Cowboy Heaven Cheryl Brooks

Cheryl Brooks, well known for her blazing hot love scenes, presents a smoking new erotic romance series set at a Wyoming ranch and featuring sexy-as-sin cowboys.

When widow Angela McClure decides to let loose and start a secret affair with a younger ranch hand, she inflames rancher Dusty Jackson's long simmering desire. Both men are irresistible - and forbidden - so Angela forms a plan to divert her old-fashioned father's suspicions: flirt with all of "her cowboys." The new competition makes Circle Bar K ranch hotter than it's ever been before...

Rebekah says

Angela is a widow who picks up a stranded handsome cowboy hitchhiker. . She offers him a job as a ranch hand, they also discuss being naughty together and decide he will be her "toy". At the same time the other ranch hands start coming out of the woodwork with promises of love or just a good time (depending on the cowboy). This book had a bit of an identity crisis. I feel like it tried to be a steamy erotica, and a romance and a comedy. THAT didn't really do it for me. I also had a hard time following her daydreams. Also, She seemed to be able to have the Big "O" spontaneously.. without any kind of buildup... and sometimes just by touching a nice butt. ?? NOT realistic. lol... I really liked the 3 ranch hands that have a thing for her though. I found that I couldn't put this book down, though I couldn't say why.

Sher♥ The Fabulous BookLover says

2.5 Stars

I felt like this book was trying to be too many things at once. Is it romance? Is it comedy? Is it erotica? This book is definitely fantasy, with Angela picking up an unknown hiker and immediately having sex with him, but I couldn't seem to warm up to the characters. The sex scenes were hot, but not tasteful. I didn't really see Troy as a hero or a man because he appeared so much like a boy and a toy.

3.25 Stars

I'm having a hard time deciding on whether I liked this book or not, because I can't tell if Ms. Brooks was intending for this to be a romance or a comedy. If it was comedy, then mission accomplished! But if it was intended to be more, it fell a little short of the mark. That's not to say that it wasn't an entertaining story. Or that it didn't make me want to own my own ranch and have my own stable of cowboys. It just was a little lacking in sophistication in the relationships for me to take it seriously.

Angela McClure is a widow with a bunkhouse full of cowboys that she doesn't seem to know that well. On her way home one day, she encounters Troy, a sexy, down on his luck cowboy and takes him home to work as a ranch hand and boy toy. Troy's presence seems to upset the balance at the ranch when Dusty, a cowboy who has loved Angela from afar for years despite rarely speaking to her, become jealous of the competition.

In order to throw off her father and the foreman's suspicions that she hired a cowboy strictly for sex, she decides that flirting with ALL of the cowboys would be a better option. Angela has been mourning her

husband's death for too long and finally coming out of her shell, she goes completely wild.

If you can call being giggly and having a "cutest balls" contest in the barn going wild.

The issues I had with the story were twofold. First, the descriptions. I could not get past the fact that the words "syrup", "honey" and "hot sauce" was used to describe how aroused the men were getting. Second, everyone fell in love too easily. It seemed every cowboy on the ranch was in love with Angela, despite that they never said more than two words to her. And she was afraid to start anything with any of these men for fear of having to deal with her father or the foreman, yet she picks up a hitchhiker and brings him home and installs him at the ranch for sex. Couple that with the fact that she seemed to kiss and fondle every man at the ranch in front of the others and no one has an issue with it, asks all of the cowboys to rank equipment size with all the others based on what they've seen in the showers, and holds contests on who has the best rear end, and it just didn't scream romance to me.

Overall, this was a fun romp through a bunkhouse full of sexy cowboys. But it was hard for me to take it seriously or understand the attraction the cowboys felt. As a comedy it was very entertaining. I think I just went into the story expecting a bit more.

