### Chemical [se]X Oleander Plume

Sex and chocolate! Was there ever such a marriage made in heaven? Isn't the thought of it making you bite your lip? Chocolate melting on your tongue...desire pooling in your gut... There's a chemical connection between sex and chocolate that makes our craving for the pair together far more than the sum of its parts. Oleander Plume has always been obsessed by this coupling and so, inspired by her wicked short story Chemical [se]X, she corralled a baker's dozen of erotica writers and force fed them chocolate until they complied with her wishes. Each one of them has turned in a mini-masterpiece of chocolate, seduction and red-hot sizzling sex that will have your cheeks burning and your fingers reaching for just...one...more. All of the writers Oleander selected are at the top of their high caliber game. From seasoned writers who've already proved their mettle to a number of extraordinarily gifted newcomers, you'll find so much satisfaction between these pages. In every story, the aphrodisiac chocolates developed in Oleander's original story put in an appearance—causing a submissive to turn Domme, kicking off an orgy at a roller disco, rekindling a long-dead marriage, and playing havoc within the repressed confines of religious order. Men jump on men, a woman jumps on her husband's boss, twosomes become threesomes become foursomes... These chocolates need to carry a warning—just like this book—too hot to handle! Naturally, each copy of Chemical [se]X should come with its own small gold box of aphrodisiac chocolates. We're so sorry it doesn't! But rest assured, the stories you'll find between these pages will leave you just as heated as any aphrodisiac could have done. Finger-licking good!

## From Reader Review Chemical [se]X for online ebook

### Judith says

Holy Shit !!!

Hot, dirty, filthy SEX and I loved it

A series of short stories which kind of link together as all the characters have taken an aphrodisiac in the form of chocolate

I need to be hosed down after reading this, yes I know that sounds bad but that's the affect this book had on me

My favourites were,

The first story with the scientists,

" Holy Shit, leave the socks on.Damn that's hot "

I don't think I'll look at Argyle socks in the same way again

Other favourite was du(X),

Two men getting hot and heavy in a bathroom stall wearing rollerskates ( yes rollerskates and they did slip around a bit )

Totally HOT!!

Don't read in public ( unless that's your thing ! ) and don't leave tablet lying around unattended , my 17yr old son picked my tablet up as he thought it was his and started reading it...don't think he'll look at me the same way again !!

Mmm, if only it wasn't fiction and you could buy this stuff!!

During a Sexy Librarian podcast with Rose Caraway and Tamsin Flowers, Oleander talks about how she wrote a story about aphrodisiac chocolates and posted it on her website for free. Then she thought about writing a sequel. The idea then evolved into an anthology with the erotic chocolates as a common theme.

Much like Tamsin Flowers' Alchemy xii erotic serial, Oleander's idea is something I haven't seen before in erotica. While anthologies have a common theme, there's nothing tying the individual stories together. With Chemical [se]X, while each story works as a stand-alone, the connecting thread took the collection as a whole to a new level. I want more anthologies like this.

\*\*\*\*

I read a LOT of erotica. With some exceptions (basically anything I review on this blog or authors I squeal about on a regular basis) this means I have zero issue reading erotica in public because I'm a bit desensitized.

I read using my kindle app on my phone which means I'm likely to read anywhere and everywhere.

I started reading Chemical [se]X in a very long line of Christmas shoppers waiting to be checked out, beginning with the story that started it all; "Chemical [se]X" by Oleander Plume.

I was feeling a little flushed by the time I was checked out. I knew I should stop reading Oleander's story in public. But it was so good I couldn't NOT read it and I had to hit the grocery store in the basement of the mall I was in before I could go home. I've never been so turned on while riding an escalator before in my life. I don't expect to ever have that singular experience again, either. Gold star for you, Oleander!

