HE'S PLAYING GAMES

Though Rylann Pierce tried to fight the sparks she felt for billionaire heir Kyle Rhodes the night they met, their sizzling chemistry was undeniable. But after being stood up on their first date, Rylann never expected to see him again. So when she finds herself face to face with Kyle in a courthouse nine years later, she's stunned. More troubling to the beautiful Assistant U.S. Attorney is that she's still wildly attracted to him.

BUT SHE'S MAKING THE RULES

Just released from prison, Kyle Rhodes isn't thrilled to be the star witness in a high-profile criminal case — but when Rylann comes knocking at his door, he finds she may be the one lawyer he can't say no to. Still as gorgeous and sharp-tongued as ever, she lays down the law: she doesn't mix business with pleasure. But Kyle won't give up on something he wants — and what he wants is the one woman he's never forgotten...

From Reader Review About That Night for online ebook

Chan says

Writing: I like Julie James' writing style. She knows how to hold her readers attention. 2 POVs. 3rd Person narration.

Characters: Rylann and Kyle are the MCs. Rylann's personality was similar to Cameron's in book 1. Kyle was a great character, but his transition into maturity was not that great. I had to remind myself he was no longer that immature kid.

Storyline: Book 2 informs us that Kyle has committed a horrible (albeit funny) crime. In book 3 we get more details on the crime. We also meet Rylann who is in Law School and meets the bad boy billionaire in a bar. Rylann and Kyle create sparks, but life keeps them from each other for 9 years. They meet up with each other in a very unexpected way and try to recapture what was lost.

I'm enjoying this series, but was disappointed with this book. Julie James kept making it seem like there was danger lurking around the corner, BUT NOTHING HAPPENED. Nobody was in danger of anything.

You should never tease an action junkie like that. It's just wrong. I felt shortchanged. This also dampened my enjoyment of the book. I was constantly waiting for something to happen and before I knew it, the book was over.

Intimacy Scenes: This was better than expected. Kyle wore his emotions on his sleeves and was pretty easy going, but in the bedroom...the beta in him disappeared.

Overall: Although I enjoyed the book, I was also disappointed. The first two books had a little suspense and action. This book was set up perfectly for the same, but it fell flat. I'll read book 4 and hope Julie James brings the action

Shawna says

5 stars – Contemporary Romance

I'm an avid Julie James fangirl and I love her snappy, clever, banterific dialogue and snarky humor. Practice Makes Perfect, Something About You, and A Lot Like Love were some of my favorite reads of last year, and I've been eagerly awaiting Kyle's story.

Although I didn't enjoy *About That Night* as much as the previous books in the *FBI/US Attorney* series, it's still an entertaining, satisfying read. The romance between sexy computer genius Kyle Rhodes, aka "Smug Dimples," "Twitter Terrorist", and Sawyer from *Lost* lookalike, and sassy law geek, "counselor", "Meth Lab" Rylann, aka "Prosecutrix Pierce" and "brunette bombshell", was highly amusing and steamy. These two ignited some serious sparks! I would have liked a bit more to the ending and an epilogue, but overall I really enjoyed it! 5 stars!

And who would have figured cyber geek Kyle for such a bedroom bad boy and smokin' hot dirty talker?!?! Yowza!

This scene cracked me up.

“I don’t mind hot and spicy. Actually find that appealing in a girl.” He cocked his head, thinking this over. “And chicken wings.” Rylann turned her head and stared at him. “Did you really just compare me to chicken wings?” “You say that like it’s a bad thing. Chicken wings are the bomb.”

Kyle

Rylann

Saly says

Rating 3.5

I've been waiting for this story since last year because who doesn't love reading about a billionaire that looks like Sawyer from LOST and downed twitter when his girlfriend dumped him publicly? I say awesome setup and it was and Kyle was totally yummy.

Kyle and Rylann met nine years ago and had a connection and a date which never went anywhere because Kyle's mom died and Rylann became a lawyer and followed her career plan to the T. Kyle never did his PhD.D and went to work at his father's company, working and partying hard and he did make an effort to get serious relationship wise but it ended up with him getting drunk, shutting twitter and spending four months in jail and his twin Jordan bailing him out, so he is done trying to make a commitment and with one meeting should be free of the US Attorney office.