Tiffany says

[It turns out to be a fantasy sequence in Angela's head (sneaky), but the first actual sex scene--in reality--follows not long after. (hide spoiler)]

Marta Cox says

This story is completely over the top and very unrealistic but it's fiction so anything goes right? Well for this reader maybe not. I've enjoyed other books I've read by this author and yes do realise that she seems to excel at smutty reads with a large dose of fun but this one fell short of the mark for me . It starts with the heroine, Angela picking up Troy a hitchhiker and almost immediately this lonely (and very horny) widow is fantasising about all sorts of things with him. Her overactive imagination nearly has her crashing the car and then reality steps in as this cowboy drifter seems only too eager to help out this damsel in distress! Problem is Angela is not completely alone. For a start she has two grown up sons ,then there's her father who she lives with oh and add to that an assortment of ranch hands who seem very protective of Angela. . In particular Dusty who works on the ranch and boy is his nose been put out of joint by the arrival of Troy! Yes there are several men vying for Angela's attentions but it soon becomes apparent that protection comes in many ways and not all are what Angela needs. Angela is one very frustrated woman but not for long with Troy around. I didn't enjoy reading how easily she picked him up and trusted him and if honest thought at times she was too stupid to live! Its no wonder that all the ranch hands feel they should watch out for her but things can and do go a little too far as the plot thickens. This book is quite amusing at times but it's all about the sex and plenty of it at that! A crazy story that could have been so much better. I am disappointed as this author usually entertains me but maybe this time she thought let's be totally outrageous and blow their minds(amongst other things!) but for me not my favourite book by Ms Brooks I was gifted a copy of this in exchange for an honest review

Ruthie Taylor says

"I received a free copy of this book to read and review for Wicked Reads"

This started off with a bit of a ?? moment until I realised it was a snippet of a fantasy. But actually sometimes reality is even stranger than dreaming, and for one 42 year old widowed Mum of two college boys, that certainly seemed to be the case here!

Lucky lady; funny book, and what a cast of amusing and entertaining men, who clearly fuel Angela's fantasies. This is hot, funny and endearing - I shall be putting it on my "guaranteed to cheer me up" pile. Naturally there is a touch of drama thrown in, but really it is her imagination that make this book cowboy heaven.

Tera says

Decent story that will sadly never rank well in my mental list of good books. Although to be fair its cause i struggled badly to even finish the book. No it wasn't horrible, but neither was it that good and it was all too easy for other books to pull my attention away from it. While i was at first really intrigued by the summary, the story somehow didn't quite hold the same interest in the end.
arc from NetGalley

Becky Condit says

Angela is a young widow who owns a ranch. She hasn't been interested in men since her husband's death. She is a kind person and picks up a hitchhiker. As it turns out, Angela's ranch hand is injured and when she finds out the hitchhiker is down on his luck she offers him a temporary job. Troy has recently been dumped by his girlfriend and left stranded. He's a rodeo cowboy without prospects since he doesn't have enough money to make it to the next rodeo on the circuit. Troy is good looking and turns Angela's crank, so when lust meets temptation, naughtiness ensues. This book is both amusing and romantic. Lots of fun between the covers, in both meanings of the word.

Jillyn says

So, I was originally drawn to this book because of the cover. I guess that was my first mistake- we all know you're not supposed to do that. I've been on a cowboy romance reading kick, so when I saw this cover and read the blurb, it sounded right up my alley. What's not to love about a group of sexy cowboys? Unfortunately, that fantasy just didn't happen for me.

I have no idea what genre this book is supposed to be. It came off as funny like a comedy at parts, but I don't even know if that was intended. It's kind of a western romance, but it honestly reads more like erotica. And

to be honest, I didn't even enjoy the sex scenes. I love erotica when it's done well, but these didn't do anything for me at all. They happened insanely fast and made everything seem cheesy and in poor taste. It was too much.

That's, in short, my problem with this book: too much. Too many cowboys, too many genres, too much dissatisfying sex scenes.

I think this is one of those books that a lot of other people will probably like, so if you like sex and cowboys, give it a go. But for me this was a miss, and I won't be looking for the next book in the series.

I was provided a copy of this book in exchange for my honest review. This review can also be found on my blog, Bitches n Prose.

Eva Millien says

The Circle Bar K ranch is hotter than ever as widow Angela McClure decides to avert her father's suspicious from her secretive affair by flirting with all 'her cowboys' in this delightful contemporary romance. Lots of spicy and fun dialogue adds to the overall delight of the story by adding a little fun and humor but also adding to the smoldering heat of the story. I was completely caught up in this steamy romance full of sexy cowboys from the very beginning and I can't wait to read the next one.

