other. While discovering what is between them, their families and their respective issues have an impact. All that has you so hooked to the pages, that you just have to continue reading to find out what happens next.

I hope you don't mind it if I say: this is a classic Raine Miller. I mean it in the best way possible. You know that you will get great writing with awesome characters, lots of love and those twists you don't see coming at all, but give the story the cherry on top.

*****ARC given in exchange for a review*****

Karen Mc says

AHHHH! I can't stop smiling. I can't stop sighing. I can't stop swooning. I can't stop feeling and loving *Filthy Lies*! Ever since I met *Naked* over four years ago, the first book in *The Blackstone Affair* series by Raine Miller, I've been bewitched! I've loved this series from the very first page—from Ethan and Brynne to James and Winter—and will never get enough! **Heart meets heat in *Filthy Lies*, a deliciously dirty, decadent and heart-stopping sensation that will render you breathless, addicted, and aching for more.**

Winter Blackstone was my kryptonite.

I was so CONSUMED with this romance! I nearly 5 starred *Filthy Lies* from its enticing and intoxicating Prologue alone that had me screaming for more! This story sparks with sexual tension. The build-up is fire that blazes through the body. So off-the-charts hot. So delicious and divine. A slow burn of scorching desire and soul. I scorched and I swooned. ***Filthy Lies* lit my body, heart, and soul on fire! I BURNED while devouring this book! So heady. So hot. So heartfelt. So everything. I MELTED FOR MORE.**

I was so lost in him. I always had been.

This story is SEXY with strong characters that captivate from beginning to end. Raine Miller has written one of the hottest and heart-pounding heroes along with one of the kindest, biggest-hearted heroines ever. I wanted to be Winter Blackstone, a woman I had to admire and one I wished I could be. James is as caring as he is dominant and delicious. I adored Winter and James' melt-my-heart romance so much—the steam, the struggle, the swoon, and the forever love of soulmates that shines bright—that I didn't want it to end. I was WHOLEHEARTEDLY ENAMORED with this heartfelt hero and heroine with history who ENGRAVED MY HEART.

”You're a saint and I'm a sinner.”

The off-the-charts chemistry, the pent-up passion, the promise of more, the love that was buried but brought to life, the sexy and swoon, and heart and soul make *Filthy Lies* the PERFECT ROMANCE. I LOVED being wrapped up in Raine Miller's words again. Raine Miller's writing is always superior—stories like *Filthy Lies* I'll always blindly one-click because this author is a master storyteller that slays romance! Just YES!!! **Spellbinding, sinfully sexy, and soul-stirring, *Filthy Lies* is a can't-put-down story that swept me away where I'm basking in the most blissful of book comas. ROMANCE BLISS!!!**

”Tell me right now what you want, Winter.”

“I want you.”

Hands down, *Filthy Lies* is a TOP 2018 and MUST-READ ROMANCE!

????? **fierce, forever, and fated kisses**

Jenny - TotallybookedBlog says

‘I knew who I wanted. There was only one person. The only girl it could ever be for me – even though it would be something close to immoral for me to bring her into the shitfuckery that was my life.’

We do love everything Blackstone, so we dived straight into Filthy Lies by Raine Miller the moment it landed on our kindles. We were immediately swept up into the emotional and sexy romantic journey which Winter and James found themselves on. Filthy Lies is one of those easy sexy reads with just the right amount of passion, emotion and angst to keep you reading from cover to cover in one –happy place- sitting.

‘I was so lost in him. I always had been, and I knew that I’d accept whatever he offered and deal with the consequences later.’

Winter is Caleb Blackstone’s sister from Filthy Rich -which we loved- and this is her story. And what a story it was. Winter is a wonderful heroine. A mere twenty four year old encompassing more wisdom, maturity and strength than her years. Her heart is huge, her compassion grand. We fell in love with Winter and wanted her to find someone to care for her, love her and protect her just as she does to others. Winter only wants James Blakney though. A childhood crush whom she fell in love with, a love that still and will forever remain in her heart, no matter what.

