A Court of Fire and Metal: an RH Fantasy Romance Meg Xuemei X

The four mighty, smoking-hot warriors had wanted to use Cass Saélihn as the weapon to kill the Olympian gods, but they fell for her instead.

Now all they want is to protect her. So they hide Cass in the magically glamoured Academy, the only safe place for earthlings.

But Cass won't cower or run from danger. She sets her own rules and stands her ground, no matter how her blood heats for her alpha mates. She's determined to take the fight to the gods, not as a weapon but a leader.

Yet an all-powerful, beautiful, cruel god is already among them, much closer than she and her four mates can imagine. He covets Cass and her power more than anything, and when the god strikes, he leaves nothing to chance.

Warning: This is a full-length reverse harem fantasy/paranormal romance that features one hell of strong woman and her four powerful supernatural mates. It contains brutal battles, explicit love scenes, raw language, magic, swordfights, Greek gods, dark fae, vampires, shifters, and a lot of assholes.

Now that Cass is establishing her role with her mates, there's even more responsibility resting on her shoulders. She's got to learn more about what she is, figure out how to activate her latent powers, and how to become or avoid becoming the weapon that everyone so desperately wants her to be.

Cass and her men find themselves looking for anywhere they can stay and train Cass while keeping her safe from the Gods who would love nothing more than to eliminate her. Although they try Lorcan's court, things don't work out quite as they wished. For me, the betrayal was easy to predict, especially after their experience in the first book. It served its purpose since it helps to push them to the next location, but I just wasn't much surprised.

After they find their way to the Academy, they're being challenged from different fronts. Cass needs to figure out how to smooth her way, socially, when she's never had much experience fitting in with those around her. Does she try to tame who she is? Would she even want to? Which Cass is the one that her mates will love?

Not only that, but there are others who are desperate to test Cass's magic even if it might come with deadly results.

We get a few new characters who have the potential to make a big splash in the series- including Amber, a human soothsayer who's drawn to Cass and seems particularly attuned to her.

My big pet peeve is that Cass seems to be developing, but I'm not feeling so confident about the men. Cass is learning; the change may be a bit slow, but she's starting to mature and show more thought/care about how she deals with others. The men are staying the same. This isn't all bad; they're still loyal, loving, protective, and supportive. However, they're feeling a bit in the background when I'd really love to see more aspects of their personalities and histories emerge. I feel like I still don't know much about each of them, and I'd love to see some distinct relationship dynamics develop between the men and Cass so they each take on their own unique role in my mind.

Overall, I still find the story engaging, and I enjoyed reading A Court of Fire and Metal. There's progress in the storyline, and we are definitely moving forward with learning more about what Cass is capable of. I'd definitely give book three a try, especially since the series is available on KU!

If you enjoy paranormal romances and reverse harems, you want to check out this series.

Cass is a really intriguing character. She has faced so much since being released from her prison. Cass really wants to enjoy her freedom and the sexy men who have claimed her heart and body. She also wants to learn about her abilities and who she really is destined to be.

I really enjoy her interactions with others. She is a free spirit and says what she thinks. Her introduction to the students at the school was highly entertaining. When she sees something wrong, she is fierce about

correcting the issue. I loved how she dealt with bullying. She takes no prisoners.

Her relationships with her men are growing stronger. She likes to test their limits and it leads to some really hot scenes. I am looking forward to seeing those relationships continue to grow. They each really love her and want to protect her but each have a different idea how to achieve that goal.

I read a lot of reverse harems. This author has written many great ones and you won;t go wrong checking them out too. She really creates some fun characters and definitely knows how to build the heat among the characters.

I am voluntarily reviewing a copy I received.

While I didn't enjoy this one as much as I did the first one, it was still good.

In the second book of the War of the Gods series, we pick up right where we left off. Cass is needed to wake her vampire mate from his slumber. Train to become the ultimate weapon, eventually destroying the Gods out to destroy them.

