Savage Art Danielle Girard

This is an alternate cover edition for B00V98F5PW

Death was his art. She would be his masterpiece.

They called him Leonardo—a master skilled in the art of murder. One year ago, Cincinnati was his canvas. A scalpel was his tool. And women were his works-in-progress. FBI profiler Casey McKinley was one of them, a victim of Leonardo's twisted genius. She has the scars—and the nightmares—to prove it.

For Casey, a new city means a life far from the one she left behind in Cincinnati. In San Francisco she finally feels safe. Until a series of eerily familiar slayings plunges her back into Leonardo's game. Now she must catch this clever killer before he can unveil his ultimate masterpiece. Only this time she'll play by a different set of rules—hers.

Savage Art Details

Paula14189 Evans says

Loved it! Best so far!

Courtney says

Shocking good read... pun intended. The suspense starts at page one and carries unabated until the finale. Actually found myself finding excuses to delay getting to the end, both because I didn't want it to end and because I was so apprehensive of what was going to happen. I am flabbergasted at the low ratings. Maybe those folks were looking for a cozy mystery? Maybe that's also where they should stay. I hope the author has a future outing planned for Casey McKinley. Great character.

bonnie kirchner says

Savage Art

Omg. This was a fantastic book. The end of the book was really thrilling. It is a worth reading book. I highly recommend this book

Mollie says

Savage Art by Danielle Girard (2000)

Cathy says

A; An FBI thriller where a serial killer uses a scalpel to create artful works on his living victims. Casey (FBI chick) survived her attack but loses just about everything else. She is pulled back into his game as the murders continue and she's a mark.

Freyja Vanadis says

Ugh. What a silly, ridiculous little book.

Myrna says

Not a bad first effort.

Andrea oller says

Love it!!!

Danielle Girard is quickly becoming one of my favorite authors! She needs to write faster though, because I have managed to get through all of her books this week and it seems most others will be inferior!

Tina says

Pretty good

Veronica Lamb says

I kept hoping it would end while still hoping it would last for a very long time.

Oh, how I love a book that grabs you from the first page until the last. The ending had me on the edge of my seat. I kept hoping it would end while still hoping it would last for a very long time.

I had so much to do while I couldn't put the Kindle down. Had to get to the climax. Great job Ms. Girard!!!

Charlotte Romero says

Very very good book

Kept me on the edge of my seat. Very good book. I would recommend this book to family members and friends.

Gloria Perry says

Really draws you in from the beginning

I like the way the characters are developed and interact with each other. A few times it was obvious what was going to happen, but I'm pretty hard to fool. I wouldn't mind seeing these two work together again.

Bob says

Fun serial killer book. Second read was just,as good!

Kathy says

I enjoyed this read.I am not sure why it is a low rating..I really like this author's writing style.. She has lots of turns and twists.. This one had my heart pounding at the end..I LOVE it when your heat beats faster because of reading!! Oh the intensity... I do recommend this if you like thrillers....

The Badger says

2.5 stars because Savage Art just read too much like a wannabe Criminal Minds Episode. Seriously, this would've made an ok mini-series episode, but the characters lacked any depth (killer included). Apparently Casey was set up by the FBI in the first place and things went wrong, but we never find out who set her up, why, or exactly what went wrong. We also never learn why the perp changes MO. So yeah, crappy tv show material. Also, none of the characters are likable except for the one that dies (unrelated to the murders). And when I say none, I literally mean it. I don't like Casey, I don't like Jordan, I don't even like their respective kids. If one of them had a pet goldfish, I probably would've hated it, too.
