Patrick says

I've certainly read worse. I'm trying real hard to like this series/book/crossover. I want to like Venom again, but this relaunch didn't start off making it easy.

There's a little more humor here than before, so that's a plus.

Kim says

Had absolutely no idea what the hell was going on in this... felt like I'd skipped a few issues so I frantically read back to make sure... nope!! It's a tie in from another series which is extremely annoying that no backstory was given whatsoever really... please DO NOT make me drop this Venom book, Marvel. It's legit the only book I'm currently reading by you...
