## **Our Secret Wedding** H.J. Perry

A friends-to-lovers, feel-good gay romance. Contains a whole lot of man-on-man love action, and an elopement to Gretna Green for a secret wedding.

Impulsive and romantic, Connor is set to take over the family business, Sky High Scaffolds, with his siblings. But he might be ruled out as possible CEO, because even though he's almost thirty, he's still single. Connor makes a life-changing chance discovery about a member of his construction team. Lee is gay, but no one at work knows. The macho scaffolding crew aren't known for their gay-friendliness.

At twenty-nine years of age, sexy scaffolder Lee is looking for love and commitment. He's not about to hook up with any straight guy who's going through a gay experimental phase. Especially not his work colleague, Connor.

Lee fears rejection if and when Connor wakes up and realizes he's not bisexual and not into guys. Connor fears losing the love of his life if he can't prove he's serious about him and win Lee's heart.

Standalone novel, there is no cliffhanger, no cheating, and there is a happy ending.

Book 1 in the Sky High Scaffolders series.

55,000 words of gay construction workers friends to lovers romance.

Our Secret Wedding is a sweet and sexy friends-to-lovers story about Connor and Lee.

Connor works for the family scaffolding business. He is possibly in line to take over as CEO when his dad retires, but might be ruled out because he is almost thirty and still single.

When out with some friends one night, Connor see's Lee with another man and realizes that he is gay- but no one knows at work. Construction workers are not gay. Period.

Lee is looking for love and commitment. At twenty-nine, he is not looking to fool around or be some straight guys gay experiment - especially not his bosses son. He also fears rejection if Connor suddenly decides he is no longer into men.

Connor fears loosing the love of his life if he can't convince Lee that he is truly serious and committed to him. He will do whatever it takes, including a secret wedding at Gretna Green, to win Lee's heart.

This story is sweet and romantic, with lots of emotion and just a little angst. The sexy times are hot, hot, hot and plenty.

Once again, HJ Perry deliverers a feel good story that will leave you with a smile on your face.

#### An okay romance with a few niggles

When I read a book which is set in the UK, I expect it to read like that, I don't expect to see someone's bottom referred to as a butt or ass instead of bum or arse, I don't expect someone to drive on the highway rather than on a motorway, I don't expect someone to get a check rather than a cheque. Oh, and when I need clean clothes, I do my washing, not the laundry. That only happens if I actually go to a laundrette and there's not many of them around the UK outside of EastEnders!

All little niggles perhaps but enough to take me out of the supposed British-ness of the setting. And driving up the M6, Liverpool's turning comes before Manchester's and its only the longest single route motorway in the UK since earlier this year in 2016 if you include the A14 bit at the beginning and the A74 bit at the end.

Anyways, minor irritants, this book was okay, I liked Connor and Lee, but the dialogue was a little teenage at times and they didn't read like two men almost 30.

There was also very little drama or conflict to add to the story so it all just muddled along. Unfortunately it felt a little bit beige throughout.

I'm putting this aside for now. The story just isn't grabbing my attention.

One MC thinks he and the other MC are BFFs, the other MC considers him a casual work friend. It's awkward and I'm not feeling it.

I wasn't feeling this one and almost DNF. The dialogue was awkward and the writing choppy; there was zero character development.

Kudos to the author for writing a bi MC, but I wish that aspect of the story had been explored. It was just so sudden and easy. The relationship fell flat; low on the steam, too.

Closer to 1.5, rounding up because I'm feeling generous.

Cute story a lot of potential. Not enough history. Not enough depth...

I really wanted to like this, since it is one of my favorite tropes. But, something about the sentence structure and pacing really made this one difficult for me to get through. There were some struggles with using names vs 'he', particularly when a character is thinking to himself and keeps referring to himself by name. Also, there is a lot of telling/thinking vs showing. Things are really spelled out, and often more than once.

On the other hand, I was confused about their friendship. At times, it seems like they are close friends, but then at other times, not so much. Early on, Connor refers to Lee as his best friend, but Lee thinks of Connor as more of an acquaintance. Yet Connor has been to Lee's place enough times to feel comfortable there. Not to mention that Connor's thoughts and behavior are a bit odd at the beginning.

