Collects Guardians of the Galaxy Telltale Games #1-5.

An all-new prequel to the interactive episodic game MARVEL'S GUARDIANS OF THE GALAXY: THE TELLTALE SERIES! Cultists have taken over Saturn's moon Titan, turning it into a proverbial hive of scum and villainy — all worshipping Titan's most infamous native son, the cosmic tyrant Thanos! Luckily for the Guardians of the Galaxy, it's also the target of their newest heist! Hired by a mysterious buyer, our band of ragtag misfits must get in and get out without being sliced and diced by a planet full of crazies. But what could send Star-Lord, Drax, Gamora, Rocket and Groot on to the gladiator pits of Sakaar? Join the Guardians, Yondu and the Ravagers in an action-packed, laugh-filled adventure — created in conjunction with Telltale — that leads directly into the new smash-hit game!

## From Reader Review Guardians of the Galaxy: Telltale Games for online ebook

### Cale says

This prequel to the Telltale series does a good job of reflecting the style of the game even as it serves as a non-spoiler prequel to it. Peter Quill is not doing a great job of leading the Guardians, and instead stumbles through a series of encounters that ultimately put the Guardians face to face with Thanos. There are some off-the-wall cameos and fun action scenes and a number of funny quips throughout. The story seems to meander, but manages to pull its threads back together at the end in an effective final action sequence. I loved Groot's stealth mission moment and aftermath. It's ultimately a pretty inconsequential story, but an enjoyable enough adventure that does make me curious to play the game.

### Chris says

*What's it going to be Chris...a positive review or a negative one?*

\*The time bar beings to deplete, but this is an easy question.\*

My choice? A positive three stars.

*Goodreads will remember that...*

I really enjoyed Telltale Games recent Guardians of the Galaxy series and this graphic novel prequel is a worthy addition to their canon. Writer Fred Van Lente wisely channels the humour of the game and I was able to read the Guardians in the voices of the excellent cast. It's also nice to see that Van Lente's done some research on the game he's written about, making use of new characters and locations while keeping the narrative intact.

Salva Espin's artwork is solid, although he has more of a knack for drawing trees (I Am Groot!) and animals than he does human characters. Similarly, Jim Campbell's colour work is solid, if unspectacular. Still, the art is never less than serviceable and aside from a few minor typos, the writing shines through.

With plenty of laughs, a decent story and some fun Telltale references, Telltale Games is definitely worth reading if you enjoyed the Telltale game. Check it out.
