## Whiter than White G.G. Carver

Life is a rat race, and Elena White is stuck on the treadmill.

She's been living on autopilot, a slave to the 9-5 routine - until a chance meeting with an old school friend serves as the catalyst that changes Elena's life in a way she could never have imagined.

Dazzled by her friends self assured confidence, Elena makes an innocent attempt to break from the monotony, and the repercussions send her on a roller coaster of emotions, smashing predictability to pieces, leaving her life anything but predictable.

### Jennifer Edwards says

This debut book by G.G. Carver tugged at my heart strings, toyed with my emotions, kept me intrigued, and had me on an emotive roller coaster.

Among the male characters I was never quite sure if any of them were going to be honest or true or have good intent. I kept guessing about Conrad's intentions even though I so wanted to love him. I was constantly afraid that he was going to destroy Elena's heart and life just as the other ancillary characters were doing. I did not want that to happen especially because they had such a wonderfully playful and passionate connection.

Speaking of the many impassioned encounters of Conrad and Elena, they are downright erotic and made me catch my breath. I will never, ever think of eating yoghurt in the same way ever again. In fact, that is a brand new experience that I believe should be endeavored!

I am a girl who loves thrill and mystery. "Whiter Than White" also had its share of this. Surprises around every corner. It seemed for every up that occurred there was an equal or greater experience that came crashing down. I wondered if there was going to be a happy ending or not until the end. I, myself, AM a fan of the not so happy ending. Carver brought me close enough to being heartsick to appreciate the happy ending that his book has.

This was not an ordinary, predictable erotic romance. I truly felt for Elena and Conrad. I adored the suspense, the romance, the heart break, the steamy sex... I was totally captivated. I look forward to future releases with anticipation.

Elena is living the dull single life of a 9-5 job that she hates until the day she bumps into a old class mate at a coffee shop.

Jasmine radiates confidence and luxury. Everything Elena isn't. As she gets invited over to Jasmine's place her life begins to change.

I don't want to give too much away of this book. All I really have to say is bravo GG Carver for your debut book! The sex scenes are visual...yum! Yogurt! Read the book ladies! The man Leading man Conrad and he is the hot, sexy CEO that we all love and rides a Ducati! This is a must read. I promise it's just Smutty enough!

I was gifted a copy by the Author in exchange of an honest review.

(Please be advised there might be spoilers)

Stuck in the monotony of daily life, Elena White thinks her life is going nowhere, her job sucks, she has the supervisor from hell and usually ends up spending most of her days alone, and the cherry at the top? her love life is literally non-existent, but they say everything happens for a reason, and one friendly encounter leads her to be carefree and advertise herself in a dating website, but what starts as a wild and adventurous idea, soon becomes a game of cat and mouse, that one single act of boldness not only brings her to the arms of the most charming but secretive Conrad Bailey, but also has an impact in her own life and everything around her, including what she loves most.

I am not a fan of spoilers so I won't tell you more as I might ruin the plot for you, however I can only say that G.G. Carver has created a beautiful story, the writing is absolutely flawless, the timing is impeccable, there is plenty of hot and very steamy scenes but also a vast amount of content, it is not overly descriptive and this is well applied when the story requires it, the story is told in a narrative form which allows us to see the lead characters' POVs. I totally recommend this book, it's original, fast-paced and perfect for all fans of the erotic romance genre.

**\*\*NO SPOILERS\*\*** I was delighted and honoured to receive an ARC of *Whiter Than White*, G G Carver's debut novel. The beginning had me intrigued and I was surprised where the story took me. It had a plot that was quite unexpected (a good unexpected), it was funny/witty and it was sexy. I hope you enjoy it as much as I did. Well done G G!

The thing I like about this book was the banter between Conrad and Elena. Usually in erotica, the author is so busy setting up the erotic scenes, they forget that outside the bedroom, people do have normal conversations. They have a laugh and a joke and talk about inane things. That's where Mr Carver has succeeded where a lot of erotic authors have failed. He has made some of the exchanges between Conrad and Elena hilarious...they bounced off each other with their saucy innuendoes and their sarcasm.

