### Ana Karen says

Soy una gran fan de Taylor (Swiftie lml) por lo tanto me sentía obligada a leer esta biografía "no autorizada". Ademas de que la mayoría de datos que venian aqui ya los sabia, este libro me ponía estadísticas (de ventas, etc) y he de decir que complemento mi conocimiento sobre mi cantante favorita :)

---

### Emily says

This book doesn't have as much detail as some of the others available and it set out in chapters instead of easy to read sections. It is smaller than most of these which is a positive. I wouldn't buy this if you are looking for one book as it's more of a collectors item. It would make a good present for a Taylor fan or as a travel book.

Maravilloso, soy Swiftie ? & es grandioso que nos escuchen & hagan su biografía. Aunque lamentablemente no está tan actualizada. Pero muy buena. :)

## **Eli says**

El libro ha sido una fuente de información buena, aunque me hubiese gustado encontrarme con una versión más actualizada. Taylor Swift es un ejemplo de perseverancia, pasión y dedicación. Nunca abandones tus sueños y tarde o temprano los cumplirás.