I was trying to power through, but gave up after the first sex scene, about 38% in. Sorry, but this was a DNF for me.

I don't know what to say about this one.

I enjoyed the plot and the friends to lovers theme. I like both Mc's and the sexy times were nice but there was something missing for me. There is a lot of potential here but I felt like there was more opportunity here to make us feel a little more connected with the story had we had more background on the friendship. That's another thing for lifelong friends they didn't seem to know much about each other or at least it wasn't revealed. Overall it's a nice story and I would like to see what happens to them next.

### **Deb says**

One and a half stars. This reads like a story between two robots having a romance. On second thought, I'm being unfair to the current state of artificial intelligence which generally does a much better job at humanizing the speech patterns of AI computer voices than the author does with this pair. The writing is stilted, repetitive and superficial. Characters are given to reciting as dialogue the kind of things that would just be interior thoughts, leaving pretty much nothing for them to think about. There is just this weird emotionless quality to everything, like characters are talking about things that they don't actually feel. Even the sex scenes are mechanical at best.

There is zero conflict, either externally or internally. It is just a continuous description of one perfect scene after another in which both parties are completely and utterly satisfied with absolutely everything. I started skimming about a third in as it was really boring. The ending was a dud and I can't imagine wanting to read anything further about this idyllic couple and their absolutely perfect lives.

At start, I wasn't so sure about my rating, because they talked really too much, but in the end they grew on me and my rating went to 4 stars. Simple but nice story, about two friends, one gay and the other bisexual(also if never dated a man yet), that understand they don't need to search anymore for the perfect lover, but find out that person was always near them, since they were 4 and for the first time met at school. The fact that they were 29, hot and always horny was a bonus XD ..call me a perv.

Construction workers!

This is my first book of this author and even I LOVE low angst books , this one is too much xD  
All is so perfect that is so unbelievable!!

The plot is about Connor that one night found out that one of his coworker is gay and since he has been always attracted to him in silence, decided to go and ask him out. BUT Connor has never been with a man before and I don't know why he is like a super obsessed with Lee now... At least Lee tell him to SHOW that actual love slowly with diferent dates and don't agree to date him from the begginging! (I liked that)

BUT I must add that the part (view spoiler)

I'm between 2 and 3\* :) I'm going to try more works from this author!

### S says

Cringe-worthy. I couldn't get past the scene in which Connor -- who has crashed Lee's place in the early morning -- initiates a sexual come-on by taking off his shirt, and Lee, who is feeling unsafe, vulnerable, and completely blindsided by his colleague and BOSS, **TAKES HIS OFF TOO!!!!!!**

Please.

Yes, that's the first thing I do when I'm feeling vulnerable.

2.5 stars

There were parts I enjoyed but more that I did not.

If Conner asked one more time if he had a chance I was going to throw my tablet through a window. It got old real fast. I did not like how Conner thought they were bf's but Lee just thought they were casual sometimes work friends. The time jumps were strange as we missed all the good parts. Conner first time bottoming, their whole asking their friends to stand up with them and the whole wedding and honeymoon. We did not get to see what happened after Conner parents found out they were married. I did like the way they talked, flirted and trusted each other. I thought they were adorable together. I just feel this could have been an awesome book but fell flat.

### Denise H. says

\*\*\* This is a marvelous English tale of two muscled construction workers who realize they are meant for each other. Connor and Lee have known each other since they were 4 yrs. old. Now, at 29, Connor accidentally sees Lee holding a man's ass while they kiss in an alley. For Connor, his hidden feelings bubble up -- he wants Lee. So, he goes to Lee and puts it out on the table for discussion. Lee is ready for his "one", and doesn't want a fling or experiment.

So, they agree to hang out and get to know each other as adults. There's a hot kiss and some first times for Connor, and he's on board all the way. He feels strong, deep emotions because it's Lee, not just some other

man. They are perfect for each other. They progress, and I loved how they spoke up and really talked to each other with honesty and excitement. We get magnificent characters, lively and vivid. The story is steady and grips your heart. Their sexy times are super sizzling, and we want more. There are surprises along the way, an injury, a coming out, and a holiday getaway.

This is an amazing story with a bright epilogue.

Highly recommended. ENJOY !
