NB: The copyright page states that the book is written by Joan Powers, the cover that A.A. Milne provided the inspiration.

Pooh, the Bear of Little Brain, has a perspective on things that is, to say the least, unique. This amusing little book offers suggestions and reminders on how to live a good life - Winnie-the-Pooh style.

On topics ranging from Teatime (Proper Teas are superior to Very Nearly Teas) to Tails (they're not just a Little Bit Extra at the back), the advice proffered here could only come from that enchanted place, the Hundred Acre Wood. And it could only be inspired by Pooh, the Best Bear in All the World.

About 3.5 stars for me

While I never actually read any Winnie the Pooh books or watched any of the cartoons when I was a kid, this book has been sitting on a shelf in my house for as long as I can remember.

While I did flip through it from time to time, today was my first time reading every quote.

It definitely made me feel better, and I did learn a few very important things:

- A. If you ever get stuck in a hole/door that was too tight- chances are you'll stay there for at least a week
- B. A balloon is a great tool to have while in search for honey- assuming said honey is real
- C. Never climb a tree if you don't know how to climb down from it
- D. Always check to make sure your rope is indeed a rope and not your friends' tail

All jokes aside- there are some really important messages hidden in this book, and I hope to keep coming back to them whenever I feel a bit down. I would definitely recommend it as a nice gift to give someone who could use some humor and inspiration from time to time :)

An amusing, cute little illustrated coffee table book. We read ours in snippets, occassionally, after dinner. Some favorite quotes:

"People who don't Think probably don't have Brains; rather, they have grey fluff that's blown into their heads by mistake."

"When selecting a new bell-rope for your front door, make sure it isn't someone else's tail."

"When you are pretty sure that an Adventure is going to happen, brush the honey off your nose and spruce yourself up as best you can, so as to look Ready for Anything."

Rad. Very short but fun collection of Winnie the Pooh sound bites, but hilarious in its unconventional wisdom. Nice for a daily dose of one or two quotes.

I always trust Pooh and Paddington Bear.

J Crossley says

Pooh Bear presents a fresh way of looking at the world.

My love for the Bear of Very Little Brain was only enhanced by this collection of the most valuable lessons learned throughout the course of his adventures. Priceless nuggets were included such as this...

"When looking at your two paws, as soon as you have decided which of them is the right one, then you can be sure the other one is the left."

and this

"When you're visiting a friend and you find that it is time for a little smackerel of something, try looking wistfully in the direction of the cupboard."

valuable advice, that.

"When making an expotition to discover the North Pole, be sure someone in the group knows what the North Pole looks like."

Ah, Pooh Bear, where would I be without you?

"We can't all, and some of us don't.
That's all there is to it." Eeyore

A.A. Milne is surely rolling in his grave. This book was written years after his death and isn't anything like the original Winnie the Pooh books (which consist of Winnie the Pooh and The House at Pooh Corner). Instead of an incredibly well written story as the real Winnie the Pooh books are this book consists of cheap phrases used to make money off of a book that few have even read.

It was okay. A bit random, though. I think I was looking for it to be more along the lines of The Tao of Pooh so my expectations may have been too steep. I think it could have been way better with a more organized flow to it and more of the zen-y quotes.

Kloka ord till stora som små!

Shirley Revill says

My manual for life. I think everyone should read the sayings of Winnie the Pooh.
Awesome.

Dewi says

Don't underestimate the value of Doing Nothing, of just going along, listening to all the things you can't hear, and not bothering.

Mckinley says

Small book ideas based on Winnie the Pooh.

Nancy says

Geweldige wijsheden van Pooh en z'n vriendjes, zoals:

'Je moet wel respect hebben voor iemand die FEBRUARI kan spellen, ook al spelt hij hem verkeerd.'

en:

'Je schiet er niets mee op als voor de tweede helft van een gesprek alleen iemands staart nog maar in zicht is.'

Vooruit, nog eentje:

Soms is een boot een boot en soms is het meer een ongeluk. Het hangt ervan af of je eronder of erbovenop zit.'

Natuurlijk is het boekje een beetje het uitmelken van het 'product Pooh', maar de weetjes zijn wel erg vermakelijk, zeker als je Pooh-fan bent.
