Ugh, for the love of God....grow a backbone Tessa. I'm so frustrated with this series! This book showcases exactly what NOT to look for in your first love. The relationship is abusive, and so unhealthy. The female characters are weak with no self esteem ?? how many times does your boyfriend's penis need to fall into another girls mouth because he was "drunk" (off one beer mind you ?) before you leave?! Oh wait...it wasn't his fault so forgive him for that! Or how many times does he have to act like a jealous maniac before you realize you don't want to live like that for the rest of your life?! And don't even get me started on these 18yr olds that are getting married left and right! I will continue reading in hopes that the books get better, since I have read incredible books by MJ....fingers crossed ??

More snapshots into an abusive relationship! Still don't like Tess or Lucas!

2.5 CRASH & BURN STARS

Whatever happened to the saying, "Love means never having to say you're sorry"? You won't find it or the meaning anywhere near these characters. Each page is filled with one apology after another. Luke and Tessa continue to swear eternal love for one another but it seems that neither ever does anything to please the other one -- well, except their off-the-chart sexual escapades that seem to be the mainstay in their relationship -- and if she isn't saying, "I'm sorry" then he is. The monotonous theme is getting very difficult to excuse and continue cheering them on.

Never have I read a book with so many mindboggling and mentally challenging characters. Angst gone wild! And my patience is wearing thin but I trudge onward hoping for a miracle for all these deviously reckless and oversexed young hellions (high school seniors).

Even so, there is something -- and I'm unable to label it -- that keeps drawing me in and leading me on towards the next installment. It's certainly not the writing style which is challenging at best, including simple and uncomplicated editing problems throughout -- resulting in a rather low rating for "New Love."

OMG.....I haven't been on an emotional roller coaster like the one I experienced reading New Love in a very long time if ever. I cried so hard with the things these characters went through and then laughed and experienced their joy. MJ Fields has created a storyline that feels so real you have to stop and make sure this

is not happening to you. Tessa and Lucas go through so much as young loves. I wanted to shake Lucas and ask him what his problem was and in turn do the same with Tessa. The pain Jade had to go through. I don't want to give anything away so I'm just going to say that this is the best series involving young love that I've ever read. If you haven't read the first book Blue Love in this series GET it and read it and continue on. You will love these books!!!

This is the second in the Love Series. Funny how Ms Fields uses the word love, cause that is not the word I would use. I would say this is second in a Drama Filled Bitches Everywhere Series. Doesn't have as catchy a sound does it. But it is more truthful.

We met Tessa and Lucas in the first book. They were star crossed high school loves that just needed to mature to be able to appreciate each other. Time passed, but maturity does not really happen.

Lucas is in a turmoil with his ex-girlfriend/baby momma. He gets a scholarship and moves a short distance away to college. But he is still a magnet for crazy girls who want to mess with him.

Tessa knows they can get through these bumpy times and then everything will be ok. She loves him and he loves her. So it must be going to be ok. I mean...they L.O.V.E. each other. And when they are good they are oh so good. But they are all over the place emotionally.

...you were pissed at me in the kitchen and now I astound you. I was crying like a little child a minute

ago, and now I'm laughing. There is seriously something wrong with us...This is not strong, this is wrecked Lucas.

And they are so wrecked.

The book could use some serious editing but the story is great. The emotion is there. It needs some commas, periods and a spell checker.

But there are great secondary characters who will break your heart and make you smile. Maybe we are just as wrecked as Tessa and Lucas. I need to read the next one fast. Yep, I am just as wrecked as the rest of them.

I swear I want Tessa to do the scene from Moonstruck where Loretta (Cher's character) slaps Ronny (Nicholas Cage's character) and yells snap out of it. I'm not sure how many times Lucas has to hurt her before she gets a clue. I know this relationship is new and has nothing to go on since she has never had a relationship. I realize she is trying to figure it out and is doing the best she can. It is hard when it's the first love, she needs realize she deserves so much better than Lucas. Lucas is trying to be the man Tessa deserves yet he still gets into situation and does not do anything about it. I really don't like Lucas. When he does really ugly things to push her away to another guy. He just keeps showing up and won't let her breathe and move on. M.J. Fields does a good job of conveying the feelings of first love, not being able to move on, loss. This book is high school drama and frustration at it's highest. I was entertained but this series is not near as good as The Men of Steele Series which I would recommend before this series. I'm invested in this series and will finish but in my opinion this is not for everyone some will like it and some will hate it.