Rylann has just moved to Chicago and joined the AUSA's office. She broke up with her boyfriend of three years, six months ago when he decided to move to Rome and she refused to follow him since it didn't go with her plans. So, while Kyle is about spontaneity Rylann is all about her plans and her career and they meet again nine years later in the court-room and are thrown together again when Rylann's needs his help in a case related to prison going-on's.

I liked that Rylann maintained her professionalism and despite the sparks between them nothing happened till he was a witness in her case. If I had to grade this book it would be for Kyle only, he was funny, romantic and loyal to his family. He had accepted responsibility for what he did and made something out of it by following his heart and opening his own venture.

I was a little luke-worm about Rylann, she just seemed like one of those women with plans and she wanted to keep her and Kyle under wraps since they would be a source for gossip and she didn't want that to adversely affect her job and I got that, that her job was important and that Kyle moved at a faster pace than her but nobody likes being kept like a guilty secret and I loved that Kyle told her that and that she had to make a choice and decided if personal happiness too was important.

This book was way hotter than any other Julie James book but for me that is not a consideration and I felt

2. Informative stuffs
3. Hilarity
4. Great supporting characters
5. No unnecessary misunderstandings in romance

About That Night is no exception. Rylann Pierce aka Prosecutrix Pierce and Kyle Rhodes aka Smug Dimples are two down to earth characters. Rylann was a typical Julie James's heroine. Strong, independent, ambitious, and smart. While Kyle... well, he's something.

Smug Dimples wasn't like what I expected him to be. Knowing him from the previous book had given me the impression of a hero like Jason in *Just the Sexiest Man Alive*. I had thought I would find a charming but spoil rich guy with some boyish attitude. I was right, but only with the charming and rich parts.

It was very interesting to witness how the perfect life of a billionaire heir became not so perfect anymore because of one brilliant but stupid action. The most interesting part is the way he's living it. I was amazed by the transformation of Kyle Rhodes from a fresh graduated college boy, to a Twitter terrorist, to an ex-con, and to a man who starts his own empire. I adored how he took his responsibility as a son and a brother. I was impressed with the way he dealt with his past mistake and did something right with it.

So, what's not to like about a book that made me learn some valuable things? I would have rated it more than 5 stars if the book had been titled with something like *The life of Kyle Rhodes*. The problem was, this is a romance. I liked Smug Dimples and Prosecutrix Pierce together. They are two grown up and broad minded people with a huge-9-years-old-crush on each other. They made me laugh often, and not so often I wanted to strangle them both. But for a romance book, the romance itself was not enough. It needed to be explored more. I wanted to see more Kyle and Rylann together.

Overall, despite it wasn't a great romance to me, I thought it was a great book. Lots of messages in it. From all five books by the author, Kyle may not be the best hero, but he's the best character. You'll probably find the romance isn't satisfying, still there are heartwarming family bonds and friendships. You'll be entertained with lovable characters. I was so happy to find Jack (my baby), Cameron, Nick, and Jordan. Also Kyle and Jordan's father, Rae the best friend, Sam Wilkins. Oh I can't mention them all. Julie James is great in creating supporting characters, those people who can make you feel like you're talking and joking with them because they are great together. Thus, I wasn't satisfied with the romance, but I wasn't disappointed with the book. And I just can't wait for more books by Julie James.

The smugness of baby Kyle's dimples ;)

Mimi Smith says

4.5 stars

Facts are:

Julie James publishes ONE book a year

Julie James is a great writer

I love Julie James's books, but...

...for one book a year they're way too short.

Basically, I LOVED this book, and everything about it, but I just wanted MORE. More of the relationship development, Kyle, everything, KYLE...
The humor in these books is amazing...

"Rae shifted her position to check out the object of their discussion. "If that's the new face of computer geek, sign me up. He can push my keyboard buttons any day."

*Rylann turned her head and stared at him. "Did you really just compare me to chicken wings?"
"You say that like it's a bad thing. Chicken wings are the bomb."*

"Oh God, that hurts," she whimpered.

"What hurts?" Kyle asked, sounding concerned.

"The invisible man pounding spikes into my head."

"That doesn't sound good. Maybe you should take out an invisible Taser gun and zap the son of a bitch."

I adore Kyle, he's perfect!

"Kyle warily eyed the two FBI agents—yes, now there were two; apparently they multiplied like wet gremlins—as they pushed open the red privacy curtain and entered the theater box."