‘This was my truth. Because I could never be with Winter the way I wanted to be. I could never have her. Not how I dreamed of having her when my inner most fantasies took over within my twisted headspace.’

James is eight years older than Winter and has known her all her life through his close friendship with Caleb. He’s always harboured an inner need to protect Winter – loved her even, however, somewhere along the years this love turned into more than a ‘sibling love’ rather turning into a passionate burning desire for a woman who stands on a pedestal above all others. James is conflicted. But the heart wants who it wants. We fell in complete love with James. Swoon worthy has a new name and it’s, James Blakney.

“James, you cannot hurt her....”

No path to love is easy, especially when outside influences come in to play, and not the good kind. A true love determined to succeed will stand up, be counted and show the middle finger; proving it’s unbreakable and can weather all storms. We thoroughly enjoyed watching just that!

‘I’d probably do anything to hear her say those three words to me again. Those words changed everything. Every-fucking-thing.’

We loved this story; it was perfect in many ways. We would have loved to have experienced more of the dominating side of James, his controlling ways if you will. He was utterly romantic, super sexy and extremely loving. He was almost too perfect so we needed a bit more of the rough edge which we knew he possessed. However, our sweet and fierce heroine and our kinky and wonderful hero made us feel every emotion, as they did, connecting completely to the intense depth of their love which was achieved by the fabulous writing talent that is, Raine Miller.

‘It’s time for you to come home.’

MELISSA *Mel Reader* says

5 Stars!

(ARC provided by author)

Winter Blackstone is a beautiful 24 yr. old woman who comes from a wealthy, prominent family. She lives in Boston where she spends her time volunteering at a youth center, and taking classes to complete her masters in social work. Her family has been coping with the devastating loss of her father, and wanting a fresh start she takes one of the apartments in her brother Caleb's building. Added benefit is her longtime crush James Blakney lives in the apartment above her. She's loved James since she was fifteen when she realized he'd finally noticed her as more than just his best friend's little sister. Over the years she cherished their lifelong close friendship, and secretly longed for more. Since she'd moved into the same building something had shifted between them, and it seemed she finally had his attention.

James Blakney is a successful corporate lawyer in his 30's. He grew up with a manipulative father who always tried to control his life. He's made a lot of changes in the last few years in his personal and professional life. He'd started his own firm, and also found a place he could express his hidden desires without judgement. Everything is going well for him until Winter Blackstone gets under his skin. She was completely unaware of her beauty, and she possessed every quality he could look for in a woman. Ever since she moved into his building he couldn't quit fantasizing about her. He's always admired her from afar, and accepted long ago she was off limits, but now it was pure torture being close to her and not being able to touch her. She was too sweet and innocent for the likes of him, but oh how he craved her like his next breath. He had it bad for a woman he shouldn't. He thought he could never have her, but then an unexpected opportunity to go there with her is presented.

-Years of living with my feelings only cemented what I knew. I was so lost in him. I always had been, and I knew that I'd accept whatever he offered and deal with the consequences later.

-No one had ever looked at me as if I was their... as if I was their world.

- There was no mistaking his intentions anymore. James wanted me.
- One small slip of indulging in my desires to be closer and there would be no turning back.
- I'd never felt this way about any other woman before.
- Winter was my heart's desire and she always would be.

The flirting and sexual tension between James & Winter is through the roof. Soon boundaries are crossed, and Winter quickly becomes addicted to being his. The man who took possession of her heart years ago, now owns her body as well. She trusts him implicitly, but will secrets and lies stand in the way of true love?

This was book two in the Blackstone Dynasty series, and Raine Miller really brought it all and knocked it out of the park with this amazing friends to lovers/brothers best friend romance. This is one of my favorite books she's written. Why??? One word... JAMES!!! ? Omg, this man is everything! He's so loving, but also sexy as hell, & did I mention dirty. Yeah, James is delicious! I couldn't put this book down, and flew right through it. Just loved it! I hope we get a story for Lucas & Victoria next!

