Sinner's Creed Kim Jones

First in a new series—welcome to the Sinner’s Creed Motorcycle Club, where hard bodies and hot leather are made for each other, and love gone wrong is the most irresistible of all...

“I was the demon-possessed monster and she was the innocent, naïve angel. But none of that matters. She asks, I give and right now, I’ll kill anyone who tries to stop me from giving this woman what she wants—me.”

Dirk lives in the shadows—performing hits, maintaining order, and upholding the no-holds-barred legacy of the Sinner’s Creed Motorcycle Club. A nomad with a restless spirit and a cold heart, the open road is his world. One of the few constants in his life: his desire for the one woman who has consumed his thoughts for years.

Saylor Samson grew up far from the harshness of Dirk’s world. But ever since she was seventeen she’s been drawn to this dark and mysterious man who always seemed to show up just when she needed him.

After years of fated encounters, he’s back. This time he’s taking her. This time she’s ready for the ride. But just when the darkness in Dirk’s life begins to fade, Saylor reveals a secret that puts them both to the ultimate test. Now, Dirk has to make a decision: submit to his destiny with the MC, or choose his own.

I listened to this book on audible and I loved it! But....it fucking gutted me! I cried like a baby from about the 1/2 way point, and I couldn't stop. Kim Jones....you kill me, and I love you for it!

This author's talent is unbelievable. She has a way with making you live in the moment, making you feel every heartbeat, smell every scent, recognize every emotion.

Dirk is a Sinner. You want to hate him for all the bad he is and all the bad he's done, but you don't.

Saylor is everything. Well at least she is in the eyes of Dirk. She is pure, she is love, she is faith....but that's not all she is.

This book is the ultimate dirty, gritty, hardcore, MC, badass, alpha romance you will ever read! Kim Jones tells it like it is and holds nothing back. She will have you crying, laughing, and pissed off all in one book!

What a ride! If someone told me in advance what this book was about, I never would have read it...thank God I didn't know, I would have been missing out!! And I bitched in some of my comments about how expensive the book is....but let me tell you...it was worth every fucking dollar and then some! I would sell her my soul to get my hands on the next Sinner's book! I'm so glad I read this book!! Kim Jones...I'm forever grateful! Thank you for being spectacular!

My definition of a romance book includes a HEA (happy ever after). This book does NOT have a HEA, therefore, it's not a romance book.

Even if there had been a HEA, I still would have graded this book low, because I didn't like it. I couldn't stand the hero. The book starts with him stabbing someone 50 times in the face to be accepted by his grandfather and the MC. Redeemable? I kinda hoped, but no. He is the MC's assassin. He kills a lot of people. He is not a good person.

Felt like we don't get to know the heroine. TOTAL Insta-Love. Like - ridiculous insta-love.

Spoilers if you want them - **but they are big spoilers so please read at your own risk.**

4 *"You're late."* Stars

Sinner's Creed is a distinctly different kind of MC story in terms of plot yet still possesses all the crucial elements and tones of a good MC book.

I absolutely, without question loved this story. Structurally and plot wise it's amazing. The characterizations of both hero and heroine are perfect. I believe in them both and adore them both as I was rooting for them the entire story. The effect of the writing leaves you with a haunting, melancholy feeling as the two characters navigate what's happening their world so peacefully. Their present life is like a streak of sunshine on an inevitably gloomy day.

My rating is a four rather than a five because too often I was being told with many details what was going on instead of being shown. Some of the less important details of the story became the forefront in my readers mind rather than it be left up to my imagination. More subtly in the details would have left this story more powerful, in my opinion.

I will not diminish the beauty and impact of the story though. It's a great read, an interesting read, and an evocative read. It'll make you laugh, and swoon, and wonder, and cry. *Sinner's Creed* is a unique take on life within an MC and outside of it. It's growth and maturation, letting go and holding on. It's realizing through someone else the beauty of what's been there for years without you ever really knowing.

Just, WOW. My first Kim Jones book and it absolutely BLEW ME AWAY! Sinners Creed excited me, stunned me, shocked me and yes, even made me cry. Which is not an easy feat. Even if you've read a lot of MC books, this book will surprise you and thrill you and I can't recommend it highly enough.