The infamous Twitter terrorist is a hunk. And a geek extraordinaire After getting drunk because a girlfriend broke up with him via a public message, then put a video of how she cheated on him, Kyle decided crashing Twitter is an awesome idea. Yeah, post prison, Kyle can say exactly what kind of an idea that was. And it rhymes with numb. So, now he's all for hookups. But now he sees Rylann, whom he likes a lot, but she's a prosecutor... But they really need to talk. About that night...

Rylann thinks Kyle is off limits, but well, who could resist those dimples? So, she gets involved, but the question is-what now? I liked Rylann and her plans. She's great.

Still, there were too many things going on in the book, there really had to be more Kyle and Rylann. The flirting and bantering is great, but a bigger conflict, and more time and getting to know each other would be better. There was real depth here, though.

*"His chest pulled almost uncomfortably tight as he pulled her into his arms. "I love you, Rylann." He cupped her face, peering down into her eyes. "And now I finally have a good answer to the one question everyone always asks me—why I hacked into Twitter. I didn't know it at the time...but I did it to find you again."
She leaned into him, curling her fingers around his shirt. "That may be the best justification I've ever heard for committing a crime." She looked up at him, her eyes shining. "And I love you, too, you know."*

Awwww. Kyle *sighs*

Oh, I also loved Rae and Rylann's friendship...

"Actually, no. The hell with that." Rylann reached across the table and squeezed Rae's hand. "Just because we haven't met Mr. Right doesn't mean we're doing anything wrong. And by the way, you're brilliant and awesome, too. If I were a lesbian, I'd totally settle down with you and make lots of in vitro babies."

Hmm, okay :)

And Nick is great...

“Wonderful. Now I’ve got two of you all up in my business,” Kyle said dryly. Nick slapped him across the shoulders, seeming to thoroughly enjoy this. “Get used to it, Sawyer. That’s what family is for.”

All in all, not disappointed, exactly, since JJ can write a menu and I'd read it with a smile(which wouldn't leave my face the whole book!), but I wanted more length and story-wise. It's definitely sexy, funny and touching, though, so...READ IT!

Sam (AMNReader) says

It's not exactly that I don't like this book. It's that I don't care. I think, despite having two of this author's books left on my Kobo, is time to admit she doesn't do it for me. Heavily plot-driven, yet unrealistic situations aren't the romance I favor.

I'd be really surprised if an ethical lawyer didn't immediately, whether new or not, disclose history with a defendant and/or a witness. I have a job where I have to disclose stuff. I do so unreservedly. What a dumb risk.

Anyway, that's not really the point. The point is I don't know how many more times I can read about what a legal mind she is, or how she works as a AUSA. IT'S every paragraph.

Dija says

Julie James makes me want to throw my psychology degree out the window and try out for law school instead. If all this sass and bad-assery is what they teach in law, sign me up!

After having read all of JJ's published novels so far, there are several things I've come to expect from her:

1. Confident, bold, and yummy heroes whose jobs or pasts involve the law in some way.
2. Sarcastic, spirited, and driven heroines who're usually attorneys.
3. Great sexual chemistry between the H&h which never leads to an anticlimactic resolution.
4. A fabulous cast of supporting characters who add more life to the novel than anything else.
5. No drawn-out, prolonged drama whatsoever. These stories are fast-paced, realistic, natural, and long enough to be neither tedious nor abrupt, but just right.

James delivers on all five accounts again, and then some. *About That Night* has everything I've come to expect from her romances, which basically comes down to me smiling throughout the entire novel. Seriously, my cheeks hurt from all the grinning.

After being humiliated on and dumped through Twitter, computer-whiz Kyle shuts down the site for two days. As expected, he gets caught and sent to prison, thereafter becoming globally infamous as the Twitter Terrorist. After four months in jail, his sister, Jordan, works out a deal with the FBI to reduce his sentence to time served.

Ambitious Rylann comes to Chicago as an Assistant U.S. Attorney and her first case involves Kyle. To say

sparks fly when the two meet again after their brief meeting nine years ago would be a *huge* understatement. The dynamic relationship between Kyle and Rylann starts as soon as they set eyes on each other and it only gets progressively hotter and steamier.

