After seven years, a psychopath starts killing again. He is mutilating women, and hanging them upside down in abandoned buildings with a meat hook through their ankles. Pinned to their breasts are messages in ancient languages. Parish and Richards begin their investigation, but Chief Inspector Trevor Naylor wants revenge on Parish, and the killer wants Mary Richards. Richards must also cope with the pressure of her impending National Investigator's Examination, Parish finding out that she snores, and the lack of men in her life. The investigation leads to a gripping conclusion, which involves DI Ray Kowalski and his partner, Chief Superintendent Walter Day, and Angela Richards. The Head of Forensics, Paul Toadstone, also becomes a hero.

## From Reader Review The Wages Of Sin for online ebook

### Mr Bunny says

Another cracker of a climax from Tim Ellis

---

### Veronica says

Another good read. The trainee is too childlike for me, and wouldn't last 10 seconds in the real world, however I still enjoyed the story. Recommended.

### Sarah says

The second in the Parrish and Richards series starts very soon after the first one has finished and is a thoroughly enjoyable read. I think the basic premise of the partnership is slightly unbelievable but once you have got over that fact it is a good book. A murder is committed which is identical to one 7 years previously, the scene is marked with some form of message which appears to be some form of cyrillic script. This book continues following the animosity felt towards Parrish by one of his superior officers.

All in all a good, easy read and I look forward to reading number 3!

### Nancy says

Another good one. The only part I didn't like was giving the killer autism, with the implication that autism was partly responsible for his behavior. Maybe having a nephew with autism makes me sensitive to that.

### Ann James says

Good plot that keeps that pages turning, but the young investigator is so irritating. I cannot imagine a person in any profession, constantly saying 'Sirrerrr' and calling her boss mean would stay in her job for long. It may be meant for her to be irritating, but the way it's done makes the character unbelievable. Hopefully she'll mature as the series progresses.

### Peggy Holloway says

I enjoyed The Wages Of Sin very much. It was like three of my favorite authors rolled into one: Ann Perry, Elizabeth George, and Johnathon Kellerman. Unlike Ann Perry who always ended her books too abruptly for me, this one come to an exciting climax and lets you know what happens to everyone after the murder is solved. The pace is just right, Elizabeth George's books drag in places sometimes. The psychological

profiling of Gabriel is as good as anything I have seen in Johnathan Kellerman's books.

The only reason I gave it a four instead of a five star is because of the broken record of: "Sir, you're so mean." and "Get me a coffee with four sugars." I intend to read more by this author. He has become one of my favorites. I'm sure his characters will grow along with him. Good job Tim!!!

I read the Parish and Richards books 1-4 and can't wait to read 5 and 6 loved the books will be trying other Tim Ellis books if this is the quality of his writing

### **Patsy says**

I am enjoying this series even though the work relationship between Parish and Richards isn't believable and also the fact that Mary Richards has to be one of the most annoying characters ever. How many adults talk like her.....Sirrr, you're so mean.....all the way through the book, so annoying. that said I do like these books it's just a shame the characters are a bit weak.

The second of Tim Ellis books i have read and another 5 stars from me, I am becoming hooked on the Richards & Parish duo, Tim Ellis has a way with words that makes his books so easy to read without losing the suspense, he touches on the nasty things a serial killer has done to his victims but without the usual gore that leaves the reader horrified. I love how he has brought these two partners together and the humourous banter that goes on between them. The Wages of Sin didn't disappoint, excellent read, now off to read the next in this series, 'The Flesh is Weak' and can't wait to start it.

I read books 1 - 3 of the Parish & Richards series back-to-back. Therefore, the reviews are being posted all at one time.

In "Wages of Sin" DI (Detective Inspector) Parish and his trainee, Richards, are once again on the case of a serial killer who targets "sinful" women. After a seven year hiatus, a psychopath starts killing again. He is mutilating women, and hanging them upside down in abandoned buildings with a meat hook through their ankles. Pinned to their breasts are messages in ancient languages.

As Parish and Richards begin their investigation, the disgraced Chief Inspector (CI) Trevor Naylor seeks to destroy Parish, while the killer has decided Mary Richards will make the perfect mother for his children. However, Ruben has a problem. He's impotent because of his diabetes and it sends him into a killing rage. When Ruben kidnaps Mary, the clock starts ticking. Her savior, Parish, is unconscious in the hospital due to Naylor's actions. Sorry, can't say more without spoilers.

enjoyed thisbook . like the dialogue though some of the story lines beggar belief ! it rattles on at a good pace and you can forgive the weaknesses because the characters are likeable and you are rooting for them from the sidelines .
