Chasing Lacie Jenny Penn

#404 [Siren Menage Everlasting: Erotic Paranormal Menage a Trois Romance, M/F/M, werewolves, bondage, sex toys]

Everybody knows lycan mates are pampered and indulged, which is just why Lacie Chandler sometimes fantasizes about being matched to one of the large, rough men. None of her dreams, though, ever included being hunted, caught and bound to two determined males. That's just the kind of seduction Chance and Davis have been plotting for years.

With the threat of a demon lurking in the shadows, Chance and Davis are free to shrug off tradition and give into their more primitive desires. They only have one day to convince Lacie to do things their way or their dreams could all turn to nightmares. The only problem is chasing Lacie down turns out to be a lot harder than either man planned.

** A Siren Erotic Romance

ONE LINE REVIEW

I've actually started and failed to finish this book sooooo many times - no idea why, as it's fairly good, particularly the banter between the characters.

[Blog] - [Bookstagram]

Emily says

Number four in the Sea Island Wolves, with a threat brewing to all female mates and order is sent out to protect them pairing them with their intended mates. Chance and Davis have been waiting for years to claim Lacie, expecting total acceptance to their ways, only to find that Lacie pushes the buttons and has a hard time with following their rules.

I was disapointed in this one, it did not follow the previous three and frankly did not like any of the characters. Chase and Davis are caveman who never really soften in the story. Big Jenny Penn fan but this one did not work for me.

Sarah says

So the first book in the series was good, the second wasn't as good but still up there. I skipped the third in favor of this one, the fourth, and well it all goes down hill from here! NOTHING HAPPENS in this book, NOTHING! It spans over a day maybe 2 days TOPS! They lure her out into a field, they "mate" with her and then some other stuff happens, just so the author can say that she had a real plot or something (which she DOESN'T, so I'm not sure why she tired) and then they "mate" with her some more. So yeah what we have here is a bit of my life that I will never get back and a whole lot of PWP.

Doris says

very good

Judith says

Another fun paranormal read from Jenny Penn in her SeaWolves series. As always we find a resistant mate along with pushy, unrelenting lycan mates . There is a bit less adversarial stuff in this book--I get kind of weary of everyone fighting and threatening all the time. But Penn is such a good writer and the action of the

story and characters just carries the reader along. With the nature of the ending I just have to believe that there are more to come in the future. A really fun and noteworthy read.

Timeforme says

Main Characters:

Lacie Chandler - A human woman raised among werewolves

Chance - Alpha werewolf who is one of the pair that claim Lacie

Davis - Beta werewolf who is the second part of the pair claiming Lacie

Synopsis:

Everybody knows lycan mates are pampered and indulged, which is just why Lacie Chandler sometimes fantasizes about being matched to one of the large, rough men. None of her dreams, though, ever included being hunted, caught and bound to two determined males. That's just the kind of seduction Chance and Davis have been plotting for years.

With the threat of a demon lurking in the shadows, Chance and Davis are free to shrug off tradition and give into their more primitive desires. They only have one day to convince Lacie to do things their way or their dreams could all turn to nightmares. The only problem is chasing Lacie down turns out to be a lot harder than either man planned.

My Thoughts:

I was surprised at the negative comments in other people's reviews regarding Chance and Davis. I found them to be a lot less objectionable than JD and Caleb or Jakob and Kort. In fact, I like both the men, even with their overbearing attitudes. Lacie was also an interesting character. She was well aware of werewolf culture and behaviors so nothing that happened was a surprise or unwelcome by her (which I suspect is part of the reason I liked Chance and Davis better than the other men I just mentioned).

The story line was okay although a bit lacking in plot direction. I will be interested to see where the author finally ends up with the demon threats that keep popping up in most of the books.

Dar says

I'm glad I went with my instinct and not some of the other reviews, I thought this book was really good - you can tell it is setting up more of a story, but it does continue on with how Claiming Kristen ended, with the list and the Lycan mates being threatened

It isn't quite the same as the other Jenny Penn books, but all her books are a little different, because who honestly wants to read the same book with different characters

This book had me hooked at the end, as all the other Sea Island books did at the end, and I can't wait for the next one!

Jill says

God, I can't believe I am saying this because I have loved all Jenny Penn books, but I did not like this book. The two mates chance and Davies were awful. At the beginning if i were lucie I would of kicked both of

them in the nuts. They were really, really horrible and they didn't get much better throughout the book. Also this read more as a bridging book. It was the first one away from all the regular characters in the previous books of the series and i admit I got a little lost as to where the whole story was going. I was thinking the next one would of involved Tex and Cal, but alas we got dumped with strangers. A new lycan clan, that seem to treat there mates horribly if chance and Davies are anything to go by. Yeah,this book just didn't do anything for me.

Charlotte Smith says

This one was a little confusing, seemed a mite tacked on...hopefully Ms Penn weaves her magic with the next in the series!