As an added bonus, there are plenty of scenes with Jack, Cameron, Jordan, and Nick that clearly show how their respective relationships have developed during the intermissions. (view spoiler)

There's not a thing about the story I would change, but being the cover-obsessed freak I am, I can't help but wish that Rylann had been wearing a hot dress on the cover instead of the suit; the red one she wore in the book would have been rather fitting. Other than that, *About That Night* is the perfect sequel to *A Lot Like Love*, and I can't wait to see which couple will be introduced next. If I were to hazard a guess, my top choice would be (view spoiler). There's definitely a story there, and I can't wait to read it.

Kyle:

Rylann:

Some of my favorite quotes:

#1: Kyle gazed down at her. "I lied when I said I followed you to the bar because you're hot." He touched her cheek. "I saw you laughing with your friends, and your smile sucked me right in."

#2: "There are some things a girl never forgets, Ry. And one of those is a kiss from the right guy."

#3: Much to his surprise, she actually blushed.
Well, well. Apparently the unflappable Prosecutrix Pierce could be...flapped after all.
Interesting.

#4: (view spoiler)

4.5/5 stars

Mandi Schreiner says

I'm a huge Julie James fan and her previous book, *A Lot Like Love* was a favorite of mine last year. In that book we meet Kyle, the son of a billionaire, a brilliant computer scientist, and also a prison inmate. Yes the hero of this book is an ex-con. A very sexy, adorable one at that.

Although Kyle is extremely wealthy, he works hard as the vice president of network security for his father's company. He also plays hard too, and when his supermodel girlfriend dumps him via twitter, and then posts a video of her making out with a random dude in a hot tub, Kyle get a little upset. He decides to throw a virus at Twitter, which shuts it down for 48 hours. Although he is a computer genius, the government also has computer geniuses at their disposal, and soon the FBI tracks him down on his way home from Tijuana

Sitting eight rows back, Kyle watched as two men wearing standard issue government suits – clearly FBI agents – boarded the plane and handed over a document to the pilot.

“Yep, that would be me,” Kyle said, grabbing his backpack from underneath the seat in front of him.

The elderly Hispanic man sitting next to him lowered his voice to a whisper. “Drugs?”

“Twitter,” Kyle whispered back.

The US Attorney's office go after him hard, and label him the “Twitter Terrorist” and he gets sentenced to 18 months in a federal prison. If you've read the previous book, A Lot Like Love, you know that his sister helps the FBI with a different case and in return, he only has to serve four months. Kyle openly admits to making a mistake and takes full responsibility for his actions. Being wealthy and sexy, his story makes national news and people either think his stunt is hilarious or they throw rude gestures at him every where he goes.

Nine years before all of this happens, he briefly meets Rylann Pierce at a bar. Totally smitten with her they both share a kiss and plan to go out on a date but that date never happens. Kyle goes on with his life and work and Rylann finishes law school and moves to San Francisco to start her career. But in present day when her boyfriend decides to move to Rome, something Rylann is totally not interested in, she decides to pack it up and move back home to Chicago. It's hard for her, she likes to have a plan in her life and moving back to Chicago is a big step. She lands a job as an Assistant US Attorney and guess what her first court appointment has to deal with? Yes, the Twitter Terrorist. Kyle has to go to court for the judge to approve his early release, and Rylann fills in for the original lawyer. They both remember each other and that steamy kiss they shared nine years prior.

Expecting to never see Kyle again after this, when the FBI comes to her with a murder at the prison Kyle was in, she knows she will be seeing more of him. Kyle may have overheard an important conversation relating to this murder, and now she must convince him to testify, although he is definitely not on good terms with her department.

Julie James writes such smart books. She seamlessly combines courtroom drama and legal issues into a very sexy romance, with witty dialogue and hot bedroom scenes. The first half of this book is background into Kyle and Rylann's lives and the two of them working together on this FBI case. Because he is a witness in her investigation, ethically she really can't pursue a relationship with him. Although Kyle has sworn off serious dating since his last break-up, Rylann in her business suits and serious demeanor just turns him on. And Rylann knows dating an ex-con might not be the best career move she ever made, but she just can't get him out of her mind. She likes to plan out her life, and she isn't sure how Kyle fits into that plan. The build-up to their relationship is done quite well.