The sex was well written but it did surprise me to read the word pull all the time. Grab, stroke, grip...but pull? Hmmm unusual terminology especially written by a man!

I also think that when ladies are choosing book boyfriends, they should be leaning towards a guy like Conrad because he wasn't arrogant, and he knew how to treat a lady properly. Maybe as a man myself, that's how I feel men should be towards women yet it surprises me when I see women fangirling over complete asshole characters in books that can only be described as abusive half the time!!

If this is the standard of Mr Carver's first novel then I expect him to hit all the bestseller lists as he has perfected his craft very early on in his career.

Congrats on a great book!

\*\*\*\* **4.5 Roller Coaster of Emotions Stars** \*\*\*\*

It's nice to try new things somethings.

One of my favorite things is reading a book from a author I have never heard about.

The bigger picture is reading said book and really enjoying it because lets face it we are always worried about getting out of our comfort zone.

I did not know anything about this book before I sat down to read it. I did not even read any reviews I just dove in and I am really glad I did.

One factor of the book I really found that I enjoyed was the dialect.

The way it was written matched the setting of the story. Coo-dos Mr. Carver.

Another thing I really like is that the details that were given in the story. You felt like you were their with the characters and you definitely **FELT** their emotions.

**Elena White**~

Elena was a costumer service worker at the bank.

She hated her job. Her boss was a royal bitch.

Her life was very boring. She has no love life.

Not close to her mother and her father left the picture when she was young.

Elena is barley making it, she is not broke but she makes very little at the bank.

Everyday she just goes through the motions.

Until one day she runs into a old high school friend named Jasmine.

Jasmine is living the high life and is very self centered if you ask me.

Elena and Jasmine have not seen one another in eleven years. They were really never best friends they just knew one another and Jasmine never made fun of Elena in school like the other kids did.

Elena was always envious of Jasmine beauty and self confidence.

They begin to catch up and Elena learns that Jasmine is registered with Daddy Daddy Sugar. Which is a dating service. Jasmine talks Elena to register with the site what could it hurt right.

She lives a boring life and needs some excitement so with a some persuasion on Jasmine's part she agrees.

**Conrad Bailey~**

Conrad were do I begin with this knight and shinning armor.

**I absolutely loved him.**

He also rides a bright red Ducati.(HOT)

And you can not have a knight and shinning armor with out a villain.

Right?

Oh was there ever one.

But you are going to have to read the book to find out all about HIM.

Conrad had his on problems he was struggling with throughout the book. It just broke my heart.

He is a very wealthy and private man and does not let anyone in easily.

He is confused at first of his feeling for Elena he does not understand why she has captivated him so quick when they only just met. (well he saved her from a very bad situation)

And one thing is for sure she does not fit into his plans.

The playfulness between Conrad and Elena was so cute.

Naughty talk to the sarcasm. LOVED IT.

The sex was **HOT**.

This book makes you feel every emotion.

I hurt for both of them throughout the book.

**"That's my favorite flower. A pure white rose. Perfect. Every time I see one now, I'll think of you, Elena White"**

**This is a great romance book.**

Suspense, love, hot sex and angst. And throw in a few twist and turns and you have a perfect story. One twist was definitely a doozy.

I highly recommend it.

**All I can say is read this book!**

**I will definitely be keeping my eye on this Author for future books.**

**One last thing ~ Note ~ The strawberry and cock cream ~ Favorite part besides the shower scene!!!!**

4 handful of arsemeat stars

What a great debut novel from GG Carver. I zipped through his words with ease, merely stopping for sustenance just the once!

Elena White had become stuck in the humdrum of normality, until a chance meeting with an old school acquaintance started a chain of events that spiced up things considerably.

I thought all the characters were well developed, especially Conrad \*sigh\*. He was just a delight to get to know, and love quite frankly. Elena was initially quite naive, but cottoned on very quickly, and didn't irritate me at all, which is always the sign of a well written h IMO. Jasmine was stunningly gorgeous, unlike her scheming, loathsome father \*booooo\*

The prose flowed well, if a little rudimental at times, but plenty of promise that will grow with confidence in the future, I'm sure.

