## **From Reader Review American Political Thought: A Norton Anthology for online ebook**

### **Stephen McGrath says**

Get to know American through the letters which guided it... The only disappointing thing about this collection is how vacant it gets towards the end - are we really becoming that much less interesting?

---

### **Mark Fitzpatrick says**

Pretty decent anthology that covers a wide-variety of authors and topics from across American cultural history.

---

### **Kersten says**

This is a nice, diverse collection of pieces spanning from 1620 to the present. The only downside is that a lot of these are long excerpts since they come from all kinds of sources.

---

### **Sam Hockenbury says**

I admittedly Have not read every piece in here, but I have read a majority and have found it to be an excellent collection of some of the best works of American Political thought. It covers not just the great white men of our history (shich are often the focus of the study of American History) but tremendous black leaders, women, anarchists, etc.

---

### **Zohaib says**

it is very book i read it

---

### **Ash says**

A very comprehensive anthology. This book aided the class wonderfully.