This is an unwavering, no-holds-barred look into club life, with all of the violence, sex and raw emotion you can imagine. Brotherhood comes before all else, and these men will sacrifice everything for their brothers. Dirk is no exception: he has become a notorious enforcer, a nomad, who travels wherever Club business takes him, always alone, always doing what needs to be done, no matter what the price.

Saylor comes into his life quite by accident, and gradually, slowly, they develop a deep and loving bond. Dirk has lived a sad, brutal life, and Saylor finally is something good in his life. Saylor is running from something, and Dirk agrees to take her on his travels across the country.

It is best if you go into this book without knowing too much detail about the plot. I knew nothing about this book when I started reading it. It turns out that Saylor loves to ride, and really, she is the only joyful part of Dirk's violent existence. This book took a very surprising turn which was perfect for these two characters. Some will love it, some will not, but take a chance on *Sinner's Creed* and go on the Dirk and Saylor's journey with them. This book was magical, gritty, raw and beautiful all at once.

5 I hate you Imane for making me cry so much Stars

I have puffy eyes, this book did not only make me cry, it made me cry to the point of having puffy eyes !!! I walked into this story completely blind, I just dove into it to get my stupid ass friend to shut up about it, but maaaaan am I glad I did. This was not what you'd expect an MC book to be. It was so real, so emotional, and so gut wrenchingly beautiful.

Dirk made all the Christians, Gideons, and every other fucked up alpha male pale in comparison. He is a true biker: angry at the world but still holding on, messed up life but thankful to at least be alive, and taking lives as a job because why the hell not ! He is the most complex, most beautiful character I've ever come across, and the love and commitment he has for the club and the brotherhood makes him the sexiest character I've ever met.

I could ramble forever about this book but I can't do that without spoiling it for other readers, so I'm only going to say this: Just open the book and start reading, let it take you wherever it wants, I promise you won't be disappointed, I sure as hell wasn't because this book is now one of my all time favorites and is the best I've read so far this year.

4.5 Stars

I was the predator and she was the prey. I was the shark and she was the bait. I was the demon-possessed monster and she was the innocent, naive angel.

Have you ever read a book that touched you on such a visceral level you almost felt like you were *living* it along with the characters. Where you felt every emotion, every painful revelation, every bruise and emotional scar? A book that gutted you and at the same time you can't stop thinking about? A book that you just *know* will stay with you for a long while yet? Sinner's Creed was that book to me.

Sinner's Creed is unlike any other MC romance I've read in a long time, if ever. And that's saying a lot considering just how many books I've read in this genre. It's a gritty, unapologetic and violent. It's authentic and emotion and real. It's absolutely fucking gut wrenching. Kim Jones brought her A-game with this one and you can feel it on every page. I have a feeling this will be the book I compare all other MC books to. Is it a romance? At it's core, yes. But it's so much more than that...

What sets it apart is it's told entirely in Dirk's POV. The readers will get a front row seat into the mind of a truly broken man...and learn to love him for it.

This is a 1 percent MC. These are men who are trained to hurt, trained to endure hurt, and trained to kill. But only a few can compete with the best. And I'm the best. I'm the best at hurting, enduring, and killing. I'm the man they fear because I have nothing to lose, and they know that.

Dirk is a nomad National for Sinner's Creed MC. He's the shadow that you don't see coming, and only see right before your final breath. He's a third generation, and the MC life is all he knows. He grew up with violence and blood. The club is his life and his salvation. He rides for it, he kills for it, and he knows that

eventually he'll die for it. But then a blonde beauty rocks his world to it's very core.

Every man has a purpose. I always thought mine was with the MC. Now I know the real purpose of my existence. To be anything Saylor Samson wants me to be.