Once we get into the bedroom, I think this is the sexiest book of Julie James's yet. We get several love scenes, and the wait for them made them that much better. I love that these are are mature – they don't fight about petty things. They tease each other and flirt so cute. Kyle is just down right charming and I adore that he never comes across as a rich, spoiled son. He takes responsibility for his actions and works hard to make his life better.

The supporting characters including Rae, Rylann's best friend and Jordan, Kyle's sister are fun additions to this book too. I also like how supportive Kyle's family is to him. Although his father isn't pleased when his son lands in prison, there isn't big family drama surrounding him. Rylann is close with her parents as well,

which is refreshing.

About That Night is a smart, fun and sexy book. Although it can be a stand alone, I highly recommend the previous book in the series, A Lot Like Love.

Rating: B+

Jess says

Review posted: Happily Ever After - Reads

“There are probably a lot of things bad-boy ex-cons don’t know about good-girl prosecutors.”

Smug Dimples, Prosecutrix Pierce, Meth Lab Rylann and the Twitter Terrorist (or my favorite version of this that comes up El Twitter Terrorista) are all nicknames that our hero and heroine are called during ABOUT THAT NIGHT and it’s the way these nicknames are used during the quick, witty banter that Kyle and Rylann have that drew me right in. What stood out the most as I was reading was that there’s no huge angst our couple needs to overcome. This is about two people dealing with their pasts, finding a balance in the present with their careers and figuring out a way to be together for the long haul. It’s incredibly enjoyable, and Julie James keeps hitting it just right on all levels - humor, story, sexiness - with her FBI series.

Kyle was first introduced in A LOT LIKE LOVE when we find out that not only is he Jordan’s twin, but most recently, he became the Twitter Terrorist, labeled as such by the Assistant U.S. Attorney (AUSA) handling his case at the time. There’s a chapter early on when Kyle recounts the time leading up to and right after his drunken, broken heart takes down Twitter for 48 hours. When he finds himself in Tijuana trying to drown his sorrows, he also finds himself on the news as a wanted man. He boards a plane back to the U.S to face the music and is immediately taken into custody on the plane:

...Kyle watched as two men wearing standard-issue government suits – clearly FBI agents – boarded the plane and handed over a document to the pilot.

“Yep, that would be me,” Kyle said, grabbing his backpack from underneath the seat in front of him.

The elderly Hispanic man sitting next to him lowered his voice to a whisper. “Drugs?”

“Twitter,” Kyle whispered back.

Kyle ends up in prison for a few months before the events in A LOT LIKE LOVE spring him out and now he’s a free man, needing to find a new purpose in life. He resigned from his father’s software company, but Kyle’s too intelligent and too driven to sit around wallowing in what’s happened. He takes responsibility for everything he did, he learns from it and he writes up a killer business plan for his next venture.

Rylann just moved back to Chicago after living in San Francisco with her boyfriend of three years. He up and decides that moving to Rome sounds like the direction he wants his life to go. Rylann...does not. She never felt the butterflies with Jon, but she was happy with him and a change of scenery and moving closer to her best friend Rae is the fresh start she needs. She’s the new AUSA working for Cameron Lynde (SOMETHING ABOUT YOU) and her first case involves handling the motion that frees Kyle; the same Kyle that she kissed nine years ago at college and actually felt the butterflies with. But circumstances outside their control kept them from going on their first planned date and nine years later they’re finally reunited.

After they see each other again in the court room, Rylann needs Kyle's help, being her witness with another, unrelated case and he agrees. Their relationship doesn't get going, and can't, while Kyle is her witness in the case she needs his help with, but that doesn't keep the sparks from flying. The minute the coast is clear and there are no work conflicts, they stop denying the attraction. Their scenes together are just – HOT. Kyle is one sexy man and Rylann has no trouble keeping up with him, even tormenting him as much as he does her.

With a chuckle, he stood up and pulled off his shirt. All of the rest of his clothes quickly followed, then he climbed onto her bed and stretched out, fully naked and erect. He folded his hands behind his head and watched her. “What do you plan to do with me now?”

A challenge. Rylann pushed off her elbows and stood up, undressing down to her bra and panties. Then she climbed back onto the bed and straddled him once again. “I have a few ideas.” While holding his gaze, she licked her lips.

His eyes instantly turned a deep, smoldering blue. “Counselor...I really like where you're going with this.”