Mindy Lou's Book Review says

Winter has been in love with her brothers best friend for years. She has resigned to the fact that while James may see her as a woman, he will never act on it.

James noticed Winter long before what was appropriate but he knew she was off limits as his best friends little sister. After a disastrous relationship, James changed, became darker. It's no place for such a sweet woman like Winter. But what if she likes a little bit of the dark?

I was pleasantly surprised by this story based off the title of the book. I was gearing up for some major drama. What's funny is this did have some pretty angst situations throughout the book but it never really felt it. I have the reactions of James and Winter to thank for that. If I could have given a wish list to an author on how I want to see the main characters respond in conflict, this was it.

Filthy Lies was a pretty refreshing take on this slightly forbidden trope. I absolutely adored how James took care of Winter. I also adored how sweet and genuine Winter was. I would have liked to have their story expanded a bit more but that's always the case with a couple I love.

SueBee★bring me an alpha!★ says

???????1/2! **Filthy Lies** (stand-alone). A crush that can never be for Winter & James until old family secrets changes their course!

“I woke to find his head between my legs and his tongue moving over my clit in the most delicious way imaginable.”

Books in Blackstone Dynasty series are stand-alones:

Book 1: Filthy Rich - Caleb & Brooke

Book 2: Filthy Lies - James & Winter

Book 3: Untitled

Filthy Lies (stand-alone) is college student and charity worker **Winter Blackstone**'s story of how she has loved attorney **James Blakney** from afar for years. James has taken notice of his best friend's baby sister, but she has always been off-limits.

Living in the same building will turn out to be a blessing... and a curse.

Effortlessly told from dual POVs, with the perfect blend of **angst, anticipation, sexual tension and obstacles** offering a **beautiful forbidden love** that will have to weather secrets and lies to stand the test of time.

ARC provided to me by author Raine Miller in exchange for an honest review.

Natalie The Biblioholic says

James Blakney and Winter Blackstone have known each other their whole lives, but at a distance. Not only did their ages always set them apart, but the fact that James was Caleb's best friend didn't help matters. That didn't stop Winter from longing for the one man she couldn't have, or stop James from the same. Unrequited love stories are sometimes the hardest yet juiciest to read and Raine Miller captured it beautifully in **Filthy**

Lies.

Winter was a real sweetheart. Growing up in a life of privilege, she always wanted to find ways to give back. She was the kind of person to give away her Christmas presents to those less fortunate. She was a hard character to resist falling for. And so when I realized that she wanted to be with James, I not so patiently waited for him to wise up and see the perfection right before his eyes.

James was a dirty-talking sweetie too. He was an amazing friend, a good son, and he was secretly in love with Winter. Hooray! He was stuck on the precipice, wanting to take the leap from friendship to forever, but unsure if revealing his true feelings to Winter would ruin everything. But when an accident leaves her vulnerable and she reveals her innermost thoughts and emotions, James realizes that his wait is over.

Set amidst the drama of a shady side character and the machinations of an evil, conniving parent, James and Winter explored their love that was unlike any other. They were finally able to let go and be free, especially in the bedroom. James found his kinky and submissive better half in Winter and he was willing to do whatever it took to ensure her happiness. The story did get a tad bit repetitive, especially when it came to the inner monologues of the characters, but aside from that, I found it to be quite enjoyable. Then again I had no doubt I'd love this story as the Blackstone's haven't steered me wrong yet!

Crushing on your older brothers hot best friend? Lusting over our friends jailbait baby sis?

I've been starving for another whack at a Raine Miller read and I've been finally granted an answer!!
Squeeeeeee!!

Winter Blackstone— and yes, she is related to Ethan Blackstone— has always carried a torch for James Blakney. Ever since she was 15 years old.