We learn a little more about Cass' background in this story.
Which God sired her.
More bad stuff happens.
But she does solidify her bond with all four mates.
There are some pretty steamy scenes in this one! :)

Cass seemed a little harder for me to like in this one.
Her attitude and dependence was a hard pill to swallow.
While in the first book, I understood where she was coming from, I thought after everything that happened at the club, she would reign in her need to make all the decisions.
She does "compromise" sometimes, but I don't think it was enough.
I'm not saying she needs to cower away and let the guys run her life, but she does need to realize they have MILLENIUMS of years on their side.

This story ends in a cliffhanger.
A pretty crazy one at that!
I'm excited to see what will happen in the next book.

Overall, I enjoyed it and I would recommend it.

Much, *much* better.

Yes, Cass, THANK YOU FOR ADMITTING ALL OF YOUR FLAWS.

She may be immature and annoying, but she admits it. I respect that.

I still don't like her.

But I love this series.

The ending SUCKED.

I hate cliffhangers.

BUT my predictions were all correct, which made me happy.

My review of the men:

Pyrder: helllll yesssss.

Lorcan: he's like the father of the group but goes by daddy.

Reysalor: still think I'm saying his name wrong but he's my fave.

Alaric: I'll have all of your children in Australia.

The fact that book 3 comes out in November makes me hella excited.

Tiera McMillian says

Dang it!! I am so on the fence. The story itself is really interesting and entertaining but that FMC. I can barely stand her attitude lol. She is so incredibly hostile and I feel like everyone has to treat her with kid gloves or else she just explodes everywhere. Instead of coming across like a BAD A, really she is just mean, and like a ticking time bomb of rage. Even I am a little intimidated by her. I for the life of me cannot fathom how these 4 delicious men have fallen for this girl she barely has any redeeming qualities other than her knack for pissing every one in a 10 mile radius off almost immediately after meeting her.

Other than our FMC's most obvious attitude problems. We are on the run, hiding in one court after the next trying to buy time for Cass to train to be the weapon she was meant to be. I have to admit that some of the dialogue made me giggle for sure. After a disaster in the "Blood Court" they head to the Academy to begin Cass in classes, but of course 5 mins after she gets there she behaves just like her normal self and turns the school into a big crapshow. Her lack of responsibility and inability to keep a train of thought were quite irritating at times.

I know, I know if I dislike the heroine so much then why do I keep reading?! I DONT KNOW! Despite not liking her I still liked the book.... I am so confused! I feel like I dont even know myself anymore lol!

Arghhh, DNF

39%...I don't remember mc being so horrible in bk 1. Maybe overlooked it due to trauma. Anyway, she was beyond obnoxious! The nicknames for her sucked too. 70's disco lizard, "Cass baby". Smarmy. The fact her harem accepted her ridiculous behavior was perplexing. Liked story plot, just tweak it...age of consent, 18 at least, would be a good start.

Lillium says

After reading the first book I wanted to give this series a chance.

I hoped to see some evolution on the heroine's character. In the first book I could understand her behavior because of the cage, although I personally think it's not well done as I did not feel a lot of empathy for her situation.

This second book ... I found her petulant, self-absorbed and generally unlikable. I guess the author was trying for snarky and funny in a way, but for me she did not come through as any of that. She behaved like an odious brat, and even her four man-candy were becoming tedious with their ass-kissing dispositions.

I liked the sotoryline, the relationship developement, the world building... and I would have liked the characters if they had fullfilled their potential ... but when I began disliking them I just could not enjoy anything.

I will not be reading the next one. Such a shame, because this book could have been one of my favorites in this RH genre!

Alaina says

Okay, it's getting a bit better.

A Court of Fire and Metal is the second installment of the *War of the Gods* series. In it, you will have moments where Cass is a bad ass or likable.. but then she kind of just ends up frustrating me a bit. Here or there.. but I just, ugh, don't get it! I like her and her mates.. but it was ugh.

I did, however, enjoy the smut! Mostly because then Cass wasn't annoying the shit out of me. I did, also, really like her powers because they intrigue me. Especially when she was using her powers to be a freaking bad ass and to show people to not underestimate her. Of course, they still did.. but oh well.

Other than that, the ending was a bit dramatic. Maybe it's just me.. but hot damn, I just didn't like it!