Their connection is instantaneous, and yet it also worked for me when normally I'd struggle with something that quick. But being inside Dirk's head really helped. Have you ever tried to show love to a dog that's been abused his whole life and trained only to kill? They don't know what to do with that affection. They equal parts fear it and yearn for it. That's exactly what happened with Dirk. This is a man that hasn't known an ounce of kindness or affection in his entire life, yet Saylor understands him in a way no other ever has. She accepts him for everything he is and falls for him anyway. But can a man that's the death dealer for an MC hold on to something so beautiful and fragile?

Who did I want more? Her of the club? I couldn't live a life where they both existed. It wasn't possible.

Saylor was a difficult character for me to truly grasp at first. Her behavior doesn't quite make sense at first. She comes across as almost too accepting of Dirk, considering they barely know each other when they get together. But let me tell you, there's a very good reason for it and once you find it out, all those puzzle pieces fit together.

You'll never have to worry about me feeling like this for anybody else, because there will never be anybody else. If what I feel for you is love, then you are what love is. And it doesn't exist if you don't.

Dirk and Saylor's relationship may have started off from 60 right away, but there was always something so fateful about it. I was totally buying what the author was selling and man oh man but she sold their love to me. I felt it to my very core. It could have been cheesy or OTT, but it never was. It was beautiful, and real, and authentic. I was eating it up with a spoon and loving every second of it.

I feel her love piercing my heart back together. I feel her body that moves in sexy sways in my arms. And I feel her soul. A soul that God didn't need to shine any mercy on. Because this one, this one was made perfect.

But don't think this is a lovely romance, because it's not. Kim Jones truly throws the reader into the underbelly of the MC life and spares no detail. It's violent, gritty, and unapologetic. It felt authentic and real as hell.

Now for my sensitive soul reader friends, please keep in mind that this story has a (view spoiler). Now as a reader, I strongly avoid those because man but they gut me. Yet the way everything concludes here just fit. It stayed true to the characters and their story and I couldn't imagine it any other way. I can tell you that I spent the entire last 30% of this book a hysterical and blubbing mess. I could barely read the pages though the constant stream of tears. But *god* it made me feel. It was such an authentic ending to such an incredible story that I loved it all the more for that. I recommend this book to any lovers of MC romance. Take a chance on this book, and I think you'll fall for Dirk and Saylor just as hard as I did. I can't wait to see what else this author has in store, because if this book is anything to go by, I already know I'll be in for one hell of a ride. Pun most definitely intended.

Kim Jones polished the chrome, oiled the leathers and donned on her favorite pair of shit kickers, in this highly explosive, action filled MC novel! If you're one of those people who wants hearts and flowers and happily ever afters, then go find a fairy tale. Sinner's Creed is made of the rough stuff, told from a badass male biker's POV. No this author doesn't pull any punches, not with the violence, bullets flying or the devastating heartbreak. I swear I cried like pansy ass baby from the halfway mark till the finish. This talented author deserves ten stars but regrettably I'm only able to give five, now onto the review!

Dirk knows what he's not. He's not the guy you want to bring home to meet pops or have working at some bank, idly twiddling his thumbs "saying how may I help you". No this man is the devil to the core, when you see him your time is up. Somewhere along the way you've pissed off the wrong person, in doing so you've dug your own grave. This club enforcer is the man nationals sends to remove a problem, he's the fixer, the executioner.

Saylor Samson is like the wind, appearing unexpectedly but no less leaving her mark.

But is there room in hell for the devil to have his own? Can Dirk keep face with his club and his enemies at bay? How far does one man have to journey to give the girl of his dreams the ride of her life?

After reading this, the song that played on repeat in my head was Eric Clapton's Tears in Heaven. Again a million times over to the author, thanks for the amazing read. I look forward to the next ride in the series!

Review for Sinner's Creed by Kim Jones.

I'm a little lost right now. I should wait to write this review until I have collected my thoughts. Until my edges aren't quite so frayed. Until the emotions aren't still washing through me in waves of anger, happiness, grief, love ... hope. I can't wait, I won't. This might be less of a review and more a purging of the riotous feelings that are beating at me, but it'll be honest and that's really the point, isn't it?