4.5 VIVID STARS!!

I love when I stumble across new, great authors!! No better surprise for me as a reader.

Going into this I really didn't know much. Vague blurb and the reviews all say 'you have to read this to see why I loved it' lolol. After reading it I understand why. It's all part of the charm of this story IMO. You have to read it and 'feel' for yourself :) And 'feel' you will. I absolutely adore this authors writing. Sometimes, especially in an erotic novel, authors forget the little things. Carver went above and beyond w/the little things in this one. And from the MC's playful banter to the descriptive scenes of where this takes place. It just made me feel good :))

Conrad and Elena have taken up a spot in my heart now. And not coz he is a OTT Alpha or coz she is a bad ass h. Just coz they were true to themselves. They're good ppl and you just want good things for them. Sometimes it's just that simple :))

So if you're looking to give a newbie a shot? Or you are in the mood for a solid story? No gimmicks. Just a solid story. Pick this one up and ENJOY!!!

Oh to be fair I should say that I think this is my first 'foreign to me read'. Meaning the first book I've read from an author from a different country w/the story set in that country. Huge selling point for me I found lol. Great escape!

My girlfriend recommended I read this book, she said she had 4 panty changes and hadn't even finished the book yet. WOW! So glad I listened. I love an erotic romance written by a man. G.G. Carver did a fine, fine job. Elena is sweet, Conrad is the kind of man I'd love to meet. Their story has sex, lots of great sex, suspense, angst and love. I absolutely will tell my friends to get this book and read it! Looking forward to your next book G.G. Carver

Content with her life as it is, Elena White finds herself in a forced compromise that started with an old high school classmate.

She never knew that her life could get so complicated; mundane was what she was used to. All the hysterics of fashion; money and love never seemed to be in view of Elena's plan. Work until an opportunity presented

itself is what she thought, easier said than done. Her boss wasn't handing out compliments nor was she opening any good fortune doors for Elena. Contentment is what she welcomes.... Until she bumps into an associate from high school, Jasmine. Not besties, not enemies but allies.

Jasmine, seems to have her life well put together or so it seems through Elena eyes. She invites Elena for drinks; dinner and presents her with an opportunity that turns Elena's world into chaos. No, no, not organized chaos but the kind of chaos that puts her into a situation that causes Elena to lose her not so perfect job; unmistakable humiliation; lands her in jail and fallen for a guy that can't be hers.

A guy that can't be hers.... Conrad, a successful businessman with a story untold. Until the universe puts him in a place that may have been wrong for Elena but right for him. These two share a relationship that isn't exactly first impression date worthy. Conrad isn't an open book but his interesting smooth and humble demeanor has Elena wanting to know more about this man. I can go on and spoil the book for you but I choose not to, I want readers to experience everything GG has given in this book.

Honestly, this book started off a bit slow for me but that's because I didn't know what to expect from GG Carver. However, now that I have read it I know that it was a building tactic for his readers... I love authors that does that. It allows me to have "the back of the mind thought".... You know the thought that you know there's something about to happen and you try and figure it out before it does. Sixty percent of the time I'm wrong but I love it when I am wrong because the outcome is that much more shocking to me. I can tell you, I DID NOT see where this story was going and went.

I can tell you that I enjoyed every minute of it, also I love when an author uses the title within the book. I can tell you, THAT IS THEE climax of the book for me.

"Elena, if I thought you were that sort of girl, I wouldn't be here. We all make mistakes. It's a part of life. Nobody is whiter than white."  
-Conrad

Whether it is at the beginning, middle or end of the book. It brings the significance out in the story, I look forward to see how it is used and what role it plays. GG played this line of the book well. I actually wouldn't mind reading a sequel to this book. GG can go several places with this story. A lot of tragedy and revenge on Elena and Conrad and maybe a real love interest for Jasmine.... Hint Hint.

Whatever GG decides to do with this, I look forward to his work in general and there's always something to look forward to...