Sarah says

So, most likely I'll read the installment that comes out next month (as we're one day away from "next month"), but I do hope it's the final wrap up because there are some serious problems with the series that will only get worse. The characters are interesting enough (though I tire of Cass constantly reverting back to a petulant little brat) and the main plot is something I'd like to see through, even though by the end of the second book, I feel like a lot more should have been revealed.

However, the sex scenes are bad. Really bad. As in, I found myself physically cringing. I didn't pick up this book for the erotica aspect and I'm thankful for that. The sex scenes do not flow into the writing. They read as if written by another person, one who is very, very young and inexperienced and cut into the story at the last minute. The transition is jarring and the scenes sound like a young teenager is trying really hard to be scandalous, dirty, and provocative. It goes from mildly entertaining, to ridiculous, to downright laughable. By the last one, which should have been the steamiest, I found myself rolling my eyes and snorting at just how absolutely *terribly* it was written. So, so bad.

In short, interesting plot and characters. Terrible, horrible, no good, very bad sex scenes. The words "fuck" and "pussy" do not a sex scene make, no matter how many times they're repeated.

Cass and her mates travel to the Academy to hide from the Olympian Gods. While Cass learns what powers she has and how to use them, she also manages to stir up a lot of trouble at the school. She also makes a new friend and completes the bond with all her mates. However, there is a traitor at the school who has designs on obtaining Cass for himself.

I'm not sure if Cass is growing on me or if I am just getting used to her bratty character but I found her a tad less annoying at the end of this book. The plot progressed a little, most of it was just her playing with her powers and playing with her mates. There was plenty of smut, but it was only average in quality - so I'm giving it a 3 out of 5.

Jennymort ? Dark Lordette says

what a fuckin joke.

Cortnie says

This book is everything I expected and more! Cass is such a fabulous character. She is a walking contradiction, and I love her for it. One moment she is mature beyond her years, and the next she is like a spoiled teenager. She is stubborn and demanding, and then she turns around and surprises you with her generosity. She is exactly how I imagine someone who had been kept locked up for years would be. She wants to experience everything right now, and then worries about the future. Her relationships with her men are progressing at a perfect pace and I love that each of them appeal to a different part of her personality. They have figured out that she won't be bossed around and she isn't afraid to remind them of that fact when they forget. They mostly just sit back and let her do her thing, which leads to many humorous moments. There are also moments of steamy passion, danger and excitement, and lots of eating. Cass is learning more and more about her powers. She is making new friends, and new enemies, and discovering that things aren't exactly how she thought they were. After reading this one, I'm left with more questions than answers. Who can Cass trust? Who isn't being totally honest? What powers has she still not discovered? Who will stand with her and who will be against in this battle for the world? And the most pressing question, will anyone ever stand between her and her cake? Inquiring minds want to know! I can't wait for the next one and I think EVERYONE should read this book!

Jordan says

A Court of Fire and Metal, book 2 in the War of the Gods series, is even better than the first! This series is definitely one of my new favorites as Cass's story just gets more complex and exciting with every new page I read.

Cass is really growing into herself. She is no longer the girl locked in a cage by her abusive mother but a woman surrounded by four overprotective men who want her to save the world. She goes to the academy to learn how to use her powers at the place where everyone who wants to fight against the gods is learning and training. The academy is home to supernaturals and humans alike and Cass gets a chance to make a friend, as well as some new enemies. But someone at the academy is not who they say they are, which might just be disastrous for Cass.

Cass and the guys really get to know each other better in this book. From the beginning, their fated bond has drawn them together, but this book shows them getting closer emotionally and really growing their relationship past the physical.... but there is definitely still lots of steam.

This book ends in a tough place for Cass. This is quite the cliffhanger and if I wasn't so in love with this story I'd probably be upset lol. Seriously desperate for book 3 now, I can't wait!

Omfg

Meg Xuemei never ceases to amaze me with her imagination and spellbinding storytelling, I love her series and can't get enough ?

Raj says

I liked that the heroine Cass was able to siphon off the energy of the Gods like a psychic vampire and that's about all I liked so it was a good thing that she was constantly eating God energy. Now if she would only stay away from cakes.
