The World Book Discovery Encyclopedia

World Book

The World Book Discovery Encyclopedia World Book

The World Book Discovery Encyclopedia is designed to help meet research standards for students in early grades. Learning Through Exploration supports information literacy instruction, with questions designed to help students practice and apply research skills using features of the Discovery Encyclopedia. Activity sheets challenge students to answer questions using features like charts, timelines, maps, cross-references, and illustrations. Includes an answer key and suggested follow-up activities. World Book also offers a complimentary online version of Learning Through Exploration and other activity guides that align with the revised Student Discovery Encyclopedia.