Both the leads have issues in their past and present they're trying to work through. This is more so the case with Kyle. He'll forever be known as the Twitter Terrorist, but he's trying to build up a new company and move on with his life, past the one big mistake he admits to and doesn't try to make excuses for. We get to see him hire new people and grab his first, and surprisingly perfect, new client for his new company. He's a completely lovable hero who still has a few insecurities when it comes to relationships, considering the public and humiliating way he was dumped the last time he was with someone. But he's willing to give it a chance again with Rylann and he puts himself out there on the line for her. He's sexy, funny and he starts to think about what life would be like with Rylann in it permanently and he likes what he sees.

They keep their relationship secret for much of the book, Rylann is concerned about her position as AUSA and how dating the Twitter Terrorist would reflect on her office. If there's any little bit of angst, it comes from this. She struggles with taking a chance, having always been that person with a 6-month plan, or 3 –year plan. Taking a leap into something new with Kyle takes her some time, and with one of the sweetest gestures in the whole book surrounding a flannel shirt, she makes sure Kyle knows exactly how she feels about him.

Julie James' FBI series is one of my favorite contemporary series on the shelves. She delivers every, single, time with characters that are so easy to fall in love with and stories that are fun and fast paced. She easily brings past characters into the current book so we get little updates on them as well as having them contribute to the overall story. ABOUT THAT NIGHT is a book that all fans of contemporary romance must check out. Kyle and Rylann's story is one I'll be rereading again and without a doubt enjoying it just as much as I did the first time.

♥Rachel♥ says

3.5 Stars

When I think of a classy adult romance, Julie James always comes to mind. I loved the first two of the FBI /US Attorney series, and for the most part I enjoyed this one as well.

Rylann Pierce is a US Assistant Attorney just moved from San Francisco to Chicago back to her roots after a breakup. One of her first cases is a “time-served” early release case of Kyle Rhodes, “the Twitter Terrorist.” This is a little awkward because it just so happens that nine years ago Rylann and Kyle shared a few passionate kisses in college, but lost track of each other after a family tragedy got in the way. Neither one forgot the other, but they never thought they’d cross paths again. Fate had other plans.

Kyle Rhodes, a computer genius and billionaire, has just been released after an agreement orchestrated by his sister, Jordan, and her FBI boyfriend (we had their story in the previous novel). He drunkenly hacked into Twitter and shut the site down after a very public breakup. Very stupid move over a girl he barely cared about, but he paid dearly. Imagine his surprise when he lays eyes on a sassy brunette he let get away. Now that Rylann is on his radar again he can’t get her out of his mind. A case brings them back together, but complications arise from their situation; Kyle was convicted in a highly publicized trial by the very office Rylann now works for and a relationship could call question to her position.

I really enjoyed Kyle and Rylann’s relationship. It’s grown up, without frustrating drama and incredibly sweet. They shared sizzling scenes filled with chemistry and swoon. As I said, I’m a fan of Julie James and her classy romances, but this one seemed to lack the usual spark. First of all, we only get Kyle and Rylann together for a snippet in the beginning and then for what felt like half* of the story they’re off living their own lives on different paths. Also, in each of the two previous stories there was a danger and suspense element that lent excitement to the story. About That Night did not have that. There is no underlying threat or mystery to solve driving the plot.

I “read” the audio-version of About That Night. The narration took me a while to get into because of the narrator’s style of delivery. I’m not sure how to describe it other than there was pausing throughout the delivery that I thought was a little much. I did get used to it eventually, but I’d listen to a sample of this story before I bought it just to see if it works for you.

Favorite quotes:

“I don’t mind hot and spicy. Actually find that appealing in a girl ... And chicken wings.”
Rylann turned her head and stared at him. “Did you really just compare me to chicken wings?”
“You say that like it’s a bad thing. Chicken wings are the bomb.”

“You came along and changed everything. I don’t want to be some guy you’re fooling around with anymore, Rylann. I want to be with you all the way.”

*It’s hard to determine if it was actually half of the story because I was listening to the audio-version.

You can read this review and more at [The Readers Den](#).

Annie (Under the Covers Book Blog) says

Posted on Under the Covers

An unforgettable kiss started it all...