\*\*\*\*

Oleander also contributed one of my other favorite stories—"Coffee Break"

Zak and Ryan have the best banter in the book. They are an odd couple of co-workers with Ryan just NOT GETTING half of what Zak means when he uses words like "pansexual." But by the end of the story there is an electric m/m/m threesome. Bonus point for an interracial coupling—there aren't enough of them.

\*\*\*\*\*

Jade A. Waters' story "The Connection" was the story that resonated the most for me.

"The Connection" is about a couple who have lost their way from one another. Aubrey buys the aphrodisiac chocolates, hoping that they might help her and Terrance find that old spark.

I've been married for almost nine years, and I'm the mom of two children. One of the realities of a long term relationship like this is that there is a lot of ebb and flow to the sexual connection, especially post children. Jade nails how frustrating the isolation is, and how scary it is to reach out.

When I read this story, all I could think about was reading it out loud to my partner with some chocolate truffles nearby.

\*\*\*\*

"Bittersweet" by Malin James is the most lyrical story in the anthology. Malin has a talent for paring a story down to its most essential elements that is almost poetic.

I loved the flow of the story from the narrator's ambivalence to the way that her sexuality is taken in a new direction with the chocolate stimulus.

\*\*\*\*\*

"The Stranger" by Tamsin Flowers is special for many reasons. I knew to expect hot sex—that's a given with Tamsin. What I hadn't expected was a story set in the deep South with such a pitch perfect voice. A Southern voice is easy to screw up and hard to get right. She nailed it.

Tamsin leaves ambiguity in the story that made my imagination run wild—why was he there? where did he go from there? Did McGrindle's carry the special chocolates or were the women the stranger left behind praying for lightning to strike twice?

\*\*\*\*

Honorable mentions go to

“Dinner for Three” by L Maretta for a really hot f/m/m threesome.

“Friendly Neighborhood Drug Dealer” by Ella Dawson for writing the finals week hookup I wish I’d had as an undergrad

If you weren’t already familiar with Oleander Plume, you will be after this anthology. I have had the pleasure of reading several incredible anthologies put together by some of the most respected names in erotica... Rachel Kramer Bussel, Violet Blue, Alison Tyler... I must tell you that NONE compare to this masterpiece. From the cover to the book trailer to the thoroughly stimulating and satisfying stories contained within the pages, “Chemical [se]X” is the best erotica anthology you will find anywhere available to purchase.

Chocolate, sex and fantastic writing melt together to create a collection of stories that will cause you to feel the sexual intoxication. You may even consider attempting to whip up your own batch of chocolate aphrodisiacs. Alas, none of the stories provide recipes with the secret chemical ingredients so just make your own favorite chocolate treats and eat them while reading this anthology. I guarantee you will feel the effect.

Though I was unfamiliar with the majority of the authors, Oleander Plume has proven her ability to spot a good story because there isn’t a single delicious tale in this book that isn’t excellent. This collection is a great introduction for anyone curious about the erotica genre and most definitely one that regular erotica readers will want to put at the top of their list. The stories are full of entertaining characters and well-written, explicitly detailed scenes that will have you craving chocolate and sex like never before. I particularly enjoyed these stories because they were fun. There is lots of erotica on the market but these hand-picked stories will make you feel good in more ways than one. “Chemical [se]X” is an extremely pleasurable and intensely seductive read. There are no dark and sinister undertones as each story is designed to be sex positive. The stories are addictive and you can’t help but feel a bit of the chocolate buzz as you read.

“Chemical [se]X” has my vote for the best erotic anthology of the year. It is absolute perfection and I predict a best seller. There is nothing comparable. It is truly in a deliciously sensuous category all its own.

