Jacqueline says

First biscuits owner finds biscuits ball then she says here biscuit look what I have then biscuit says woof woof then his owner throws the ball then biscuit rolls over on his dog toy and the last time biscuit's owner throws the ball it lands in the mud then biscuit fetches the ball and runs into the mud to get it and he gets the ball and runs out of the mud to his owner.

Brooklyn Shaffer says

This book was sweet because it was about a dog who learned something new. The illustrations were well thought out.

Margaret Chind says

This Biscuit reader is great. We often read Olivier Dunrea's Peedie that slides in the mud so being able to see Biscuit slide in the mud in his effort to master his new trick or skill brought out much animation from my daughter. Biscuit brings smiles to us all.

This is the third story included in the Biscuit Storybook Collection and a My First I Can Read! selection.

Skyler McSheehy says

Picturebook. A cute story about how a young girl tries to get her dog to learn a new trick. The dog often gets distracted by other things outside (his bone and a cat). The dog finally learns the new trick of fetching the ball when it goes in the mud.

Jenna Arntz says

This was a good story about a puppy learning how to play fetch with his new ball. This would be a good book for someone to read when they are just learning. The story is written in a very simple way with words that easy to sound out and pronounce. I think the students would like this story because of the puppy as the main character and the illustrations.

Carolyn Jeziorski says

Another cute book about Biscuit. These are very popular with young kids as a read aloud in the library, and beginner readers enjoy them, too. Here' Biscuit has total puppy brain as the little girl tries to teach him to fetch.

Meg McGregor says

Biscuit is one of the literary world's cutest puppies!

In this adventure his loving owner teaches him how to play fetch with a multi-color ball!

And of course, being Biscuit, he always has time to make new friends and get into some mischief, like getting the ball out of a muddy mud puddle!

I have been reading this series of books to more than 15 different little ones in my care and I still enjoy reading them every time.

Megan says

Biscuit learns to fetch a ball in this simple reader. I wish the words "Woof, woof" had been put in italics or somehow differentiated from the other text because otherwise it appears as if Biscuit's owner is saying, "Woof, woof," along with everything else she tells Biscuit. Maybe she is?

Anna Marie says

A little girl is trying to teach Biscuit, her puppy, to fetch a ball. It doesn't work until the ball lands in the mud then Biscuit fetches it. The puppy's barking isn't separated from what the girl says, so there is some confusion there. Otherwise, a nice first grade reader.

Madison Ruth says

Popular choice for AR, read it to my students

Victoria says

So the book I would read to my future child is Biscuits new trick because I loved that book when I was a kid and I think my future child would like it to if I read it to them. Biscuit learned a new trick with his ball.

Pam ?Because Someone Must Be a Thorn? Tee says

BISCUIT'S NEW TRICK is at the beginning First Grade reading level. There 122 words on 32 pages presented in a LARGE font.

~borrowed from the Library

This story is about how Biscuit learned to fetch, and I have to say that I chuckled outloud when I read it. (I won't say more because in this case, there's something to actually give away.)

Besides being a practice reader you can use this book to introduce the notion of training and what's involved. Obviously the book doesn't go into any detail but it does show that learning isn't spontaneous and it's something that trainer and trainee need to patiently practice.

Estimate grade level of interest: K-2

Estimate reading level: K-1

Brief Description: Biscuit learns (eventually) to fetch the ball.

An easy reader book has easy to read words which repeat often. In Biscuit's New Trick, there are a few lines in large print on each page and cute pictures of a little girl and puppy and cat on each page.

The book has an engaging story

Katharine Coggeshall says

All of my kids enjoyed this book when they were little. It's fun and quick, easy to follow, and it held their attention. It is a very nice series that I would highly recommend.

Arwen says

The little girl is trying to teach Biscuit how to fetch a ball. Of course the puppy doesn't understand the first few tries. Adorable as ever and a great read for 2,3 or even 4 years olds, and a good read alone for 5 and 6 year olds.
