### Sweet Seduction Sabotage Nicola Claire

*"I crave to be near you, Kelly. And I have since I first laid eyes on you in Sweet Seduction's store. I can't explain it any other way. I was drawn to you, like the gravity of the sun. I didn't want to fight it, I wanted to, even if only briefly, say it was mine."*

Kelly Quayle has always been a good time girl, finding her thrills wherever and whenever she could. But the reality of her lifestyle hits her hard one morning, when she wakes up in a stranger's bed. With no recollection of how she got there or what happened when she did, she decides a shake up of her life is in order. But cutting ties with the five guys she regularly sees is harder than she thought.

Especially one.

Lately Drew Kline has been turning up in all the most unexpected places. Namely, on each of Kelly's dates. Somehow he manages to waylay her; grab her attention and steal her away for himself. Or maybe, she just lets him. In any event, he's sabotaging her style. But with a posse of men to be rid of, and the mess that has become her life, Kelly must first hit rock bottom, before she can even attempt to see the light in Drew's eyes.

Ex-lovers who would rather use their fists instead of words, thrills and excitement, illicit hook-ups, heartbroken friends and a man who can't help but try to reach inside and save those parts of her he sees shine. It all makes for a turbulent time. And just when Kelly thinks she's made it out the other side, another saboteur enters her life. Will Kelly let Drew save her? Or will she revert to her old ways? Or will they even get a chance to find out?

**Love at first sight has never been so dangerous and so very delicious at the same time.**

3 1/2 stars. This one is a little weird for me. I am a big fan of this series--mostly because I love romantic suspense type books. I am not really sure how this one fits in with the rest of the series. This one seemed to be two different books in one. The first almost 60% was the story about a woman having a "hallelujah" moment, and trying to change what she considers an empty way of living, and a man who is trying to show her how incredible she is. It was a sweet love story of learning self worth--combined with totally hot--and I mean HOT--intimate scenes complete with voyeurism. This was pretty much the entire first 60%, with not much more happening.

The second part of the book was like something out of a Bruce Willis movie. I guess I was looking for action and suspense--well I got it. Pretty much nothing else to say about it his part.

Even though I thought it was confusing, I did enjoy it. I like this author's writing style, and I enjoyed visiting with the characters from the previous books. I think I may have enjoyed it more as a stand alone, and not part of this series. I guess if the author is trying to keep the series fresh, and not rely on the same type of plot, I think she succeeded. It just wasn't what I was expecting.

4.5 stars!

WOW!

Kelly & Drew's story was AMAZING!

I'm so glad Kelly found her *rainbow of colors* and didn't end up staying in *black*.  
Drew.. YOU ROCK!!

I've been so fortunate to have been able to read this series from book 1 to 6 one after the other because the characters have stayed 'fresh', and the story-line interesting and intriguing.

So.. now I have to wait (imagine that) for book 7, which is Eric's story. (YAY!!)  
Thank God it's only going to be a couple of weeks because I have a tenancy to get caught up in other stories/series, and get side-tracked into continuing with a series I've grown to love.

YUM!

"Not fucked. Not had hard and fast sex. But slow and long and tender love. Hot and sweaty and totally involved. Body, mind, heart and soul. You feel it inside your chest. You feel it inside your head. Your body craves the next sweet caress, your nerves tingle, your breath rushes in eager puffs of air. You're wet, but not because it's naughty or dangerous, but because you can't help wanting to connect with that person, to share a part of yourself, to let them in and let them take you to some place you can only ever dream about when on your own. Some place mystical and magical. Some place safe, but so exquisitely exciting that you can't even believe that it's real. But it is. It so fucking is."

"I'll help you pack, sternchen. And I promise you as much colour as you can handle every single day for the rest of our lives."

REVIEW LATER! ??? ? !

Book 6 Drew And Kelly... I have enjoyed the previous books with Kelly's fun factor. In the beginning of this book, I had a slight problem with her use of sex with so many different partners. Thank goodness Drew comes along. Drew is Dom's best friend and his law partner. He fell for Kelly at first sight. She was too busy using men to really notice him. The first half of the book gives us the background needed to understand Kelly. We see their relationship develop. The last part of the book has the action and suspense that we are used to in this series. Again I love that we get to revisit characters from this series. No cliffhanger.

Love this series and this book was just what I come to love with this author. Kelly which we know is Gen's

---

best friend and works at the coffee shop with her is the focus. The first part was a bit slow, not a bad thing but not what I have come to expect with this series. Kelly is doing some reevaluating of her life and what she wants out of it. Drew is Dom's best friend and one of the other lawyers in the firm. He isn't what I would say is an alpha male but he is protective of Kelly. He became part of her group of men but when she started to make changes he refused to be let go. I really liked how he told her he wanted her. There banter back and forth about the colours of the rainbow at times got to be a bit much for me but over all it was good. Then you get to second half of the book.