Now all grown up and on the path to success, not to mention, cohabiting in the same building, fate has branded them together in this sensual read of an unlikely romance that was never truly one sided.

All in all, I truly enjoyed this read. Then again I could be bias because it is Raine Miller and I can never get enough of her books *cough cough still hoping for Gabrielle and Ivan's stories to be still in the works!!* .
Lol.

All you Raine Miller fanboys and fan girls can be rest assured, this is a good and pretty straight read with little to none upheavals or setbacks other than James' dad. I did feel that the whole James' father's deal was pretty erm, dramatic and sometimes unnecessary but I did feel that it did add incentive to drive up the stakes and for James to finally take the plunge to take the risk.

Other than that I really hope for Lucas to have his own story and possibly up next cause I'm dying to know

his and *character I will not name*'s deal.

Miria Ardizzi says

She's baaaccckkk!! Our Queen Raine Miller is back bigger and better than ever with this amazing new book Filthy Lies!! It had me intrigued after reading Book 1 - Filthy Rich to continue the story of James Blakney and Winter Blackstone!! Oh and what a hot read this is!! ?

Their "beautiful" story, their sensual journey, their loving, often dramatic adventure is one you certainly don't want to miss. It is full of happiness, hot steamy sex scenes, "beautiful" words exchanged, selfless acts of helping others as well as heartache and despair but mostly full of love and tenderness. James and Winter's chemistry is off the charts spilling over the Kindle pages after page. You can feel this couple had a long time passion for each other since Winter was 15 and James being older at 23. This just intensified their somewhat taboo, "friends" relationship to bring it to a whole new hotness level. This is the perfect must Summer read, a little "Winter in your Summer" and a whole lot of James. ?

Raines words have always been magical, always breathtaking, always captivating wanting you reading more and more. I could never get enough of her beautiful stories and you won't either after reading this "Filthy" 5 star best seller for sure!! ?

Beneath The Covers Blog says

An exciting and steamy new romance from Raine Miller!

Filthy Lies was filthy good!

I was so incredibly anxious to dive back into the illustrious and complex Blackstone World! In *Filthy Rich*, we were given Caleb Blackstone's story. This time, we take the journey with his younger sister, Winter, and James Blakney, Caleb's best friend. Secrets unfold, lies are uncovered, and lines are crossed on their path to find love and happiness.

This book was a wonderful read! Winter and James were two halves of a whole that was clearly evident right from the beginning of the story. The prologue engulfs you into the mysteries hidden within the storyline and propels you to find out what happens between these two fascinating characters. You become torn, right along with the characters, between what actions should be taken, the truths that should be voiced, and the desire to go after one's love.

There were so many aspects of the book that I really enjoyed. The overall dynamic of the storyline flowed seamlessly. And the originality infused into the story sets it apart from any typical friends-to-lovers romance. And of course, I loved Winter and James. Loved everything about them...as friends, as lovers, as potential spouses to one another. Their relationship from beginning to end was completely heartfelt and romantic, and their chemistry and sexual tension was authoritative and passionate enough to make you burn up on the inside. And their history together truly empowered the progress toward change from friends to lovers.

All-around, this was a sizzling, sexy, and completely swoony love story! *Filthy Lies* was the perfect addition to the Blackstone Dynasty series. And I challenge anyone with a beating pulse to try and not fall in love with James Blakney. It's thoroughly impossible not to.

4 Stars!

Raine Miller is back and she once again she transported me to a world of pure romance, sexiness and characters to cherish and love for years to come. James and Winter's story will make you swoon and turn the pages giving us the most perfect ending to this novel. It is lovely to see characters from Blackstone Dynasty Book 1 and totally look forward to the next one as since book 1 Raine Miller is giving us very intriguing hints and I'm really sooo curious about what happened there.

Being back in the Blackstone world and submerged in Raine Miller's words is definitely one of my favorite reading experiences. Total bliss!!