Kim Jones. I hadn't read a single word of hers prior to Clubwhore about ten days ago, she's a new-to-me author. I'll regretfully admit that I expected the typical MC book — bad boys doing bad things, loose women doing loose things, combative relationships that border more on toxic than romantic — I have never been so happy to be wrong about a book/author in the entire time I've been reading. She's an author who takes the harshness of the MC lifestyle and breathes life into it. Her characters crawl under your skin and make themselves at home. I'll proudly carry around pieces of Saylor and Dirk and the journey that brought them to the only end there ever could be.

A man of power.

A leader.

A ruthless enforcer.

A fucking legend.

Those words describe Dirk, Nomad National for Sinner's Creed MC and yet they tell you nothing at all about who he is. Dirk lives in darkness. He's the thing you fear about the dark and if he wants you to fear, you'll fear until your dying breath. There are moments in the book where I hated him so hard for who and what he was, but I loved him harder. Saylor is both his weakness and his strength. She didn't have a place in his world, but she fit perfectly.

Your good outweighs my evil and your love overpowers my hate.

Saylor Samson is like a buoy in the darkest waters of the ocean. She brings hope and relief to the drowning. She's got a guardian angel — Dirk shows up exactly when she needs him and he doesn't even realize it. Years pass, brief moments in time where they cross paths never actually meeting. I love how there is this deep connection without them knowing each other. The way she pulls strength from his presence and he soaks in her light.

The relationship starts tentatively. Fragile as the last thread holding it together. I absolutely loved watching them grow together. If ever there were a set of characters that could make a non-believer believe in soulmates — Dirk and Saylor are it. Bumps and bruises along the way, but not without the healing power of hope waiting in the wings. Beautiful.

Love, desire, want, need...It's a soul-shattering, heart-wrenching, burning passion that I can't stand to experience anymore.

You need to read this book. Have to read this book. It has every element that MC lovers crave and all the heart that romance lovers need. It almost seems blasphemous to call it erotic, but those scenes are there and are perfection. There isn't a single moment of this book that was disappointing. Kim Jones throws you on the back of Dirk's bike and he rides you hard to the end. From start to finish you'll be lost to the words on the pages, an absolute must read. Five Plus Stars and Five Plus Drenched Panties.

Anna's Herding Cats says

Edited to add a spoiler for those who are freaking out about the ending...

If I could stop crying it would make writing this review so much easier. Sinner's Creed is an interesting read. It's not your typical romance. It's not your typical happily ever after. For some people they're going to love that. For others it might not work. Going in I knew what was coming with the storyline (I'd asked for spoilers ahead of time) and even going into this one knowing everything I knew it was still a read that dang near gutted me and had me bawling by the end. It's gritty, raw, sweet, sexy, heartbreaking, inspiring... it's a read that will grip your heart tightly and will leave you both devastated and smiling over the love two broken and lonely people were able to create.

It's told from the hero's POV. He's not really a good guy. He's done horrible things in his life and continues to do them but the one good thing has been always being there at just the right time for a stranger who's path keeps crossing his. Someone who is light to his darkness and needs him as much as he needs her. I actually really liked both the hero and heroine. They're so very different but fit each other perfectly. The connection between them was powerful and strong right from the start and they jump in feet first. But somehow it worked. The feeling of Fate or divine intervention surround them quite often. It's a hard path they're sent down. One that showed their strength and love and brought out both the good and sometimes bad in them as they dealt with it.

My only complaint was writing that felt somewhat stilted now and again because of its lack of contractions. (It is Monday vs It's Monday) Nothing technically wrong with it but it just felt awkward sometimes. A minor complaint overall, though.

Overall Sinner's Creed is a different sort of romance. Jones took a big risk with this one but I think it paid off. The romance and love between these two is overwhelming and beautiful even if it's heartbreaking. Hang in there though. There's a happy ending...of sorts. It just might not be what you expect.

And spoiler about the ending (view spoiler)

Sophie "Beware Of The Reader" says

When Bella Jewel meets Kim Holden you get Sinner's Creed.

I've never read Kim Jones books before and this one I won in a giveaway. I thought I would have your "typical" biker book but the story was everything but.