(view spoiler) I love this series and would say to everyone if you like your males hot, protective and demanding this series is for you. I'm really liking that it's set in New Zealand, so nice to see one that not in the states, not that I have a problem with that but it's nice to see somewhere different. ★★★★★

This was another great addition to the series, even if the author changed up the formula a bit, which I enjoyed. Most of the story follows Kelly as she evaluates the life she's led for the past 15 years, how she wants to move forward and make big changes towards a brighter future. And one of those things she does is cancel all of her standing dates with 5 men. Of course, one man doesn't want to let her go, he's been secretly sabotaging her dates for the past several months, but she's been letting him. Drew is a force to be reckoned with, he doesn't let Kelly hide or become depressed. He works hard to give her sunshine and love, but also hot, voyeuristic interactions he knows she needs. And, we can't forget the suspense part of the story, I was on the edge of my seat, waiting to see what happened. I may have had to put my Kindle down during one part, so I didn't lose it and embarrass myself. But, Nicola gave me a wonderful HEA and epilogue to make up for the heartache.

The sixth book in the *Sweet Seduction* series by Nicola Claire. Kelly Quayle, who we met in previous books, wakes up in the bed of a stranger and it has her reevaluating her life. First off is letting her stable of men go. There are five. And one of the five is Drew Kline. He doesn't want to be let go and does what he needs to convince her he needs to stay.

The first half gets about 2 stars. I actually got bored with all the sex (gasp!). But a situation pops up in the latter half that raises the star level back up to about 4 stars. So I will average it out to 3 stars. I have actually liked Kelly in the previous books. She was fun loving and caring. The "stable" issue did bug me. The idea that she keeps 5 men available to her when her needs arise made me cringe but I am willing to overlook that kind of thing for the sake of the story. I love Drew. I will admit to wondering how he could overlook the stable thing with Kelly. But I guess he had to in order to get her.

Nevertheless, I love this series and will still recommend it.

3.5 but I didn't round up as I didn't enjoy this book as much as others in the series. I think it was because of the time scale the book is set over (half the novel is set over an 8 - 12 hour period).

I was expecting so much more from Kelly's story as I think she could have been a far more interesting character with more complexities than were shown in the story. Also the other characters from the series could have been used more to develop the tale and I just don't think they were utilised as effectively as in previous titles.

The hero though was typical alpha aka hot. He had an intriguing back story but again I think it was just touched upon and could have been a lot more insightful and would have added more depth to the tale.

I get the theme of colours and whatnot in the story but mentions of red this and green that just got a little annoying (may just be me) but I did like the other symbolism of stars, sun and light.

That being said it was solid writing as I have come to expect from NC and was a good read, if not riveting. Will definitely read more by this author and future titles in this series.

We met Kelly in book one and finally in book six, *Sweet Seduction Sabotage*, we get her story. Not only was this book emotionally intense, but it was also edge-of-my-seat intense for danger, as well. I expected Kelly to have a story, but the story we got broke my heart for the sweet, vivacious best friend we've gotten to know, and coupled with the danger, they blew me away.

### Summary:

Kelly Quayle has always been the one to call when having a good time is on the brain. She's the life of the party and thrives on finding hits of adrenaline whenever and wherever she can, including with the five guys he maintains on her hook. But, the reason Kelly lives this way is dark and heartbreaking. When Kelly wakes up one morning in a stranger's bed with no memory of how she got there, she's forced to face the lifestyle she lives and those demons she's carried for fifteen years. Panic and fear at what she's let herself become motivates her to reevaluate her life and the people in it. When Kelly was thirteen events beyond her control caused her to spiral into the darkness and she found herself shrouded in black. Always having that black on the edges of her life, sent her down the road she finds herself, and she realizes she must start with a clean slate and find out who she really is. To do this, she must get rid of the five guys she uses as companions when needed. Knowing this won't be easy because she does care for them (she just doesn't let them get too close), Kelly sets out jumpstart her life as a new Kelly. What Kelly never anticipated was the interference and her allowing it, of one of her five who may have become closer than the others despite their very brief trysts. Drew Kline is Gen's man Dom's business partner and best friend. Kelly was immediately attracted to him upon meeting him, but never thought she'd do it for him, too. That all changed when both attended a weekly BBQ at Gen and Dom's and Drew approached Kelly with a proposition she couldn't refuse. Although Drew is one of five, Kelly has kept him secret from her closest friends, and Drew has made a point of showing up wherever Kelly is, even if she's on a date. Not being able to help herself, Kelly allows him to sabotage her dates because he gives her a red so bright and fiery that it can't help but push that black further away. Kelly also knows Drew will be the hardest of her five to cut ties with. Again, Kelly didn't anticipate Drew not letting her go and when one of her five prefers his fists to words, Drew will determine and demand to be the one to help save her from herself and her past. Stunned, Kelly isn't sure of this plan as she has never been in an exclusive relationship before, but Drew paints a picture with rainbow colors and she can't fight the yearning for that life. Embarking on a relationship with Drew is scary and panic-inducing and necessitates Kelly telling Drew about her whole past. About her dad leaving, her mom becoming a shell of her former self, and about her dad kicking her when she was down. It all worked to make her the person she is today, good and bad. But that's it, there are good parts to Kelly that has inspired the love of Gen and a whole slew of people, but the bad parts are what need to be culled before they drag her completely under or force out all