Wowza! Chemical [se]X was a lot of things for me. The first couple of stories had me in stitches giggling over some of the phrasing and I was worried that I got myself into something that wouldn’t deliver in the sexy department. The intro and the set up for the anthology had me really interested and I was anxious to see how so many different voices were going to deliver. And then, I got to the rest of the stories and was blown away by the different writing styles and the many different scenarios that each writer dreamed up after Oleander Plume’s initial short story set the premise. I attempted to take notes on each story, but that went out the window once I got going. The stories were not only well written but many have been highlighted for future locating as they will be reread in the future for “personal use”. A lot of different kinks and fetishes are included within the pages of Chemical [se]X and that was part of the fun. With each new story and author, I had the joy of discovering how each particular writer was going to incorporate aphrodisiac chocolates into

their kinky tales. With the exception of just a couple stories I found this to be a worthwhile anthology that will be revisited over and over again in the future. I would definitely recommend this one!

I will admit to so far just reading one story from this anthology, The Dinner Guest by Tabitha Rayne. Short and to the point Luca and Jasper can feed me chocolate anytime, anyplace. I will get round to reading the rest soon.

Copy received from author in exchange for an honest review

A wonderful anthology project that ties together nicely! The premise is simple and beautifully executed between all authors involved. You won't want to put this down once you start reading, and each story, though separate, ties into the main theme beautifully. The care and detail and collaboration between the authors is felt throughout this entire anthology, and I just want to read it over and over again! Now, if only aphrodisiac chocolate existed in real life...

Don't delay in picking up this HOT and STEAMY collaboration, because you won't be disappointed!

### **Lynsey Sabin says**

This one has had me in stitches with some of the terminology for orgasms. One even described it as her G-Spot singing Zippity Doo Dah, I just about died laughing at that part. There are quite a few different stories in this one, I wasn't expecting so many. The first one is where they test out an aphrodisiac and put it in chocolates. The rest of the stories are couples, random menage's, M/M and also one where there are 6 people altogether, all trying out these chocolates. Some are using them to spice up the sex life and others don't realise what they are eating. One or two of the stories weren't as hot or as sexy as they could have been. Others were very, very hot and made me squirm on more than one occasion. Even though each story was written by a different author, I found a lot of the authors had a similar writing style. Some stories could have been that little bit longer and again a little bit hotter but they were still enjoyable.

Chemical [se]X maybe one of the most fun, sexy, and arousing books I've read in a long time. Right from the beginning this book gets its hooks into you and won't let go. I loved that! I knew that the stories would be based on a theme, but I didn't know just how connected the stories would be. To me the connectivity made this anthology a standout. Refreshing and just clever. I highly recommend reading this book.

Each story involves an aphrodisiac chocolate that will have you licking your lips wondering if there is such a thing. (Seriously, I'd like to try some if there is).

All the stories in this anthology are solid and arousing. I enjoyed every last one of them. A few of my favorites were Dario Dalla Lasta's [du] X. Talk about intensely arousing and fun. Lasta's character Sage just sounds like the sexiest thing on rollerskates! Yeah, rollerskates. I don't know why that detail made the story so hot, but it did.

The Dinner Guest by Tabitha Rayne had me turning pages at lightning speed. Damn! My favorite line (one of them anyway) is when Luca and Jasper help undress the female narrator. "Hard panting and material ripping is the only sound." I like the thought of hearing her dress rip. I also loved her realization afterward when she figures out how their threesome came to be.

Coffee Break by Oleander Plume had me laughing outloud. The dialogue between Zak and Ryan is so damn funny. But the humor and playfulness wasn't the only thing that got my attention. These boys are hot and hot for each other! Their sex is explosive and energetic. Where most stories might end after the sex, this one keeps going with more funny happenings and more hot, pounding sex when the Mayor comes back to the house and shows off his special room.

Just an overall hot anthology! Loved it!

### **Sexual Chocolate**

I was hooked on this book from the start. Every story was different from the last. Granted, the final story was my least favorite. That's no knock on the rest of this "sexual chocolate". I was interested from the start. Exciting and heart-racing.

Overall rating 3.5 stars rounded up to 4.

Wow what a sex-feast of an anthology. Story include MF, MM, MMF, MFFM, and a little bit of everything in between. Each and everyone is scorching hot. Some appealed to me more than others, as is generally the case with anthologies. It would be near impossible for 13 authors to appeal to one reader! But I did discover a couple of author that I will be seeking more of their writing.