You have the one percenter, the nomad, the chapters and the dirty work but it was so much more. On one hand, it was harsh with punishment and retribution but on the other hand, it was beautiful and poetic and sad, so sad.

Dirk was brutal, killed and tortured without remorse but he was also protective, caring and tender. The love story was intense as it was lived to the fullest but it was also tragic, like a biker Romeo and Juliet.

I'm glad I won this book as now I've discovered a new author I'll be happy to follow.

Abby McCarthy says

I went to bed cursing Kim Jones last night because she isn't my friend on facebook. I wanted to reach out to her and scream why!!! No that's not right, I wanted to tell her I was broken. I wanted her to tell me it was all make-believe and to not be upset. I wanted, no I needed solace.

Kim Jones writes on a completely new level, from the Kim Jones I've read in the past, and although I've enjoyed her previous work, this by far is superb. But, be prepared, she will gut you in this story.

This is Dirks story (Male POV) a member of Sinners Creed MC. It's about growing up in a difficult situation, his struggle with believing it made him a monster and if he's worthy enough for love.

Saylor straight reminds me of Jenny from Forest Gump. She is free spirited and when I picture her, I picture her in a white dress with flowers in her hair. But not just that, I see her through Dirk's eyes. I see her how he loved her; perfect.

Kim Jones created scenes and moments that will be etched into heart and soul.

I went in blind, I'd have you too. I'm not going to tell you why you'll break, but be prepared to be the masochistic reader that you are, because as much as you'll break you'll also fall in love.

Side note: I'm told by friends of mine that Kim is hysterical. I cracked up at her dedications to her sisters. Also, in the midst of being ripped into pieces by Kim she goes and throws in a line about Harper Sloan that had me giggling and breaking through some of my hurt, because she is funny, even when she's torturing you.

Natalie says

I fully admit that I went into this book with pre-conceived notions. I have never read a Kim Jones book before but I am no stranger to talks of her talent. I had heard great things about her Saving Dallas series and even bought a copy which I'm sure is sitting somewhere in the black hole that is my kindle. When I saw that she was coming out with a new MC series I figured this was the perfect time to start on my Kim Jones journey. When I later learned that she actually lives an MC life as an old lady it sealed the deal. If anyone would know how to make this series realistic it has to be someone who lives it right?

So my journey began on a random weekday and I started to read. Sinner's Creed started off really well, albeit in typical MC fashion. I was however instantly pulled in. The story had a great, almost tangible feel to it that I can only equate to Kim's descriptive writing.

Dirk Dixon is a Sinner's Creed nomad, a traveling hit man for the organization. He kills people, lots of them without remorse. He is nobody's hero and never pretends to be. As you would expect from this type of book he also has a scarred background, and lives a gritty yet lonely life. All of the things I love about my MC men.

Then we meet Saylor Samson. Young, beautiful, innocent and with an unknown past that only adds to her intrigue. Again, I loved it. I loved her character, I loved her faith and I loved the style with which Kim Jones wrote her.

Everything is going along fabulously and then the love happens. It is fast but it is also surprisingly chaste and sweet and just what you want for these two people who haven't had much good in their lives. I liked the two characters together so much that I didn't mind the quickness of their relationship or the fact that we really don't yet know a whole lot about them.

So I keep reading, happy with my decision to give this book a try, thinking I can't wait for the next one in the series since the secondary character Shady is really great and I want more of him.

And then...

Then the tears start. Not just a little mist. Not even a quiet sob. I can only relate my crying to a torrential downpour - a monsoon of tears. An avalanche of sorrow and beauty that when combined makes this story so touching.

This book does not have a conventional ending, which I know a lot of readers will not appreciate. I however have never been the type of person that needs a traditional HEA to love a book (although in my heart this book did have its own unique HEA). I just want a great story that makes me feel and this book certainly accomplished that. I applaud Kim for the direction she took this story. I don't think it could have ended any other way. It was completely unexpected especially for a gritty MC but it worked. Sinner's Creed was heartbreaking but also beautiful and I hope you give it a chance just like I did.