the good. Drew can help. He brings rainbow colors, bright and vivid, into Kelly's life. Embracing it strikes fear in Kelly, but it also wakes her up to the fact that it's something she wants, especially after seeing the relationships all her friends are part of. With a plan and feeling content, a feeling Kelly hasn't felt in a long time, Drew and Kelly proceed, but just when they both found what they never knew they were looking for, a threat from the Sweet Seduction crew's past comes back and wreaks havoc. When Kelly and Drew find themselves locked away in the locked down District Court building with an evil drug lord and too many mercenary soldiers, they will need to call on a strength and love they never they could feel to survive. Finding a way out without being caught is priority, but finding Dom who's been taken hostage is also on the list. With nothing for it, Drew and Kelly will take their lives in their hands and risk everything in the name of love, friendship, and loyalty. Both will learn the true meaning of all of those and so much more while facing an evil who doesn't care what he has to do to remove those that stand in his way.

Like I've said in previous reviews, I've loved Kelly from the first. I was drawn by her vivacious energy, loyalty, and all around bubbly personality. After reading the blurb, I was aware that all was not right in Kelly's world and that she put on a facade, but I wasn't prepared for the heart wrenching past she let us be privy to. My heart broke for her, and I was ecstatic that she found Drew to help her through it. Drew was an altogether different alpha from Nicola's previous heroes. He was indeed alpha, but more in an adorkable way. Lol. He was strong and brave and demanding, but hopelessly inadequate in the face of a building siege. Yes, him and Kelly did their part, but with any other hero we've seen, including Dom, we probably would have seen them taking out mercs one by one. I loved that he was this way. He was everything I'd want in a possessive alpha, but with a sweet sensitive side. Together, him and Kelly were exquisite. Drew could give her everything she's ever been looking for, but in a more controlled and healthy way. I loved it. We got peeks at our other couples, including a wedding, and the conclusion to a storyline that started in Sacrifice but peaked in Surrender. Overall, I truly loved Kelly's story just like I knew I would, but it still doesn't beat Ben and Abi. Next up is Eric from ASI followed by Adam (my loving stalker). I can't wait to see what these men bring to the table and what surprises Nicola has in store for us. <3

Holy Hot Lawyer Batman! I had no idea Drew was gonna be such a naughty man! :D I have loved every book in this series since I first stumbled upon Sweet Seduction Sacrifice! And of course, I loved this one too! That being said, I felt Sabotage had a more emotional tone to it for the first 60% or so. Kelly broke my heart and I just wanted her to find her way out of the darkness she found herself sliding into. Through the other books, I have been quite curious about her and her wild lifestyle. I could just tell she had a lot more going on than she let the people around her see. As for Drew, to be honest I never really gave him much thought. Probably because he hadn't had a starring role yet. I am so glad I got to get to know him better and see what an amazing guy he is! I loved how deeply he cared for Kelly and how he was devious enough to maneuver the relationship they shared to his liking! ;) Their sexy times were freaking hot! And just around the time I was wondering if there would be an action of the blow-em-up variety, and getting a little antsy for it (60% ish) all hell broke loose! From then on it was non stop and I couldn't tear my eyes away from my kindle! Seriously, I was even up way past my bedtime to finish! And I have to say, Ms. Claire even threw in a little twist that had me scared to death near the end. I wasn't sure if it was all a joke or if it were real. I won't say more on that as it will spoil, but she did an amazing job keeping the suspense going! This is definitely one of my top favorite series, and I can't wait to read Eric's book next. And of course, I'll be (im)patiently waiting for Adam's book to finally come out hopefully soon!!! :D (hint hint ;))

Just WOW. So so many emotions in this book. I was more than half way through and thought "there hasn't been any action" and boy do I wish I hadn't thought those words because Nicola Claire sure delivered action.

Loved Drew Kline and all the other fine ASI men. But I did have MAJOR Dom feels in this one.

Finally Kelly's story!!! Once I started I didn't want to put this one down. My only problem is I didn't want this book to end. I think Drew may be my favorite alpha so far in this series. I loved him from beginning to end. Perfect in every way. Ofcourse I loved all the supporting chacters and what they brought to the story and I must say the sex was out of this world. I have enjoyed the entire series thus far and would recommend this one to anyone who loves a little suspense, some action and tons of hot sexy scenes. A complete story that will leave you wanting more.