Michel Reinhard (Smut Book Junkie Reviews) says

Cowboy Heaven by Cheryl Brooks is the perfect book if you are looking for a fun, extremely erotic, humorous, and entertaining. The title is perfect for the book. The sexy cowboys are coming out of the woodwork and showing their riding abilities. A fantasy come true?

When middle aged Angela McClure picks up a gorgeous hitchhiking cowboy the fun begins. Her fantasies take over. When she takes him home to the ranch it triggers a stampede. All the ranch hands and cowboys that were oblivious to Angela are now paying attention. But it's the sexy young one, cowboy Troy, that has hers until Dusty Jackson makes his move.

The fantasies have began to jump out of her head and into her bed. Let the fun begin.

Cowboy Heaven was sizzling hot. The sex scenes were hotter than a branding iron. The story itself was not deep, not overly romantic, and overly emotional. It was just good reading entertainment.

The one impression this book left me with was how our inner feelings about ourselves reflect what people are seeing on the outside. Angela was feeling like an undesirable middle aged woman without much hope in the romance department. Once the young cowboy Troy paid attention and made her feel desirable once again, her inner beauty began to shine. When she began to shine, others took notice.

Jey says

2.5 stars.

This book had a bit of an identity crisis for me.

Is it a romantic comedy? Erotica? Potential ménage?

I'm not sure and because of that it just didn't work.

The female lead is 42 yet comes across as a high school girl, the male characters claim to have feelings for her yet are happy to watch her get in a clinch with just about anyone.

I'd like to say the sex scenes were hot but they were kind of cringeworthy and after struggling to get to 50% I had to skim read the rest.

Jonel Boyko says

What an intriguingly comical novel! Brooks combines the realities of ranch life with all of the intricacies of a number of people living together to create a wonderfully unforgettable tale. The well thought out story kept me on my toes throughout, weaving multiple threads throughout until the very end of the novel. Not only that, but the story is also hotter than anything. Brooks brings erotic fantasies to life with real life, loveable characters.

The female lead and her fantasies were unforgettable. The way that the main character thinks, what she sees, does, and wants to do paints a very vivid picture for the reader. Not only do we get a very in-depth, and at times comical, look at the character who drives this story forward, but her fantasies drive up the heat factor in this one tenfold. The ranch hands that she finds herself with are also a pleasure. The range of personality types was fantastic. And honestly, throw together a handful of hot, caring cowboys and you can't lose.

As a whole this was a remarkably unique, unforgettably comical novel. Brooks combines the best of erotic romance with all the wonders of ranch life in a fantastic novel that I'd recommend to anyone who enjoys their cowboys hot and plot lines well developed and unique.

Please note that I received a complimentary copy of this work in exchange for an honest review.

Shannon says

I would classify this book as comedy, camouflaged with cowboys on a ranch setting. A lucky rancher's daughter has a bunkhouse full of cowboy Casanovas: the hitchhiker (who shows her how desirable she still is), the broke legged (who has loved her from afar) & the shy/goofy (his ears aren't the only thing that is big). These men are ready to compete and drop trou to go for the win. There are a couple serious moments in the book, enter crazy cowboy.

I received an ARC via Netgalley in exchange for an honest review

Sarah says

9/6 - Alright, this is not working for me at all. There is absolutely no chemistry between Angela and Troy, or Angela and **any** of the ranch hands she uses to throw suspicion off the possibility of her having an affair with Troy (one of those aforementioned ranch hands, in case no one realised). Angela's reasoning for flirting with all the ranch hands to throw the suspicion off the idea of a relationship with Troy is so contrived it's laughable. It just seems like a horribly fake way to get the idea of Angela in the middle of a cowboy sandwich into the story. I'm not sure if anything actually happens because I haven't read that far, and likely never will.

Reading this makes me feel dirty, in a bad and disgusting way. This isn't romance, it's written down porn (as opposed to filmed porn) with all the feelings you would normally expect from that kind of movie. To me Angela and Troy act/feel like a pair of well-paid porn stars, not romantically linked characters in a romance, or even an erotica (in most of the eroticas I've read the characters exhibit **some** level of feeling for each other). DNF at page 60.

Considering the level of failure this book has reached I doubt I'll be making any effort to find any of Brooks' other books.