From the first moment I met James Blakney and Winter Blackstone in *Filthy Rich*, I couldn't wait to read their story. There was something forbidden and complicated about their relationship and I couldn't wait to find out why. Being a huge Raine Miller fan since years, I knew that this super talented author would never let me down. She is known for her flawless, captivating writing. I'm not exaggerating when I tell you that her words make my heart soar. All of her stories are so deep under my skin, it feels like they are a part of me. This is why she was and always will be a go-to author for me!

Since her fifteenth birthday Winter Blackstone is in love with James Blakney, her brother Caleb's best friend. She's always been off limits to him. But on that faithful day, she realizes for the first time that James might see more in her than just a little girl.

As always life happens and some very unlucky circumstances change James forever. Now he's a hard working, tough lawyer who has no intentions whatsoever to give up his lifestyle. There is a darkness surrounding him that makes him believe that he's incapable of love. James thinks that the likes of him don't deserve someone pure and good-hearted like Winter Blackstone.

Winter Blackstone has been born and raised in a privileged family. She knows how lucky she is in comparison to others. This is why she wants to help the poor and less fortunate and studies social work at the University of Boston. All of her young life she's been watching James from afar. This is why she is more than surprised when he suddenly approaches her with a marriage proposal.

Winter knows that the marriage is one of convenience and not a real one. But can she be married to someone she loves who doesn't love her the same way? Things get far more complicated after they kiss for the first time. What are James' motives and what is he hiding from her? And furthermore, what truth is Winter hiding from James?

These two gave me all the feels! I loved them beyond words!!! There was such a deep connection between them that went far beyond sheer chemistry. I was cheering for them from page one hoping that they will finally act on their feelings for each other. I must confess that there were some major obstacles standing in their way. They literally went through heaven and hell together.

James was the perfect protective and possessive alpha hero. He's someone who needs to be in charge, always being in control of the situation. Never in his dreams did he imagine that sweet and compassionate Winter would naturally accept and embrace all the facets of his personality. She was literally the light to his darkness. I loved how they complemented each other. They were the perfect match!

All in all, *Filthy Lies* totally surpassed my expectations! There was so much more depth to this story and the characters than meets the eye. While some parts of the book were very sad, others were so beautiful it brought tears to my eyes and made me swoon. I can say without a doubt that *Filthy Lies* is one of my most favorite reads of this year. Thank you dear Raine Miller for this exceptional reading experience. 5 stars

Filthy Lies is a book I've been dying to read ever since the last book, *Filthy Rich* ended. I'm a huge fan of the brothers-best-friend trope and also these characters really caught my attention at the end of the previous book. So I jumped into this one very excited to get more of James and Winter. And I did enjoy their story, but I also had a few issues with it that kept my rating from being higher than a 3 Star.

I thought their relationship was intriguing and I liked that they were both pining over each other instead of it being one sided like I see a lot of the time in these types of books. They did have chemistry that was clear on

the pages that I enjoyed seeing. What had me the most interested was their separate situations for marriage since they both had their own reasons for wanting it and then we got to see how that came together into a real relationship.

My problems came in mostly from the length of the story. It wasn't a very long book but the entire beginning had me feeling like I was reading a 700 page story since it was kind of dragging. It took James and Winter so long to actually get together, or even for James to bring up the marriage thing and it was starting to get a little boring. I was just waiting and waiting for something to happen between them and up until 50% it felt like nothing was going on with them.

Then when we got to the ending it was like an overload of information. Not even just for James and Winter though, there were things that were brought up about Caleb which I honestly can't remember if they were revealed in his own book or not, but either way it distracted from James and Winter. With the sudden fast pace to their relationship plus the added scenes for Caleb it just felt very rushed for me.

Overall, I had issues with the pace of this book but as a whole I think it was a good story. I'm definitely still going to be reading more of the Blackstone's and I can't wait to see how Jame's sisters story will turn out.
