From Reader Review Surrender Boxed Set for online ebook

Kristie says

I can't even pretend to like it. DNF @ 40%. Not entirely sure how I made it this far.

Pamijo Perkins says

I couldn't put this down. Every free moment I was bound to the Kindle. Had me day dreaming. Badly! Working in a hardware, store selling all the rope, chains, hooks, clasps, etc..., kept me on my toes! OH, my imagination! Bet those customers wondered what my blushed face and grin came from. A Great Read. Warning: Lots of unadulterated sex, pain, pleasure, and controlling freaks!

Marcela Garcia says

Oh My! This book does have something for everyone...it all depends on your mood ;)

You need to read this with a very open mind, putting aside all the different fetishes, there were a couple of love stories that were good...you ended up rooting for them

Ruthie Taylor says

I have just devoured this collection of BDSM stories all based around one Club franchise called Surrender. There are a variety of tales to appeal to anyone's taste - I enjoyed them all. They were all well written, and although some characters travelled across stories, each was good as a standalone. I enjoyed the bonus extras at the end of each story. Set aside plenty of time, or you might miss out on sleep!

D says

Not even close to finishing this set. Suspension of disbelief can only take you so far. Unbelievable situations and reactions with sub par sexual scenes/bdsm situations. No dominant would ever call his sub mistress.

I will give some of the other sections a try but I am not holding my breath!

Angie ~aka Reading Machine~ says

Surrender Boxed Set is unique collection of BDSM stories told from many view points. The main object of this set is surrender complete and total. Femdom, Doms, Submissives, Gay couples, and menage are all depicted in this box set. The stories center around Surrender Inc and it's franchises. Many of these stories leave you hot under the collar and seeking your partner for some playtime of your own. Everything is

tasteful, unique, creative, and steamy. I found myself rooting for many of the couples to get their happy ending. I highly recommend this boxed set.

Michelle says

HOT HOT HOT!!!!

HOT HOT HOT!!!!

Smoking hot stories to get you wet and wanting. I loved them. I will be getting more very soon. Thank you!

Nicole Baylor says

I finally finished!!! It took me forever to read because it was 7 books in one and I didn't have much time recently with it being July 4th. But oh my goodness these stories were.... HOT!!

Allison Gill says

It is always book to read a boxed set. Gives you a chance to try different authors in the similar styles. This is a great read. I would have given it 5 stars if it wasn't for 1 story. That is not saying the 1 was bad, just not for me. They were all well written and had great characters and relationships.

T Miller says

Normally I have a quote from each volume, and some input to each volume characters. For my first BDSM book, this was an "eye opener", jaw dropping and covering mental "eyes" from embarrassment kind of book.

If you did not know, BDSM means Bondage and Discipline, Sadism and Masochism. In short, it is Dominance and Submission (DS) who is in "control" and who is not in "control". Each volume has great storyline on the Surrender Organization and interaction on the various characters' relationships within the Surrender Organization. Each section/volume is stand alone storylines. The character's sexual interaction is detailed and informative, but at the same time not demeaning.

Overall for amount of stories you get within the boxed set, it was a great deal and no huge money lost. So my boxed set warning is: If you never read a BDSM, then be ready for whatever you eye's read.

Angie Shipman says

I bought this set from Amazon for .99. If you enjoy BDSM stories, then this boxed set is chock full of them. The common thread of these stories is a sex business called Surrender, Inc. Although they all have that

common thread, you can read them as stand alone stories and you wouldn't miss anything. The first story does explain the business and how it started, but you don't have to read that to follow the rest of the stories.

My main complaint is there are a lot of errors in these books. For someone like me, where errors might as well be in blinking neon, they can be a distraction. I actually adapted and automatically replaced in my mind what should be there. I'm trying to decide if that's a good thing or not!! So basically I would tell the authors to get an editor and if you already have one, find a new one! BUT, the nice thing about Amazon is it's a place where new writers can showcase their work, so I have to keep that in mind. Plus, I only paid .99!!

So to sum it up, if you're into BDSM stories and can overlook grammatical errors, then I'd recommend!

Angela says

Interesting

One interesting story after another, all characters in the series made each story entertaining to read. In their world no one is a lesbian or gay. They are a bunch of people that are secure within themselves and don't have a problem expressing themselves publicly or privately

Michelle Hembry says

I realize that a lot of the BDSM books are a little over the top but a lot are at least halfway believable and are a fun read. With that said, I didn't even finish this box set because it was ridiculously unbelievable. Not a fun read for me at all. Quite frankly, I found the first two stories badly written and just absurd. Although the first one was a tad bit better than the second.

Michelle .L says

A nice selection of stories for every taste. There are some that I wished were longer, some I didn't love as much as others.

Was this a novel escape? **Yes (8 out of 10)**

Would I check out other books by the author? **Yes (78 out of 10)**

Would I buy part two in the series? **Yes**

Erin says

A little of everything- a nice introduction