I had to mentally brace myself for this bookie because the first one hit me HARD, and it wasn't just the cliffhanger. As we all know Lucas and Tessa's relationship was kinda non-existent by the end of book 1 now it's kind of existent and well not going the way either of them planned, "nope, look last night was fun, I know you're leaving and I know you're going to have a baby, but for just a few minutes," she stopped took a deep breath and swallowed, "I forgot, so my mistake, I'm sorry. I'm not mad and I hope you can forgive." You know Tessa we're seeing a new side of her it's kind of like roles are reversed and it's Lucas's turn to look after and be there as a support person, "that's nice Tessa but what s*** did you do? Did you drink, do pills, or smoke something?" Lucas demanded." Lucas he can be sweet, and just lately he's getting on my nerves it's like the pot calling the kettle black, "Tessa you want to tell him the stuff I'm going through?" Lucas snapped. "How about we tell Ben here what you're actually like?" Then he got back in my good graces, how did he manage that by well not making a big deal over something when mother nature hits Tessa, "Lucas stood and look at all the different types of pads, "Now what the hell do you need wings for and why not these?" he asked picking up a box of tampons." When they're together I love their playfulness, "ok my bad," he put his hand on her a**, "This will look fine in uniform," he rubbed his hand down her butt and grabbed it." I mean Tessa she grows balls in this book and speaks her mind, I love seeing her grow, "you complained, and you got pi**ed at how I sucked your di**?" Yes, I'm pi**d that on'es going to be a little hard to get out of my head." This cliffhanger wasn't as bad as I thought it was going to be it was something to work with so I was pleased, well still upset that there was a cliffhanger but pleased with the cliffhanger, if that makes any sense at all.

UN-FREAKIN-BELIEVABLE!!!

I feel like a heavy weight is setting on my chest. Poor Tessa. I am loving this series so much. I really can't understand Lucas. He has the love of his life in front of him but yet he can't seem to keep it in his pants. I mean come on! How many chances does he expect Tessa to give him. I wouldn't have taken him back after the Sadi in the hot tub incident. And then to have to deal with all his ex's I would have just given him up and said ba-bye. I have to get to the next book. I EXTREMELY recommend this series to everyone.

5 STARS!

This book was a crazy roller coaster of emotions between Tessa and Lucas. Oh. Em. Gee. Lucas acted like a jerk most of the book, with his push and pull. We also have a lot of drama. Exes become an issue. New love interests come in play. We also get to their the lives of their friends evolve and develop alongside of Lucas and Tessa.

Tessa has also become more and more of a pushover for Lucas. She wants to help him and be his friend but I hate to bust her bubble... not gonna happen. Lucas is going to take what he wants and there will be no questions asked. And Tessa deserves someone BETTER!

I cannot wait to see what is in store next for this series!

So, I am totally hooked on the story, even though it does have some problems...for instance at some points things have occurred already but then later on in the story they have not, and the spelling, missing words and grammar need a bit of work...BUT the characters and the story are fun, hooking and one that I can't stop reading. I wish that this series was re-edited so that I could give it all of the praise that it deserves, but alas, these things matter to me and I can't not let other readers know.

Fall in Love with Lucas, Tessa, Collin, Jade and more when you read this story. It can be read as a stand-alone, BUT I would start at book 1 so that you can get the full effect. A good story, a good plot, just bad editing.

Good book

Grammar errors in this book as well as the first, just not as many however enough that its a distraction. Tessa takes more crap from Lucas than any 18/19 yr old I've ever known lol but I guess everyone's different. Over

all not a bad read

I was on Amazon everyday waiting for this book....the day it came available yesterday I had it on my kindle and read it in 24 hours..... Come on this book made me cry so many times, wow this was a up and down ride. I have to say that I was really torn on my feelings for Lucas I was really wanting to see Tessa with Ben. Lucas just could not get it together, I really thought there was going to be a HEA. I thought he could be a strong man, but again he is young. Jenny (Wow hated that girl), I read the last two chapters twice and just shook my head WHY WHY? I am hoping that this can turn around but it's just so sad when it's you first love and your forever. I cannot wait for this next book to come out, I am going to be waiting and watching for this book to come out.....