My biggest complaint was the lack of safe sex/condom use. There is a huge amount of anal play and partner sharing so I think it should have been mentioned, even if briefly, especially as many of the scenes were not between monogamous couples.

That aside this is one scorching hot anthology. Well written and edited.

Intro from Oleander Plume....

*Thank you for purchasing this book. You're awesome and I want to kiss you. Right on the lips.*

Thanks for the Kiss Oleander, lol.

### **Karen S says**

A hot anthology of very sexy stories that had me fanning myself after every single one.

Quick and easy to read but just be careful where you read it and who is around you at the time!

I loved the recurring theme of the chocolate aphrodisiac and just want to know where I can get me some!!

I received this as a gift from one of the authors.

### **Ria Restrepo says**

Chemical [se]X is a scrumptious collection of wicked delights with something for just about every prurient taste. You may be tempted to gobble the whole thing in one sitting for the ultimate erotic high, but I found myself savoring it one or two luscious bites at a time.

Just like a box of chocolates, I had my favorites. Both of Oleander Plume's offerings make the top of the list. The first story, "Chemical (se)X," for which the anthology is named and the inspiration for the rest of the stories, is a brilliantly naughty story about two scientists tasked with developing a line of sexy chocolates using a powerful aphrodisiac discovered in the Brazilian rainforest. Jane and Wyatt's experimentation has some very pleasurable results.

Plume's other story, "Coffee Break," is an erotic tour de force laced with her trademark spicy wit. While installing wainscoting in the mayor's house, Ryan and Zak unknowingly eat some of the sexy chocolate and are soon hammering each other. But things really get interesting when the mayor gets home.

"The Connection" by Jade A. Waters is a hot and sweet story of a wife using the chocolates to revive her sex life with her husband.

"The Dinner Guest" by Tabitha Rayne is a decadent tale of a woman reunited with her old friend, Jasper, over dinner with her current lover, Luca. Little does she know what they have planned for her.

In "Chocolate Covered" by F. Leonora Solomon, Lotte takes a temp job at a candy company, but things get deliciously sticky when her handsome, but demanding, boss accidentally samples the sexy line of chocolates.

Things really heat up in "The Commute" by C. E. Hansen when Carly's best friend gives her some chocolate to overcome her lethargy, so she can show her boyfriend a good time.

"Dinner for Three" by L. Maretta is a scorching story about a wife trying to make a good impression on her husband's boss by preparing the perfect dinner. When she accidentally uses the sexy chocolate for her dessert, she gives them a wild night they won't soon forget.

In "Friendly Neighborhood Drug Dealer" by Ella Dawson, Steph pays a visit to Aaron to score some pot

after finishing her exams, but winds up helping him test his latest edible product.

"The Stranger" by Tamsin Flowers is a sizzling story about a virile stranger who comes to town bearing sinful chocolates to tempt the ladies.

There are other delicious morsels by Dario Dalla Lasta, Malin James, Jacob Louder, Exhibit A, and Annabeth Leong that will surely appeal to many erotica connoisseurs, so get Chemical [se]X and delve into the rich, chocolaty love.

having finished the anthology...wow! I was 'blown' away and hooked after the first couple of stories: chemical [se]X and du(X) made everything in my body tingle! I did get a little bored about 60% into the book - same premise, different fuck buddies. But then I nearly choked on my coffee reading "Coffee Break," Oleander Plume's second story in the anthology. Holyfuckdamnhot pansexual hotness! I felt my boner was as large as Ryan's while reading about it! Now to find a similar group for a similar experience!

This is definitely recommended to anyone looking for a hot HOT read of a variety of sexual pleasures. Well done to all the authors. Thanks to Oleander for putting together an amazing anthology. I don't know how I'm going to be able to put out the fire in my man pussy after reading this! Any volunteers? ;-)