I read this book with the express intention to review and as such, made notes while I was reading. One of the first things I noted and loved were the subtle hints of humor and the cheeky banter enjoyed by our sexy, dirty-talking alpha male, Conrad and the beautiful, almost naive Elena. GG Carver's writing is beautifully descriptive but not overly so and he truly paints a perfect picture with his words. This book certainly ticks the erotic romance box with super-steamy, super-sexy scenes and I just loved Conrad's filthy mouth! I'm definitely looking forward to reading more from this author. Perhaps even a book for Jasmine..? I do wish that there'd been an epilogue to conclude Elena & Conrad's story, however this could be the authors way of

leaving it open for the characters to come back in another book.

Much More!

I couldn't put this book down! It was hot and steamy for sure, but not just that; it was more! It was more of what every girl truly wants. Who wouldn't want a strong connection with that one man to be that kind of hot and steamy with them, and would encourage a woman to do anything or try anything to please him. We all want that which the author wrote about! This will be one of my most favorite love stories of all times! What a powerful message this story could bring to men and women. Things that seem to be lost to the masses like, loyalty and the rewards between a couple that have that, the importance of communication, coupled with honesty and love. This book honestly blew me away! To say that I loved it is an understatement... I cannot stop gushing over this beautiful story! I hope there will be many more...

Sincerely, Kathy---Skinner

☆☆ Review ☆☆

For me to enjoy erotica it has to be at it's best; not sleazy or cheesy and well described. I need to have a good story with my sex.

Whiter Than White was getting good reviews and I fancied a change in genre. I'd met and spoken with G (I'm a lucky lady I know) so I thought it was about time I made room in my diary to read his book. I'm not sure what impression I made when we met but I think I must have scared him a little. I told him I'd be gentle with him but completely honest!

I went in totally blind not knowing what to expect but believing this was going to be a full blown erotic novel. However we had a plot, and quite a good one. This wasn't just an erotic piece of work it was a suspense novel with twists and turns along the way. Then lo and behold something else hit me in the face full force. Humour! Well I'll be buggered, it wasn't just an erotic suspense, we had a hint of humour too.

My first thoughts leading into the first third of the story were pleasant. I felt like this was written 'politely.' I know it's an unusual way to describe a writing style but it's the way I felt at 30%. I was enjoying the britishisms a lot. It's rare for me to read from a british writer but being british it's something that really entertains me. When I read the words arse, tits, piss and sod it actually makes me chuckle like a teenager (I need to get out more). Listening to conversations from pub landlords and taxi drivers speaking in my language added to the appeal of the book. G describes the scenes extremely well, I pictured a quaint pub in my head. The bike parked in the car park in the pouring english rain. I could almost smell a 'Full English Breakfast.' The roast beef dinner was to die for. Visions came easy. Worn out carpets and low ceilings, narrow staircases, brass door handles and attic rooms. Then the further I travelled on my reading journey I realised what I meant by 'politely written,' this book was giving me hints of Bridget Jones and Love Actually. That is a huge compliment Mr. Carver by the way, these are my favourite british films (yes films, not movies).

At first Elena was a weak willed woman with no self confidence, like a timid, scared little mouse. She

seemed to trust everyone and rarely answered back. As things progress she gets stronger and confidence grows but she's still a bit of a sucker and easily played.

Conrad was indeed supposed to be a knight in shining armour, the all round good guy who everyone would want to be their boyfriend, son, lover. Or was he? Well I thought he was a little shifty on a couple of occasions but you will find out why and you'll draw your own conclusions as to Conrad. No spoilers from me. I loved Elena's inner dialogue and conversations with herself, which were really amusing at times and once again made me smile. One thing bothered me though and that was the over use of her name, that was my only problem.

The sex was steamy and hot and we maybe get to live out one or two scenarios we possibly would like to take part in ourselves. It wasn't overly played out and shy little naive Elena is certainly confident in that area.

To sum it up I enjoyed the ride, it was an easy read for me and I think it's the perfect holiday read when you can jump in the pool to cool off when required. Whiter than White was a good debut from G.G. Carver and I would definitely read more from him. I'm wondering if there will be more to come from a certain character who played a big part in Elena's life. Personally I think she needs a novel of her own, that could be epic.
