## **Mountain Lion** Terry Bolryder

This sexy shifter is never giving up...

Mountain lion shifter Wyatt Reynolds has finally found something to fight for. Life has been a bit lonely for the tall, sexy cowboy on his upscale Montana ranch, but he never found the right woman to settle down with. Until a small, mysterious person walks into his office one day, hidden under bulky men's clothing and needing his help.

Valerie knows not to trust men. After being raised in the remote Montana mountains with a terrible father that sold her to the highest bidder because of her rare blood, she has written men off forever. When she comes to Wyatt looking for a job, all she wants is a place that's safe, quiet, and will allow her the freedom to finally live a life of her own. But what she doesn't realize is that a tall, ripped cougar shifter might be enough man to give a woman ideas.

Though they start as friends, Valerie is starting to get sexy thoughts about Wyatt that she never intended, and Wyatt seems to feel exactly the same way. But even as friends become lovers, Valerie's dark past remains a constant threat. The men who want her aren't giving up, but neither is Wyatt. Anyone who threatens this mountain lion's mate is going to see his claws.

Book 4 of the Bear Haven series or can be read alone as a satisfying standalone!

## From Reader Review Mountain Lion for online ebook

### Astraycat says

I liked how H treated h and how he respected her space. I even liked the first part of story. But the second part I was confused by h, one minute she didn't want to commit to H, the next minutes she realized he was her mate. All in all, this story had potential.

---

### Elisa Hordon says

Loved this one glad to read Wyatt's happy ending

---

### Cheri says

Wyatt, the well dressed, well mannered neighbor to the Bear Shifters can't understand why they all have mates and he doesn't. It isn't at though he doesn't want one. Their part of the country isn't exactly crawling with available mate possibilities. Yet those three managed to settle down. He was happy for them. Then: a bundled up, dusty, small little man (at least he thought it was a man) applied for a job. The guy just wasn't Dude Ranch material. Maybe the Bears could use him. But, there was just something that got his curiosity up and he followed the guy to the bar. Good thing—the guy was a gal and she was in trouble.

Is Wyatt just being a good Samaritan? Valery has some real issues, and ones he wants to take care of. But it is those very issues that make him keep two steps back—just where she wants him—or does she?

Watching their relationship grow is a touching story. She has more strength hidden inside than she knows. What will it take to bring it out? And if she does will it be too late.

The steamy scenes are touching as well as hot. You will want to read this one and see Wyatt deal with his mate situation.

I once again read this and ended with a good feeling and a smile on my face. A strong recommend.

I was provided an ARC for an honest review.

### Jennymort ? Dark Lordette says

I think this was the only relationship that didn't only take 3 days. It took **WEEKS** for them to get to the point of mating.

I like it. I dig it in fact. Get to know a girl before going all neanderthal on her. \*wiggle eyebrows\* Show a girl that not all men are assholes and douchebag city boys.

GET. ME. A. COWBOY.

### **Charlotte says**

Okay Read not my favorite of the series. I like Wyatt..glad he got his happy ending.

---

### **Betsy :D says**

I LIKE IT A LOT!! I wish it had been longer it was somewhat of a short read.

---

### **Jessica says**

This was my favorite story in the series. It was fast paced, sweet, sexy, the hero didn't just claim his mate and voila, all is perfect. There were struggles they had to overcome to get to their HEA.

---

### **Marianne says**

**Get to find out how a mountain lion gets his woman.**

She shows up in oversized clothes, looking for a job and then leaves and gets into trouble at the bar in town, thank god Wyatt is there and from there comes more of the adventures.

Read and enjoy.

#### **Review**

This series is starting to grow on me, I still think it's under developed in characters and story lines but that said I'M still reading them.

---

### **Hollie says**

This is such a sweet series. I just can't get enough. The hero in this book, Wyatt, was absolute perfection. He was so patient, understanding and protective of the heroine from the beginning to end. I wish more heroes were portrayed in such a gentlemanly way. I will definitely be checking out more of this series.

---

### **Alisa says**

3.5 stars to the whole series.

---

### **Linda Levine says**

Wyatt is a cougar shifter without a mate or any family. He envies his friends but is not quite ready for making a lifetime commitment. When a stranger comes asking for a job, he knows something is up and doesn't suspect their true secret. When he realizes it is a woman on the run, he gives her a job. Valerie is not used to any kindness from men and has a hard time adjusting but begins to view him as a friend. She is not looking to submit to any man and as both of their feelings start to deepen it scares them both. They also have to deal with her past once and for all.

I enjoyed the story. I liked that Valerie was a strong woman who didn't expect others to take care of her. She just wanted a chance to be free and was not afraid of hard work. When she realized her feelings were changing for Wyatt, she was honest with him even when that hurt him. Wyatt is a kind man and he likes his comforts. He was missing that feeling of having someone special in his life but reluctant to make a change due to his parents and their issues. He does open himself up to Valerie and take a chance. They have great chemistry and he teaches her how to enjoy her sexuality.

I received a copy in return for a honest review.

---

### **Erika says**

4 stars

Really sweet and sexy shifter novella. Hero was a kind, protective and patient man. The heroine was resistant, which normally bugs me, but this was short, so it was fine.

The only odd part was that the characters appeared to be talking in human voices while in their animal forms. I was never really clear on how that worked.

---

### **Nikki says**

I love this series more and more with each new book!!! Wyatt is a mountain lion shifter running an upscale dude ranch on his family land in Montana. Wyatt has a weird reaction during an interview with a gruff scruffy male but sends him away since he doesn't fit the ranch in appearance, Wyatt follows the male to the bar in town since his instincts won't let him do anything else. After rescuing the male from the locals at the bar, he discovers the he is actually a she, on the run and covered in bruises from abuse. Valerie ran away from the man her father sold her to for breeding since she is part cat shifter. She trusts no one, especially men, but desperately needs a job and has always loved horses. She goes home with Wyatt and accepts his job offer even though she thinks it was offered in pity, because she could still be in danger and just wants to be safe for the first time in her life. Wyatt befriends her and fights a constant battle against desire and

possessive protectedness towards Valerie. He will do anything to keep her safe and to convince her that not all men are scum, that some are worth trusting and loving. The whole series is just fantastic!!! I can't wait to see what's next...maybe a certain tiger...???

---

## **RJ says**

DNF

God, what an annoying heroine. I quit. I just can't handle her. She has this amazing man wanting to worship the ground she walks on and she just shits all over that. This is the first time when the H mentioned finding another mate I was like YES! Hurt her like she's hurting you. I tried to understand where she's coming from but I can't take this until the end. It's beyond frustrating.