Nine years ago, Rylann Pierce, a sweet girl with big dreams met a billionaire heir named Kyle Rhodes. They talked, sparks ignited. Kyle walked her home like a perfect gentleman, leaving her breathless after one kiss and a promise to see her again the next day.

But when Kyle is a no-show the next day, Rylann decides that dating a billionaire heir isn't in her six-year plan. So she busies herself, working on her career until she becomes an Assistant US Attorney.

Fast-forward years later and Rylann gets the gig she's been dreaming of. But her first case isn't ideal because she comes face-to-face with Kyle Rhodes once again, still fully equipped with those big blue eyes, cute dimples, snarky remarks and shampoo commercial hair. To reiterate, she is screwed. Because all those repressed feelings for Kyle return in a flood.

ABOUT THAT NIGHT brings in the sizzling tension in truckloads. I loved Kyle in A LOT LIKE LOVE. But Julie James really does deliver a stellar book for our favourite Twitter Terrorist. Readers can expect more of what they loved in the previous books of this series – great characters, impeccable knowledge of courtroom antics, and the perfect blend of sweet, sexy and funny.

However, I have to say that Kyle seems to bring a little more sexiness to this book. Perhaps out of all of James' books so far, ABOUT THAT NIGHT is the steamiest! Kyle likes to talk some filth! So prepare for some swooning.

Rylann was a perfect match for him, meeting him head-to-head with her witty comebacks. It was a pleasure to read a strong heroine who knew what she wanted in life, even if she wasn't sure how she was going to reach it. While it takes her awhile for her to decide that what she really needs in a blue-eyed looker (don't we all?), Rylann does come to terms with her feelings for Kyle eventually.

There was a good amount of angst in this one, though it wasn't bitter and that was very important for me. I felt like if Rylann stayed bitter about being left high and dry the entire time, this would have been disastrous. Instead, it shined because bitterness and humor don't always mix so well.

Followers of this series will be thrilled to note that there are many familiar faces in this book. Cameron Lynde, the heroine from SOMETHING ABOUT YOU, makes an early appearance as Rylann's boss. The hero and heroine of A LOT LIKE LOVE, Jordan, Kyle's sister and Nick McCall also have considerable airtime. Of course, we can't forget Wilkins, Jack's partner who plays a huge role in this book and Jack Pallas is there as well.

I wonder who will get a book next!

Seda says

"Bana ikinci kez benden etkilendi?ini söyledin. Dokuz yıl önce doktora s?nav?na girdi?imi söyledi?imde de ayn? tepkiyi vermi?tin. Demek art?k beni pohpohluyorsun."

"Onca yıl sonra söylediklerimi hala hat?rl?yor musun?"

"O geceye dair hemen her ?eyi hat?rl?yorum. Unutmas? zor bir hafta sonu."

"Benim yan?mda olmak sana tuhaf geliyor mu? Yani sana o hafta sonu ya?anan kötü olaylar?"

hatırlıyor muyum?"

"Hayır. Senin yanında olmak, o hafta sonu bana gelen tek güzel şeyi hatırlıyor."

Kyle ♥♥ Ne tarafa eriyoruz ???

Baylıyorum bu seriye. Hikaye, karakterler hepsi çok eğlenceli. Hiçbir karaktere kızmadan, sinir krizi geçirmeden, çok keyifli diyaloglarla kendini kısa sürede okutuyor.

Bu kitaba da bayıldım. Rylann ve Kyle'in atılmaları sürekli sürümüne sebep oldu. Hele Kyle'in içindeki suç çok orijinaldi. Jordan'ın kitabında Kyle'in hikayesini çok merak etmiştim. Tam bir serseri çıktı, romantik, aşık ve serseri ?? Eğlencenin yanında iki karakterin 9 yıl önceki geçmişi biraz romantizm, biraz burukluk katmış hikayeye. Macera kısmı ilk 2 kitaptan daha azdı, ama ben yine de sevdim.

"Aramadaki fark şu, sayın avukat. Benim zamana ihtiyacım yok. Neler hissettiğimi biliyorum. Şiine aşık olman anlıyorum. En hayran olduğum özelliklerinden biri de zaten bu. Ama bunca yıl, gerçek sevgiyi bulduktan sonra kalbinde ancak ikinci sırada yer alabilmek için beklemedim. Daha fazlasını istiyorum."

Okumalara doyanıyorum bu yazar ??
